Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (or a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"COLUMBUS, OHIO, Aug. 8, 1858.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 3, 1858.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 9, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects*. IT IS ACCOMPLISHING WONDERS.

"LOWELL, O. July 6, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success*. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 25, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure," is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula*.

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile signature.*

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $2; three Bottles, $5; Concentrated Solution, by mail, *pre-paid*, $3. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(2d door, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL
MODE OF TREATING
Spermatorrhoea, Nervous Debility,
Marasmus or Wasting Consumption.
AND ALL
Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability; hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift-Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

IMPORTANT TO THE PUBLIC.—The N. Y. Central R. R. have given notice to all western roads that on and after Sept. 1st, they will not receive any tickets that are over fifteen days old, and further, that they will refuse all tickets that are not properly dated and signed by the agent selling them. They have recently had a decision in their favor in this matter, and they are determined to refuse all tickets that were sold previous to August 15th, and will refuse all tickets after fifteen days from date of sale.

A Mrs. Brown rescued her sister last Monday from a New York dance-house, and it was shown in court that the keeper of the house was their brother. Recently he went on to Bremen for the sister rescued from his den. He paid her passage, and she came to New York and took up her residence with him. The married sister, Mrs. Brown, hearing that her sister was with her brother, went to his house to get her away, and he refused to let her go.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They HEM, FELL, GATHER, AND STITCH in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which A CHILD OF TEN YEARS may readily learn to use them, and keep them in order. They make upwards of FIVE HUNDRED STITCHES A MINUTE and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The Great Eastern.

On the 25th of the present month, it is definitely settled that the Great Eastern is to start on her first voyage across the ocean. We have little conception of this great vessel, its full size, seemingly cannot approach us from across the water, and the minds picture of it is only of a large steamship. Our good grandmothers will better appreciate its magnitude by stating that it is forty per cent. larger than Noah's Ark. How the world must have grown, to be sure, to hold so big a vessel, and yet how inadequate it would be at this day to take two of every kind of beasts, and creeping things with water and forage for their forty days journey upon the face of the great deep.

Think of all this village—its dwellings and outhouses, its iron and other machinery made up into one big ship, with its people and their provisions on board, and the whole place, with every moveable thing in it would not begin to make, or populate the great Eastern.

Ten thousand people can find room, and beds, and provisions on this floating borough for a trip across the Atlantic, and yet she will have storage for all her coals, and for freight enough to pay the cost of the whole voyage. Just think of ten thousand people going down into the sea in a ship! Who begins to get an idea of the magnitude of the thing?—and yet this is a reality. Within one month from the present time, according to the advertisements in the London papers, the Great Eastern will be poking its nose into the eastern shore of North America, some say at Newport, others say she will steer direct for New York. Wherever she touches she will be welcome, only that she don't touch bottom, we hope that she will always hold herself above that.

A Steady Man Found.

It is encouraging in these unsteady times to find that the race of steady men has not become entirely extinct.

The Troy Times gives an account of a Mr. Kink who become a resident of that city in 1822 as journeyman currier and has worked at his trade for Elias Plumb about fifteen years, and for Joseph Gary nearly the same length of time. He has visited New York only once since he left there, and that was thirty-six years ago.—He has not been in West Troy over three times in thirty-six years. He has been at the Nail Works but once during that time and Ida Hill but twice, the last time some ten years ago. He was never at Albia but once—that was in 1828. He has no recollection of ever having seen the Washington Market. He was never at Cohoes, has not been in Lansingburgh in fifteen years, and more than thirty years has elapsed since he has visited Waterford. He has not been in Albany in twenty years. Mr. King has never traveled to the extent of a dozen miles by steamboat or railroad car.

This is what we call *steadiness*. There are few more intelligent and no more industrious men than Mr. King. Deprived of all educational advantages, he has acquired a vast fund of useful information, and is well posted in history as well as in all the current events of the day. Few men have had the benefit of more reading than Mr. King and he remembers what is read. He is hale and hearty, full of sociality and humor, and still plies himself as vigorously as ever, and is perfectly contented in his honorable vocation of a journeyman currier. He is literally a home man and a good citizen.

The "Aurora Borealis" which shone out so vividly on Sunday night, put the operators of the Newfoundland telegraph lines to their stumps to get their messages over. It is now rendered certain that the foundation of this unfathomable phenomena, is the action of electrical currents.

Cold Weather.

What a cold snap suggests to a Buffalo Editor may be gathered from the following which we take from the Republic:—The 1st of Autumn came in with a flourish of blasts and winds, and a declaration of war to summer. To-day is rather cold, a great deal colder, we opine, than circumstances call for, and as far as economy goes, necessitates the purchase and the consumption of extra coal, wood and kindlinks—entirely out of season. We are reminded by this rather chilly snap, although as yet no leaves have fallen, of the proximity of coal fires and rose blankets; of drawn curtains and comfortable slippers and dressing-gowns; of poverty, suffering and misery; of brilliant parties and desolate starvation; of levity and of despair; frivolity and suffering, and all those joys and sorrows that make up a Northern winter not excepting Buffalo robes, relief societies, sleigh bells, and gaunt and shivering hunger. Cold weather with its joys, brings much of terror and complaint to the poor, that the summer most kindly shields them from.

ANOTHER FLORENCE NIGHTINGALE.—Much has been said of the devotion of the Milanese to the wounded soldiers; but the following, which seems to be well authenticated, if not highly colored, has never been surpassed. A captain of the 85th regiment of the French line, M. Mary, of Agovac, who was himself in one of the Milan hospitals, suffering from a wound received at Magenta, thus writes;

"A very rich lady of Milan had placed twenty-five beds in one of her mansions for the wounded soldiers. Among the unfortunates was a grenadier of the 70th regiment, in an almost hopeless condition, having had a limb amputated after the battle of Magenta. While this kind lady was consoling him, she spoke of his family to him, and he informed her that he was the son of poor peasants in the department Gers—that all his despair in dying was to leave them in misery, since he alone had maintained them; adding that it would be a very great consolation to him to embrace his mother ere he died. The lady, without holding out any delusive hopes, left him, went directly by railroad to the department of the Gers; when, after having left about $400 with the family, she brought the soldier's mother with her to Milan; and five days after the conversation had with the wounded grenadier, the son embraced his mother in tears, and heartily thanking his benefactress. Since that period the mother dwells in the palace, at the expense of the Countess, who undertakes to return her to her home; and every day now the poor mother may be seen near her son's bed, whose health is returning because of the joy he experiences."

ATTEMPTING TO FLY.—The Madison Journal relates the following incident:

Two or three weeks since a man named Whiting, living near Sun Prairie, in this county, got religion so bad that he was too pure for the prairie, and accordingly attempted to come to Madison, or some other religious place. He was too pure to travel like a mortal, and having faith that he could fly to his destination, he attempted the experiment. He procured an umbrella, and climed to the topmost branches of a tree in the skirts of a timber. After hoisting his umbrella, he jumped from the tree, and began to kick and squabble, thereby thinking to propel himself through the air. La Mountain or Wise did not work harder than our hero, but, alas! for human calculations, instead of going ahead he quickly descended to the ground, holding on to the umbrella for dear life. He at last reached *terra firma* in a sound state, and has now made up his mind that faith is a good thing, but should not be taken in too large doses.

BUSINESS REVIVING.—As an evidence of it, the Albany Statesman says yesterday the number of cars which arrived at this city footed up to 250—a larger number than has reached town on any single day since the panic in 1857. It is supposed that the September business of the Central Railroad will exceed the business of any former September in the history of the road.

The New World last evening took down 250 tons of freight. This is an immense load, and kept the square piled with goods during the whole day.

The Merchants Line is also doing a splendid freight business. All this shows that hard times are fizzling out and that a good time is coming.

The New York correspondent of the Savannah Republican says: "There is a story afloat, and I believe very well authenticated, that an agent of a Minnesota Railroad, lately visiting this city, lost, at one of the Broadway gambling hells in one night, Minnesota bonds valued at $160,000. They were recovered on the payment of $30,000, and the Westerner returned home a wiser and a better man."

A Mass of Steamboat Stock Going to Decay.

The correspondent of the Troy Times, writing from the West, says:

At the ample docks of the Michigan Central Railwap in Detroit, lie now, as they have for two years past, five or six splendid steamers, constructed by that company at an expense of a million and a half, with a design of forming a connection between their terminus at Detroit and that of the New York Central at Buffalo. They were beautified with every appliance of invention and art, provided with all the conveniences and luxuries that were deemed calculated to answer the demands of the traveling public; but it was no use; the locomotives were quicker, if they were not so splendidly furnished; the public would save the time and forego the luxury. So the lake shore railroads whistled business off to Buffalo, and the palatial steamboats lie idle, with the seaweeds gathering about their mighty wheels, and the barnacles clinging to their hulls. One hundred thousand dollars a year is thus eaten up in interest, to say nothing of the continual depredations of the property in value. No wonder that the stocks of the Michigan Central Company hang so very far below par. The utter folly of the enterprise needs no better illustration than that one of the steamers, which cost three hundred thousand dollars, is under lease to an eastern company for twelve hundred dollars a year.—No amount of adroit management would seem effectual to overcome the evils of such an incumbus, and until the steamboats are in some manner disposed of, it can hardly be supposed that Central stocks will advance much in value, however great the transportation of grain from the producing districts of the Northwest to the seaboard.

James Random must have rather a hard time of it as an Iowa editor. The editors in that State shoot habitually at random.

"John, since you have taken to krinking you are only a half a man." "Oh! you mean I'm a demi-John."

"My dear husband, am I not your only treasure? "Certainly, and I should like to lay you up in heaven."

A lady may give her husband a piece of her mind if she chooses, but she shouldn't break the *peace*.

The Tartars invite a man to drink by gently pulling his ear. A good many of our people will generally "take a pull" without waiting to have their ears pulled.

Young people contemplating marriage, should be careful not to make delusive impressions upon each other's minds. Do your courting in your everyday clothes.

A man went to the Mayor with a complaint that his money had been stolen while he was asleep. "But why did you sleep when thieves were about?" asked the Mayor. "Because I thought that you and your subordinates were awake."

The world must have great minds, even as it has great spheres or suns, to govern the lesser ones; to keep them in their places and to light and heat them.

A wag has invented a new telegraph.—He proposes to place a line of women fifty steps apart and commit the news to the first as a secret.

A New York mercantile house held an unsettled claim of long standing against a lame duck "out West;" and hearing he was becoming "well-to-do," sent their claim on to a western lawyer to collect.—In due time they received a reply which effectually laid any hope they might have entertained of receiving their money. It ran this wise: "Gents: You will never get any spondulick from Bill Johnson. The undersigned called upon him yesterday, and found him with nary tile; his feet upon the naked earth; and not clothes enough upon him to wad a gun!" We call that an expressive simile.

At a camp meeting in East Kingston, New Hampshire, a Deputy Sheriff was arrested for peddling cakes and pies without a license. After paying his fine, $5 and cost, he arrested Elder J. V. Hines for selling "Second Advent" books, who was fined like the Sheriff, but he refused to pay and went to jail, confident that the Millennium had not yet come.

THE GREAT EASTERN.—Captain MILLER, of the steamer America, reports that when he left Liverpool, tickets for passage by the Great Eastern to Portland were issued at £42 for the trip out and back—passengers to have the privilege of living on board the ship during her stay at Portland.

The Boston Gazette says measures are being taken to have the Great Eastern visit Boston after her trip to Portland.—The Pilots of Boston guarantee to bring her safe into that harbor.

Why Gen. Wm. Walker is flying about the country few know, and still fewer, perhaps, care to know. He flew through Cincinnati last week to Louisville.

"Ma, that nice young man, Mr. Saufrung is very fond of kissing." "Mind your sewing Emma; who told you such nonsense?" [illegible] his own lips."

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffacable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, so all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of *some of the best* male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville, Write for it regularly, whilst scores of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS,

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, the Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads *of the* Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,
EDITORS AND PROPRIETORS,
22 BEEKMAN STREET, NEW YORK.

BY TELEGRAPH.

The Great Eastern to come to New York.

BOSTON, Thursday, Sept. 1, 1859.

Messrs. Nazro Bros & Sweeney, Boston agents of the Galway line of steamers, have received private advices which confirm previous reports that the steamship Great Eastern will make her first trip from Galway for New York *via* St. John's, N. F.

BOSTON, Sept 2.

The sloop-of-war Cumberland, which arrived yesterday at Portsmouth, left at Madeira Aug 8th the frigate Constellation which was to proceed, in a few days, for the coast of Africa.

The ship Protector, of Boston, from Liverpool for Aden, put into Madeira Aug 2d, Capt. Crocker, having been stabbed by a negro seaman.

Captain Crocker was attended by the surgeon of the Cumberland, and had so far recovered as to proceed on his voyage before the Cumberland sailed. The negro culprit was brought home in the sloop of war for trial.

The Cumberland sailed from Boston June 23, 1855, and has lost but two men during her whole cruise of twenty-six months.

NEW YORK, Sept. 2

The North American Telegraph Association is now in session at the St. Nichols Hotel in this city.

We understand that the Association, which embraces all the leading telegraph lines of the country, except two, have under consideration several propositions which are calculated to effect important changes in the business of telegraphing between the north and the south on the seaboard. We also understand that the proceedings thus far have been harmonious.

The steamship Cahawba made the run from New Orleans in 6 days and 11 hours the quickest run on record, via Havana. She left the latter port on the evening of the 29th.

A party of Americans have obtained permission to import cattle from Texas six months free of duty.

There were few American vessels in port.

The health of Havana was improving.

The Cahawba brings $150,000 in specie from New Orleans.

At the book trade sale to-day, the invoices of G. P. Putnam, of New York, and Carey & McMillan and Gaspar Harding, of Philadelphia, were offered.

The bidding was very spirited, and large sales were made of Harding's Imperial Bibles; 12,000 to 15,000 sold. Mason's Musical publications, 26,000. Webster's Quarto Dictionary, 11,000.

The steamships Baltic and Atlantic are advertised to leave for Aspinwall on the 5th and 20th of October respectively.

BOSTON, Sept. 2

Gov. Banks has extended invitations to the Executives of various states, to be present at the muster and review of the entire military force of the State, which assembles at Concord on the 7th.

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compounds; he furnishes all physicians in good standing with the recipe of their ingredients, and sells the Pills sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, get a few doses of Herrick's Matchless Pills.—[Boston Record.

PHYSICIANS USE THEM.

☞Dr. C. T. Poncost, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. Please accept my thanks for the can of pills which reached me this morning by express. Enclosed find the amount of your bill. Sold everywhere.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT,

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less feverish pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*

Ask your neighbors about the *New Medical Salt*. If sick, try. If not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is. As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should be fearful to try the New Medical Salt.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!
It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!
"Bill's" Lager is the best of drink,
It makes a man feel all he'd think;
It warms him through and through, you know
And puts his senses in a glow.
It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*
Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.
So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!
So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,

Scrofula, or King's Ev

is a constitutional disease, a corruption of blood, by which this fluid becomes vitia weak, and poor. Being in the circulation pervades the whole body, and may burst ou disease on any part of it. No organ is free f its attacks, nor is there one which it may destroy. The scrofulous taint is variously ca by mercurial disease, low living, disordered unhealthy food, impure air, filth, and fi habits, the depressing vices, and, above all, the venereal infection. Whatever be its ori it is hereditary in the constitution, descend "from parents to children unto the third fourth generation;" indeed, it seems to be rod of Him who says, "I will visit the iniqui of the fathers upon their children."

Its effects commence by deposition from blood of corrupt or ulcerous matter, which the lungs, liver, and internal organs, is ter tubercles; in the glands, swellings; and on surface, eruptions or sores. This foul cor tion, which genders in the blood, depresses energies of life, so that scrofulous constitu not only suffer from scrofulous complaints, they have far less power to withstand the att of other diseases: consequently, vast num perish by disorders which, although not scr lous in their nature are still rendered fatal this taint in the system. DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) is to be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"Columbus, Ohio, Aug. 5, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the Hypophosphites *than from all other forms of medication combined.*"

"Manchester, Mich., Aug. 3, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"Middlebury, Vt., Aug. 6, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"Shepherdstown, Va., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases and am *delighted with its effects.* It is ACCOMPLISHING WONDERS.

"Lowell, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success.* It was regarded as HOPELESS by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"Chatham, Pa., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It has WORKED WONDERS IN EVERY CASE."

Consumptives, in any stage of the Disease, should resort *immediately* to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup, in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

Prices.—One Bottle, $1; three Bottles, $2; Concentrated Solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic Inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift——Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

A Lady on Beards.

The editress of the Rockford News makes the following very sensible remarks in reply to a lady who has been writing savagely against beards:

Now, we always admired the effect of a nicely trimmed, soft, silken beard; not one of the bristly appendages, whose short, wiry projections are like the plunging into a flock of full grown hedgehogs; but the full, clean, carefully cut, and nicely kept beard and moustache, which, to our thinking, impart a look of kindness, benevolence, and even distinction, to the most ordinary individual. If there is anything that is disgusting, it is a great, broad, flat, flabby, face, destitute of this claim to honorable manliness. A shaven face is suggestive of a craven—one can hardly believe him to be a man, he seems to belong to a sort of hybrid race—half man, half woman without the strength of the one or the tenderness of the other.

All the old traditions are in favor of long, and abandoned hair in women, and full flowing beards for men; and we confess to a liking from both. Only monks and Chinamen are ever seen with round, cropped heads, and faces; and it ought to be considered disgraceful for a woman to have her hair cut off like a convict, or a man not to wear a beard. They are also healthy as well as becoming; they prevent throat disease, bronchitis, and neuralgia; and it is presumed, with a very great show of truth, by physicians, that the reason of the prevalence of these diseases among ministers, is the uniform habit of clean, and close shaving which obtains among them.

If there had been no use for them, we cannot see what the growth was intended for; but being there, it seems like impugning the wisdom and taste of the Creator to systematically destroy his handy-work. With a handsome beard, a man may pass for good looking though he were own cousin to Diogenes; but without, he must look soft, and moony, though he descended in a direct line from Plato.

THE GROVER & BAKER
Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

The Incentives to Crime.

A woman arraigned on a charge of having caused the death of her husband and children by the deliberate administration of poison for that purpose, is perhaps one of the most revolting spectacles the vagaries and vices of human nature can admit to offend the enlightened senses of a christian community.

To wipe out such a bloody stain, and show that a deed so dark and terrible cannot be the act of a deliberate purpose—to prove that such an act was not committed, if it admits of proof, notwithstanding the sequences; or, if such fact must be admitted, to show that it could not be a *rational* malignant murderous purpose—is but merely a duty man owes to his humanity.

This crimson hue that spots and mars the broad face of human nature is a sad drawback upon the aspirations of those who hope for human good.

The old axiom says: "every effect must have a cause equal to itself." Wherein can lie the motive that can induce the mother to deliberately cut off the growing life of her offspring, or the husband by whom that offspring comes? The calm thought of the mother answers, there can be none; and yet there are those who say the deed is done.

When we admit that human nature is capable of yielding her hand to so gross a violation of the law both divine and human—is capable of deliberately sundering the bonds wove by the strong cords of maternal instinct; we charge upon the nature of man a depravity that is not human, something that is unnatural, and therefore needs a motive, or at least an explanation.

There are incentives to crime that outweigh all *moral* considerations, with the truly depraved, and one of these is the unyielding clutch of avarice, which, when it gets fairly hold of its victim will hurl him on to deeds of the most desperate dye. Revenge, when it gets a seat in the soul and drives out the angel monitor, conscience, will sometimes nerve the arm and overshadow the mind so as to cut off the view of the consequences, and thus leave the hand to fall in a fatal stroke.

There must be a motive, or an impulse incompatible with reason to act as an incentive to such a crime, or crimes as we are considering, and we have but to search the records of our abodes for the insane to find how feeble a thing is human reason, and how strangely it often wanders from the right—wanders too, all unconscious of the deep blood red dye that will follow on yielding to its proclivities. There must be a motive that outweighs all conscience, all mercy or love of offspring, and all fear of retribution, or else there must be a loss of reason upon some one point obliterating the moral perceptions, or such crimes could not be committed. Human testimony however honest it may be, is not infallible, and it should be weighed well before it is taken as proof positive of a most unnatural crime against God and man, and conscience.

The Albany Standard, a pseudo-Democratic Paper, supported and driven by Whigs as a sort of wedge to split the Democracy, fellowships with the Batavia *Democrat* in the following characteristic style of language.

"The feeling existing in Genesee against Dean Richmond, shows that his friend Cagger should prepare for death. A year ago Mr. Richmond was a perfect autocrat in Genesee. Whenever Mr. Richmond threw up his hat he expected every man, woman and child in the county to shout "long live the king." Mr. Richmond is now so greatly reduced in power that he can only secure his election to a State Convention by means of sharp practice and shoulder-hitters. In consequence of this sharp practice, there is some probability that Mr. Richmond will have his seat contested by a delegate who represents the people instead of a clique.

* * * * *

For the opposition which has sprung up in the County of Genesee, the most unbounded praise is due that courageous little sheet "the Batavia Democrat." In another year the Democrat will reduce Richmond to the ranks. Putting up the annual expenditures of the Batavia office from $518 to $5,300 will not save him."—*Albany Evening Standard.*

DEAN RICHMOND was never as strong in Genesee County, as he is to-day. His vote of 45 out of 49 in the Convention here on the 1st, shows how widely the above statement is at variance from the truth.

Never was there a political Convention of any party held in this place that was more orderly, better represented, or more unanimous than the one that made Mr. Richmond delegate to the State Convention.

The opposition consists only of a few "hangers on" that Mr. Richmond has cast off, of whom there is scarcely a shadow left, and who are perfectly paralysed, unable to do more than to utter their anguish in death struggles through the *Democrat.* The idea that "Mr. Richmond will have his seat contested by a delegate that represents the people" is excessively funny.

The "unbounded praise" that "is due that courageous little sheet the *Democrat*" is heard of only in the *Standard*, and shows where it stands. Who ever heard of a cur that would'nt snarl when in a tight place.

"Putting up the annual expenditures of the Batavia office," as indicated in the above figures, is but an inglorious tale of the *Democrat*, and has once been fully answered to in the columns of the WEEKLY HERALD, and therefore needs no comment here. Don't put your reliance in broken reeds Mr. *Standard*, if you can't swim dont venture—it isn't safe.

NOTICING ARRIVALS.—The Troy Times has come out in favor of the English custom of publishing births, and absolutely advertises for them by saying that such notices shall receive a gratuitous insertion, although in England, a happy father is glad to send the editor a guinea with the joyful announcement that he has a son or a daughter. The Utica Telegraph offers to give the little chaps a line on arrival by way of the *Telegraph*, where the parents are willing, and we have little doubt but that soon the custom will obtain currency, and be generally adopted. At present our boarding-school made mothers, who have been brought up to say prunes and prisms, with the genuine pucker, think it exceedingly indelicate to fulfill the divine injunction and bear injunction and bear children, or especially to have anything said about it in the papers, but Queen Victoria and Eugenia are doing all they possibly can to dispell this effeminate weakness.

EXTENSIVE ROBBERY IN SCHENECTADY—CHAUNCEY VIBBARD'S RESIDENCE ENTERED BY BURGLARS.—We learn, says the Albany Statesman, that the residence of CHAUNCEY VIBBARD, General Superintendent of the N. Y. Central Railroad, was entered by burglars on Saturday last and robbed of jewelry, consisting of Gold watches, Diamond rings, pins, silver ware and money, to the value of some $1,500. A large share of the property belonged to visitors. The burglary was perpetrated, undoubtedly, by experienced thieves, who to secure their booty, entered the sleeping apartments. It is said that four men took the four o'clock train at Schenectady, bound this way this morning; but of course it was impossible to say whether they were the thieves or not.

RELIEF OF NEURALGIA.—As this dreadful disease, says an exchange, is becoming more prevalent than formerly, and as doctors have discovered no method or medicine that will permanently cure it, we simply state that for some time past a member of our family has suffered most intensely from it, and could find no sure relief from any remedy applied, until we saw an article that recommended the application of horseradish to the face for the toothache. As neuralgia and the toothache are both nervous diseases, we thought the remedy for the one would be likely to give relief to the other; so we made the application of horseradish, bruised, applied to the side of the body where the disease was seated. It gave almost instant relief to the severe attack of neuralgia.—Since then we have applied it several times, and with the same gratifying result. The remedy is simple, cheap, and may be within the reach of every one. So says the Detroit Advertiser.

THE GREAT EASTERN COMING TO NEW YORK.—It is now definitely settled that the mammoth ship will sail from Galaway on the 15th of september, direct for the port of New York, consigned to WELLS, FARGO & CO. The change in her destination has been made through the exertions of Mr. LEVER, whose Liberal offer of $100,000 for the charter of her for the first trip has been accepted. It is supposed she will sail on her return trip from New York about the last of this month.

NEW YORK BRANDY.—A liquor dealer in Boston purchased a barrel of New York brandy a few weeks ago, and stored it in the loft. A few days ago he inspected the same, and found that the brandy had eaten away completely the wood-work of the barrel, hoops and all, and nothing but the bung-hole was left.

[From the Phila. Pennsylvania Inquirer.]

NEW AND PROSPEROUS SETTLEMENT.—Hammonton on the Camden and Atlantic Railroad, is a flourishing village settled chiefly by New Englanders, who wish to escape their frosty climate, and by persons from the West, who are engaged in the grape culture. One year ago the settlement commenced, and since then has a population of fifteen hundred. They have built about three hundred houses, opened four stores, several hotels, one steam saw and planing mill, and one water power saw and planing mill, with schools, churches, and brick yards. They have set out since, forty vinyards, and in short, established a settlement, which from the respectability of the settlers, is destined to become one of the most important and influential places in the State of New Jersey. Grape growers are of the opinion that the strip of land between the Little and the Great Egg Harbor rivers is the best for the vine, owing to both soil and climate, of any that has been found in the country. From the extent they are entering into the buisiness, a supply of pure and unadulterated wines may soon be expected.—They who have raised crops at Hammonton represent that the soil is very productive. It is not surprising that the place should increase so rapidly, when it is considered the advantages over the West in health, climate and market. Crops are secure from frost, that blighting enemy that robs the farmer of the north of so much of his labor and profit.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,
EDITORS AND PROPRIETORS,
27 BEEKMAN STREET, NEW YORK.

Latest News.

BY TELEGRAPH.

ST. JOHNS, N. B., Sept. 3.

A boat containing ten persons was upset off the harbor this morning. Four women, one man and three boys were drowned.

New Haven, September 3.

The postoffice in this city was entered last night by burglars, who bored through the back door. They searched through all the bags they could find, but they obtained only the way mails. It is not supposed that any large amount of money was taken.

Some counterfeit bills which they found may lead to their detection.

PHILADELPHIA, Sept. 4.

The ship Sir John Franklin, at this port from Liverpool, spoke, Aug. 10, the steamship England, 150 days from Calcutta for London, under sail, her engines being out of order. She was short of provisions, and the crew had been subsisting on one meal a day for 50 days. The England had 38 passengers, most of whom were ladies and children. The Sir John Franklin supplied their wants.

QUEBEC, Sept. 4—9 P. M.

There were no signs of the steamship North Briton at Farther Point at 8 o'clock this morning.

This evening the line is down between this city and Farther Point, and there is no chance of a resumption before morning.

WASHINGTON, Sept. 4

The government has been advised by General Harney of his proceedings in taking possession of the Island of San Juan, and the steamer of to-morrow will convey to him a reply. From what has transpired, it is reasonable to infer that the position of the administration admits of no compromise, it being fully satisfied that the Island belongs to the United States.

Official notice is given that in all cases in which preemption declaratory statements, founded on a bona fide actual settlement and cultivation made prior and up to date filed by settlers before the ninth of October, the registers and receivers are directed, where the preemption claimants are unable to and do not prove and pay for their tracts at or before that time, to withhold such actual and cultivation tracts from the public sales in Minnesota to take place in October and November.

BALTIMORE, Sept. 4.

The law-and-order town meeting to-morrow will be an immense affair. Rowdyism has already quailed. A full, independent ticket will be nominated.

Baltimore is bad enough, but the sensation reporters awfully exaggerate the state of affairs.

At the legal investigation of the steamboat outrage, 42 witnesses were examined, and not one heard or saw any violence to a female. Other parts of the report were equally magnified.

STARTLING EVIDENCE.

LET THE SICK HEAR.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their composition; he furnishes all physicians in good standing with the receipt of their ingredients, and sells the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Parsons, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. Please accept my thanks for the use of pills which reached me this morning by express. Enclosed find the amount of your bill. Sold everywhere.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of inflamation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is As it is not a Patent Medicine, but the ption of an eminent Physician, no one should fail to try the New Medical Salt. For old testimonial and directions see circular

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!
It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!
"Bill's" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.
It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*
BILL'S glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.
So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!
So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is DR. REYNOLDS'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Nichols' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLDS'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfill this desideratum; it is perfectly safe; no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (at a period, consequently, when there can be no uncertainty as to the nature of the disease) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"COLUMBUS, OHIO, Aug. 6, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 3, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 8, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* It is ACCOMPLISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, who ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as HOPELESS by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 30, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising the Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $5; Concentrated Solution, by mail, *prepaid,* $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to prevent the few who may be unacquainted with us, we would state that we have no connection with any other Gift—Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

Dean Richmond has caused a suit to be commenced against us, to *stop* the running of this paper. A large bundle of papers have been served, including summons, complaint, affidavits, injunction, bonds, &c.—We have not read them through, but have read the affidavits far enough to see there is a great deal of hard swearing. The paper will *continue to run*, notwithstanding this suit; but if by any hard and false swearing it should happen to be stopped, we shall establish a *Daily*.

The above appears in last Week's *Democrat*. Of course then we are to have another Daily paper in Batavia. Nothing like daily papers to make business lively. Bryant & Stratton's Mercantile Colleges.

This chain of colleges extending through the country under the direction of Messrs B. & S. have become recognized as among the most useful institutions of the land.—Neither labor nor expense has been spared to make them thoroughly practical.—Among the many recent improvements is the establishment of a regularly organized Banking Department for which they have been to the expense of getting Bank Notes Engraved, so that the student has all the facilities afforded by a first Class Banking House, For practicability and thoroughness they excel.

DISCOVERY OF A MAN WHO ASSERTS THAT HE SAW BLONDIN CROSS THE ROPE.—Only one person has yet made his appearance to contradict the *expose* of the Blondin Rope-Walking hoax at Niagara Falls made by a correspondent of the N. Y. Times. The Albany Knickerbocker, which seems to have an extraordinary degree of credulity, has discovered the individual, and places implicit confidence in his testimony. It may be well to remark that the Knickerbocker is not regarded as very high authority at best, and that its responsible editor is now in Europe. It says:

> The letter in the Times is the best piece of lying we have seen in five years.—That Blondin did perform all the feats attributed to him, hundreds in this city can testify. Among those who saw him was the son of Matthew McMahon, Esq., of Albany. This youth attends college within three miles of Niagara. He accompanied one of the teachers to the exhibition and saw Blondin perform all the wonders referred to in the Buffalo and Rochester papers. Master McMahon is now in this city.

We fear that the unsupported testimony of "Master McMahon" will amount to very little as against the evidence of an old resident at the Falls inserted in such a respectable journal as the N. Y. Times.—Furthermore, how do we know that there is any such man as "Matthew McMahon, Esq.," at Albany? *He* may be a "myth—The Knickerbocker itself should remember that on a disputed question of this character sworn testimony is required to satisfy the public mind *vide* the famous "Silver Lake Snake" sensation and other monstrous discoveries of this wonderful nineteenth century. Get up a few affidavits.—*Rochester Union.*

The Queen of England, the Queen of Spain, the Empress of Austria, the Princess of Prussia and the Empress Eugene are———.

Mrs. Digby read the above paragraph in the evening paper and coming to the long dash she with maternal gravity remarked: "Wall, I suppose they *are*, and I'm glad the editor has given them a long mark.

The St. Paul Pioneer says that the speech of Ex-Gov. Seymour before the Democratic Club was the most able, convincing, and courteous political address ever delivered in St. Paul. "not only the Democracy but the opposition," says The Pioneer, "were loud in praise of Gov. Seymour's efforts. He leaves in Minnesota hosts of warm friends."

A Second Sam Patch.

TONAWANDA, Indian Falls, Sept. 1.

On Thursday last, 25th ult, the Indian Falls on the Tonawanda Indian Reservation, or the 12,800 acre track, was the scene of great excitement. According to previous appointment, a certain Robinson, living in our township, made his appearance upon the ground dressed in flesh colored tights, trimmed with red for the purpose of leaping off the falls. A scaffold some twenty feet high had been erected the day before on top of the Indian falls. At the appointed time 5 o'clock p. m. this second Sam Patch ascended the scaffold, his beard is some eighteen or twenty inches long, and as he stood upon his scaffold some five minutes, he addressed the large assembly in a few remarks.

The Leap—Robinson Patch made his wonderful leap down into the fall below, leaping a distance of forty five or fifty feet from the top of the scaffold. In passing through the air with his long hair standing out and his beard turned up, he reminded me of the affrighted angel Gabriel in his descent from heaven to earth. He made his leap and arose from the water amid the cheers of twelve or fifteen hundred people who had assembled for the purpose of seeing him. Mons. Blondin was outdone entirely, he only walked upon a rope, but the second "Sam Patch" leaps and flies through the are, which is the greatest feat. Niagara and Blondin has got to be an old story, Rochester's Mons. DeLave will also soon be forgotten, when the Tonawanda Indian Falls, and second "Sam Patch" will out strip both of the above.

The Louisiana Sugar Planter says that a young man, employed as overseer on one of the cotton plantations in Mississippi, recently fell heir to a fortune, by the death of an uncle in Georgia, of nearly half a million of dollars. He had never seen his relative, and had been employed as an overseer, for some ten year's, at a salary varying from $300 to $500, in South Carolina.

The Washington correspondent of The Philadelphia Press says that none need be surprised if Mr. Buchanan should formally announce that General Houston was the only man fit to be nominated at Charleston as the Democratic condidate for President. The correspondent also says that a number of the warmest friends of Mr. Vice-President Breckinridge are actively cooperating with the friends of Judge Douglas. This is especially so in Ohio, Kentucky, and Tennessee.

Mr. Charles Dickens is not coming to this country after all, if we may believe The Philadelphia Press. That journal is informed by a letter from London that Mr. Dickens declined the "magnificent terms" offered by Mr. J. C. Evans of this city, who went to London to engage him to make a reading tour through the United States. "Mr. Dickens cannot afford at any price," adds The Press "to leave England and (All the year round) for the time which his voyage and tour would occupy.

A correspondent of The London Post tells of a Japanese girl, who, in spite of the laws prohibiting emigration, left by stealth for Shanghae, under the persuasion of a Frenchman. The owners of the steamer sent her back to Japan. "On arriving, the vessel was boarded at once by a couple of officials, who affected to ignore her presence until all the formalities were completed, and then took her into custody.—The poor thing struggled against her fate in vain. She was landed, and, as I am informed, condemned to death, together with all her relatives, and some officer or officers who ought to have prevented her escape."

BUSINESS ON THE CENTRAL ROAD.—Business on the Central Road is increasing, Wednesday, the number of cars which arrived at Albany footed up to 250—a larger number than has reached there on any single day since the panic in 1857. It is supposed that the September business of the Central Railroad will exceed the business of any former September in the history of the road.

James Toesland lives at Brandywine, in Summit county, and until quite recently possessed a very pretty wife, 24 years of age. Living near the Toeslands was a well-to-do farmer, whose name is suppressed. This farmer had a wife and three children. For some time Toesland had thought his neighbor was a little too friendly with Mrs. T. and about a week ago his suspicions were somewhat confirmed by missing, after returning from the Post Office, where he had been sent by Mrs. T. for "a letter," his wife, his little daughter, his horse, his buggy and his well-to-do neighbor. "They had departed."

Arrival of the North Briton.

NEW YORK, Sept. 5.

The steamship North Britain from Liverpool 2 o'clock on the 24th ult., passed this station at 6 o'clock last evening and will be due at Quebec this forenoon.

There is nothing authentic concerning the Zurich Conference, but it is stated that favorable results were anticipated, owing to the friendly relations apparent between the Representatives of France and Sardinia.

Several members of the English Household are passengers in the North Britain, whose mission to Canada is supposed to have reference to the contemplated visit of the Prince of Wales.

It is supposed that Mr. Lever's offer for the Great Eastern is not entertained.

Further Foreign News.

The Zurich Conference sittings were quite irregular. The Plenipotentiaries of France and Sardinia were frequently in consultation. The following is the latest:

GREAT BRITAIN.

At a meeting of the great ship company, the directors were authorized to issue the remaining capital £30,000, so as to dispatch the Great Eastern on her voyage free of debt. It was also determined not to insure the vessel at present, leaving the proprietors to insure their respective risks if they thought fit. Lever had renewed his offer to charter the ship for her first voyage, on still more liberal terms. The result was not stated, but it is presumed the offer was not entertained.

The mate of the American ship Conqueror, Charles Bantelle, charged with causing the death of a seaman, and discharged for lack of jurisdiction, had been re-arrested, owing to the co-operation of Minister Dallas and the British authorities.

The Atlantic Telegraph Company recently deputed Mr F. C. Webb, an engineer of considerable experience of testing and experimenting of telegraph cables, to proceed to Valentia and examine the present state of of the present cable, and his report is published in the English papers. After detailing the scientific results of his experiments, he concludes as follows:

I am of the opinion that a serious fault exists about 263 statute miles from Valentia, measured along the cable, and that the cable, between that spot and this shore is comparatively perfect. Tests from here cannot now decide whether the cable is mechanically severed, and all attempts to detect the reception of the most intense currents from the opposite shore have long since proved fruitless; still, from various circumstances attendant on the decline of insullation, there is every reason to believe that the continuity both of the cable and the conductor is perfect.—Whether any other fault exists beyond the one alluded to, it is impossible to ascertain. By tests from Valentia, and the fact that signals received at Valentia were always better than those received at Newfoundland, it was proved undoubtedly that worse insultations had always been near Valentia. Therefore it seems probable that if the fault which exists on this coast which very likely forms the principal cause of leakage, could be removed, the insultation would be so far improved as to render the cable again available for signaling, proved the fault which is said by those who have tested from Newfoundland to exist near Trinity Bay, was repaired.

Gigantic frauds in connection with the extensive and well known Iron Co. of Scotland, were being brought to light.—It is alleged that for a long series of years the managing portion of the Company has been guilty of frauds on the shareholders of unprecedented daring and extent.

PARIS, Wednesday.—The Moniteur of this morning contains the following:

The Emperor having ordered that the army be placed from a war to a peace footing, the Minister of War has given orders from Sept. that 20,000 more should return to their homes, whose terms of service expire in 1859. Moreover, furloughs of three months will be allowed to those who are in that class of exceptional cases, provided for by the statuterof 1832, and the same has also been granted to men who can prove they are indispensable for the support of their families.

A CHARACTERISTIC INCIDENT.—In Paris, on Aug. 14, while the army of Italy was passing through the Boulevards; "Imagine four miles of sidewalk, thirty feet wide (25 at least), packed solid with people, and four miles of houses crowded, in every window and on roof with spectators, and the sidewalks bordered with a compact line of National Guards the whole way, and the entrance to every side street blocked by a company of cavalry, on splendid steeds, with brazen helmets flashing in the sun, and every point of metal on all the troops polished to the last degree of brightness. Then imagine my amusement when I remarked to an Englishman, whom I was pressing, that this display, both in extent and magnificence, surpassed all my experience, and he replied: "You should have seen the funeral of the Duke of Wellington, sir. This is *nothing* to it."

LOOK OUT FOR THEM.—The house of E. S. Convers, President of the Malden Bank [illegible]d on Tuesday last, and two hundred sheets of unsigned notes of the Bank were stolen. Until the denomination of the notes are known, every one should be extremely cautious about taking notes of this Bank.

The editor of the Gleaner, at Cleveland was recently assailed in the Wool Grower, of the same city. GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the state.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

STAR WRITING FLUID,

In bringing this Writing Fluid before
Public, the Proprietor knows he has a
deal to contend with, as there is so
spurious Inks manufactured that are
worthless, but I do not wish to say this is
only Ink and best in use. I will say that
second to none, as my motto is, "Try it, if

Frost.—We are told that there was quite a frost last night, visible this morning before we were up. What a sly dog Jack Frost is, always skulking around in the night and off in the morning before editors are up to catch a glimpse of him, We apprehend that nipping Jack may have done a great deal of damage through the county last night; what a pity he could not have put off his visit for a few weeks. WE WOULD CALL THE ATTENTION OF AGRICULTURALISTS IN THIS STATE AND VICINITY TO THE REDUCED PRICES OF

GUANO,

Of the best quality, which is offered for sale at 30 per cent. less than the price of Peruvian Guano. This Guano is from Jarvis and Bakers Islands, Pacific Ocean. (The American Guano Company's Islands) Imported by William H. Webb of New York. It has been extensively tested and pronounced a powerful and safe fertiliser, containing a large percentage of Bone Phosphate of Lime and other animal organic matter, with sufficient ammonia. By the use of it abundant crops are produced while the soil is substantially enriched. It can be freely used without injury to seed or plant by coming in contact with it. IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to.

Latest News.

BY TELEGRAPH.

Leavenworth, K. T., Sept. 5.

A collision took place between the Republicans and Democrats on Saturday night, when both parties were having demonstrations prior to the municipal election to-day.

The Republicans held their meeting at the intersection of two streets, and the democratic torchlight procession attempted to pass through it. This was resisted, when a general melee occurred.

Several hundred on both sides participated in it, using stones, bludgeons, pistols and knives. One man was shot, and some six severely cut, but it is believed none were fatally injured.

The Republicans maintained their ground and proceeded with their meeting. The affray it is believed to have been purely accidental and is universally regretted.

There is some apprehension that the disturbance will be renewed to-day.

Effective measures have been taken to preserve peace and order.

The express arrived here yesterday with Denver City Dates of the 27th ult., and a small quantity of gold dust.

In Gregory's diggins some miners had penetrated three feet through a strata of sulphuret of iron, finding rich dirt below.

The discoveries on the Colorado continue to prove remunerative.

Indian depredations continue, and isolated parties of miners were frequently cut off by them.

STARTLING EVIDENCE.

Let the Sick Read.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their component; he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Pilmont, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,

Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT,

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflamation!

NOTICE TO INVALIDS!! The following forms which the unballanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the [illegible] of an eminent Physician, no one [illegible] to try the New Medical Salt. For [illegible] and directions see circular.

You who have drank "BILL's" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just surprise!*
It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!
"Bill's" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.
It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*
Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.
So you who want your senses whole
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!
So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel sublime!*
And will digestion much improve,

CROCKERY STORE.

Richard King, Jr.,

Has the pleasure to announce to his friends and the Public that he has just returned from New York after having purchased an unusual and complete assortment of

Crockery and China Ware,

and he is now enabled to offer you *greater Bargains*, and *stronger inducements* than ever before since he has been engaged in this business—and he pledges himself *not* to be *undersold* by any firm in Western New York, not excepting Rochester or Buffalo. He would invite your attention to his

General Assortment,

at your earliest convenience, and would assure you that his prices cannot fail of suiting the closest buyers.

He has for your inspection, in great variety,

Crockery,

China, Plated, Britannia,

and Glass-Ware, Table Cutlery, Looking Glasses, Tea Boards, Kerosene, Fluid, and Oil Lamps.

He has a large assortment of German and *French* HOLIDAY PRESENTS, to suit all tastes and fancies at prices much below the usual rates.—STONE CHINA, he has three new and complete patterns of superior quality, consisting of 56 Pieces, for $4 75. Also, Pale and Flowing Blue, C. C. and Blue Edge Ware. In short, he has a good assortment of almost every thing you can possibly desire. Band, White and Decorated French China in setts, or pieces to suit customers, at prices varying from $8 to $50.—In GLASS-WARE, he defies competition; making his purchases at the Factories, he is enabled even to supply the general dealer.

Looking-Glasses,

A large variety, which he will sell lower than city prices, as can be testified to by many buyers who have purchased. *Tea Boards*, of different varieties, of beautiful designs and styles, from the cheapest to the most elaborate of the kind. His *Plated and Britannia Ware*, need only be seen and prices given, to convince any one that his Store is the place to obtain such articles as you want in his line, at a true LIVING COST.

Scrofula, or King's Ev

is a constitutional disease, a corruption of
blood, by which this fluid becomes viti

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is unexampled, as it has won UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all cases of Pulmonary and Nervous Disease. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

The REMEDY has not only a curative effect, but will, if used whenever there exists a symptom of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"CINCINNATI, OHIO, Aug. 5, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"HARRISVILLE, MICH., Aug. 8, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MONTGOMERY, VT., Aug. 9, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 18, 1859.—I have prescribed the Hypophosphites in several cases and *am delighted with its effects.* IT IS ACCOMPLISHING WONDERS."

"LOVELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who are now enjoying COMPARATIVELY GOOD HEALTH, and [illegible] ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as miraculous by physicians and friends, and [illegible] myself, under the 'cod treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * IT HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in distinct syrups, in extra large bottles, is "chemically pure;" is the combination prepared by Dr. Churchill "for general use," and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarly in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect charts of cure, which will be to them a true polar star through life.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

A scalloped, inflated, elegant and ornamental contrivance for making humps on ladies' backs is advertised in the Herald by a New York firm.

Somebody advertises for agents to sell a work entitled, "Hymeneal Instructor."—The best hymeneal instructor we know of is a young widow. What she dont know, there is no use learning.

A woman stepped from the cars at Bath, last Sunday evening, and requested a young man standing at the depot, to hold her child for a moment. The young gentleman complied of course, and after "tending to a baby" for some time, passed it over to the overseer of the Poor. The woman had disappeared.

A young lawyer in Chicago was recently sent to the Penitentiary in that city for ten days for the crime of stealing ten cents. He begged of the Justice to spare him the disgrace of imprisonment, but his tears were unavailing. The young man is a graduate from a New England College and the son of respectable parents at the East.

On Sunday last, it is said, the summit of Mount Washington was enveloped in storms of rain, hail and snow. Persons who attempted to ascend were compelled by the cold to give up the adventure.—The snow covered the ground to some depth.

TO CORRESPONDENTS:

No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer; not necessarily for publication, but as a guarantee of his good faith.

We also beg to inform our readers that we do not hold ourselves responsible for the opinions of our correspondents.

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

The Polly Frisch Trial.

The tedious process of taking testimony in this case was gotten through with yesterday, and in the afternoon JOHN H. MARTINDALE Esq., commenced the opening plea for the defence.

MR. MARTINDALE is well known to be one of the most eloquent and impressive speakers in the state, and in his opening plea, he fully sustained the reputation he has gained as an Advocate in his professional practice here and in Monroe Co.—We were in but a short time, to hear him, yet sufficiently long to learn that before he was likely to conclude, every impulse of the human heart would be drawn out, and every passion and propensity of human nature would be analysed and laid open to the inspection of the jury, in illustration of the case for which he was pleading—one so full in its charges of that which is terrible and conflicting with every sentiment of the mothers nature.

The Tonawanda Leap.

Our excellent correspondent at Tonawanda Falls has sent us a lengthy communication concerning the second leap of a Mr. Robinson, alias, Sam Patch 2d.

He tells us how two thousand people gathered together to see the great feat,—how as the hour approached the leaping man appeared, and instead of ascending his scaffold erected for the purpose he only jumped from the cliff, seventeen feet—then how indignant the two thousand people were, and how they pitched off the scaffold; and finally, how they voted rope-walking at Niagara and Rochester a humbug generally, and jumping off the Tonawanda falls particularly so, and went home.

SLANDEROUS.—The Albany Argus pretends that the Buffalo delegates to the canal convention in this city, nearly all came by the way of the Buffalo New York and Erie, and the Genesee Valley Railroads, and that all of them travelled on *that* route with dead head tickets. Not a man of them paid his fare. We can't believe such a thing of Mr. Clapp, nor of Dr. Hunt. The story must be false. Those gentlemen would'nt ride free on a railroad under any circumstances—particularly Mr. Clapp.—*Rochester American*.

Of course not, the thing couldn't be did by any possible means, in any manner whatever, under any circumstances, conditions, contingences or extraordinary inducements—not even to save the canals. These gentlemen pay when they ride—of course they do—particularly Mr. Clapp.

FULTON'S VOYAGE.—The Dean of Ripon, in England, has very recently died. By his disease, the Hon. John Q. Wilson, of this city, becomes the last survivor of the party of cabin passengers who accompanied Robert Fulton in his first steamboat journey from New York to Albany.

The Dean was afterwards remembered in this country, the degree of Doctor of Laws having been conferred on him by Columbia College on motion of Bishop Wainwright.

When the Persia had its trial trip, this gentleman was one of the specially invited guests, as having been associated with the earliest successful steam voyage.

Between the equipment of the "North River" and that of the "Great Eastern," is a development of an invention which, not often in the world's history, it is given to one life to witness.—*Albany Journal.*

RECIPE FOR GOING ON A BENDER.—The following from an old and venerable man, may be of some service to our young city ducks who think it is smart to get occasionally on a bender:

"When you go to take liquor, always look into the almanac. If the sign is in the *feet*, you can take on a heap more than if it is in the head, and can stand up better. I have quit now, myself, but I used always to examine the sign. If it was low I took on right smart, but when it was high I touched light, for fear of making a fool of myself. The higher the sign runs, the smaller the drams you must take, and the lower it runs the more you can stand."

SICKNESS AT FITCH'S CORNERS.—We regret to learn of the many persons prostrated by disease at Fitch's Corners, and in the section of country round about.—The disease termed "putrid sore throat" has assumed a contagious form, and it is feared will be the cause of more deaths.—We stated the other day that there had been four or five cases, when in fact there had been more than that number of deaths. If the first symptoms are very severe the patient does not recover, but in a few hours after the attack, dies. A gentleman who called on us this morning stated that several male children were attacked and died in from eight to fourteen hours afterwards. Adults seem to be less subject to the disease, and when attacked in most cases recover. The physicians in that section are baffled, but those living in the city do not fear it,—they believing the disease can be managed. At Munnsville, Madison county, an affection similar to this has been raging, and so to in other parts of the State, but everywhere its continuance has been short, and we hope such will be the case in this instance.—*Oswego Times.*

TERRIBLE EXPLOSION.—A terrible catastrophy ocurred at 106 Goereck street, New York, Friday afternoon. At about 4 o'clock a steam boiler, located on the premises which were occupied by John Roach as an iron foundry, exploded, completely demolishing the building, and burying all hands employed in it, some fourteen in number, in the ruins. By some fortunate circumstance, however, but one man, named James Shaw, was killed, while five others were more or less injured. The names of the wounded man are Edward Roach, Edward Petrie, William Bernard, James Teffel and John Stewart. The concussion caused by the explosion was felt for a considerable distance, and the people in the vicinity of the building were fearfully excited.

THE WAY THEY HIDE THINGS.—The police of New York in searching for missing property sometimes dive down into very queer places. Thus on Friday a detective arrested Mary Ann McNulty on the charge of stealing several dresses from the house of her late employer. She was taken into the office of the Deputy Superintendent, and while the officers were engaged in searching her, she was observed to put something in her mouth, and made a desperate attempt to swallow it. Efforts were resorted to, to make her disgorge, but without effect. when an emetic was procured and administered, which speedily resulted in expelling that which she had swallowed. They were found to be pawn tickets for the dresses she had stolen, and Mary Ann was booked for six months on the Island.

BIGOTRY.—The *Churchman* is in a fearful state of distress because the Baptists were recently allowed to hold a meeting in Trinity, (Episcopal) Church, in Tiffin, Ohio. The *Churchman* says:

"That the Church never contemplated the setting apart of houses for the worship of sectarians is self evident, and it would be gratifying to know when such shameful desecration is likely to be stopped."

According to the *Churchman*, a Baptist worshipping in Episcopal church is guilty of a "shameful desecration."

THE WESTERN CORN CROP.—The Cincinnati Commercial says: The prospect for a corn crop of full average yield throughout the region of country about which there was recently so much apprehension, have been well reassured by the generous rains of the last two weeks, and the increased amount of land planted throughout the West will make the yield of this great staple, if present anticipations are realized, much greater than ever before gathered.

An incident of the return of Gov. Seymour, the Hartford Courier says: "We are told, that notwithstanding his six years of absence, a favorite dog he left in Hartford recognized him at once, and bounded with delight, fawned and jumped upon him, as that noble brute is wont to manifest its delight; it brought up the old Homeric story of the dog that welcomed Ulysses. The Colonel has wandered farther than Homer could dream of; but he meets a reception which shows that neither human nor canine nature has changed."

The poor house of Steuben County, at Bath, was destroyed by fire on Saturday morning last, and six persons perished in the flames. It was fired by a lunatic.—The affrighted inmates aroused at the dead hour of night without the slightest warning, were thrown into the the wildest confusion, and the unearthly yells of the lunatics mingled with shrieks of dispair heightened the *terror* of the scene.

A NEW PRESIDENTIAL TICKET.—A Texan friend writes to the New York Traveller and says; "We shall soon bring out Sam Houston for President and Judge George W. Clinton of your State for Vice President—and what is more, we intend to *elect them.*

The first thing a man takes to in li[illegible] milk—the last is his bier.

[From the Phila. Pennsylvania Inquirer.]

NEW AND PROSPEROUS SETTLEMENT.—Hammonton on the Camden and Atlantic Railroad, is a flourishing village settled chiefly by New Englanders, who wish to escape their frosty climate, and by persons from the West, who are engaged in the grape culture. One year ago the settlement commenced, and since then has a population of fifteen hundred. They have built about three hundred houses, opened four stores, several hotels, one steam saw and planing mill, and one water power saw and planing mill, with schools, churches, and brick yards. They have set out vines, forty vinyards, and in short, established a settlement, which from the respectability of the settlers, is destined to become one of the most important and influential places in the State of New Jersey. Grape growers are of the opinion that the strip of land between the Little and the Great Egg Harbor rivers is the best for the vine, owing to both soil and climate, of any that has been found in the country. From the extent they are entering into the buisiness, a supply of pure and unadulterated wines may soon be expected.—They who have raised crops at Hammonton represent that the soil is very productive. It is not surprising that the place should increase so rapidly, when it is considered the advantages over the West in health, climate and market. Crops are secure from frost, that blighting enemy that robs the farmer of the north of so much of his labor and profit.

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

WE WOULD CALL THE ATTENTION OF AGRICULTURALISTS IN THIS STATE AND VICINITY TO THE REDUCED PRICES OF

GUANO,

Of the best quality, which is offered for sale at 30 per cent. less than the price of Peruvian Guano. This Guano is from Jarvis and Bakers Islands, Pacific Ocean. (The American Guano Company's Islans) Imported by William H. Webb of New York. It has been extensively tested and pronounced a powerful and safe fertilizer, containing a large percentage of Bone Phosphate of Lime and other animal organic matter, with sufficient ammonia. By the use of it abundant crops are produced while the soil is substantially enriched. It can be freely used without injury to seed or plant by coming in contact with it. FRESH GREEN CORN every Morning at Dibble's new Grocery.

THE FROST.—Our Tonawanda correspondent sends us the following:

There was a slight appearance of Jack Frost this morning in the neighborhood of the Tonawanda Indian Falls, but as far as ascertained there was no damage received therefrom. It is the general opinion in Pembroke township that if Jack Frost keeps away until after the 20th the corn would be entirely out of danger and we would be highly blessed.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child or Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to.

BY TELEGRAPH.

Last Evening's Report.

NEW YORK, Sept. 6.

The steamer Arago arrived at 5 o'clock. Her advices are anticipated.

She brings 260 passengers, among them H. J. Raymond, editor of the N. Y. Times, J. Vallerie, Sardinia Consul for New York, Gen. Barnard, of New Orleans, C. Bodolousquie, manager of the New Orleans opera.

She passed, on the 25th, off Edystone, the steamer Ocean Queen, hence for Havre.

She passed Cape Race on the 2d inst.

The Tuscan Monitor of Aug. 18th, publishes two decrees. One grants to Lt. Gen. Ulloa, Commandant of the Tuscan division, the discharge he had requested by his letter of July last to the Sardinian Commissioner Extraordinary, and the other decree appoints in his stead, Maj. Gen. Garabaldi, commanding the 11th division of the Italian army.

NEW YORK, Sept. 6.

George Griswold, of the firm of N. L. & G. Griswold, died to-day, aged 82.

Mrs. Elizabeth Byrnes, female physician, was arrested to-day, for causing the death of Mary S. Vischer, through mal-practice.

Mrs. B. is a native of Roxbury, and claims to be a graduate of the Boston Femal Medical College.

A woman named Mary Smith was also arrested as an accomplice.

A bloody fight occurred this morning between Irish Protestants and Catholics, in Jackson Square. One man, George Baty, was mortally wounded and several others badly stabbed. Others were maimed with clubs and paving stones. Ten arrests were made.

BOSTON, Sept. 6.

Numerous military companies passed through the city to-day en route for Camp Massachusetts, in Concord, where a three days encampment and review of the total forces of the State commences to-morrow.

Gov. Banks, as commander in chief, will remain on the ground during the encampment.

There are indications of an immense such to the quiet town of Concord to witness the military display. Gen. Wool of the U. S. army will be present on Friday.

The encampment occupies about 150 acres.

The extra session of the Legislature called to act on the report of the committee for revising the statutes and laws of the State Commonwealth, assembles to-morrow.

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compound; he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibilities, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Fancost, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. Please accept my thanks for the can of pills which reached me this morning by express. Enclosed find the amount of your bill. Sold everywhere.

☞ Sold by all the dealers in Batavia, and by Druggists in every City, Town and Village in the United States. They have been established TWENTY YEARS—have saved thousands from THE GRAVE—and their work of MERCY is not half completed. Try them. They are warranted.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public, We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT,

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdue inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength it effectually cures inflammatory diseases, (no other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! ! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is As it is not a Patent edicine, but the ption of an eminent Physician, no one Fushcrifail to try the New Medical Salt. tor ald estimonial and directions see circular

You who have drank "Bill's" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!
It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!
"Bill's" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.
It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*
Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.
So ye who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!
So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

Scrofula, or King's Evil

is a constitutional disease, a corruption of t blood, by which this fluid becomes vitiat weak, and poor. Being in the circulation, pervades the whole body, and may burst out disease on any part of it. No organ is free fro its attacks, nor is there one which it may n destroy. The scrofulous taint is variously caus by mercurial disease, low living, disordered unhealthy food, impure air, filth, and filt habits, the depressing vices, and, above all, the venereal infection. Whatever be its orig it is hereditary in the constitution, descendi "from parents to children unto the third a fourth generation;" indeed, it seems to be t rod of Him who says, "I will visit the iniquit of the fathers upon their children."

Its effects commence by deposition from t blood of corrupt or ulcerous matter, which, the lungs, liver, and internal organs, is term tubercles; in the glands, swellings; and on surface, eruptions or sores. This foul corr tion, which genders in the blood, depresses energies of life, so that scrofulous constituti not only suffer from scrofulous complaints, they have far less power to withstand the atta of other diseases; consequently, vast numb perish by disorders which, although not scro lous in their nature are still rendered fatal this taint in the system. Most of the consum tion which decimates the human family has origin directly in this scrofulous contaminati and many destructive diseases of the liver, k neys, brain, and, indeed, of all the organs, a from or are aggravated by the same cause.

Now is the Time to Subscribe.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Ella Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the jew who may be unacquainted with us, we would state that we have no connection with any other Gift—Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion: Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuraligy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense. In any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLD'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vichols' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLD'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is special intended to fulfill this desideratum; it is perfectly safe; no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

NO REST FOR EDITORS.—Every editor knows the truth of the following, from the New York Home Journal. "It is one of the hardships of our profession, that its working wheels—Brain and heart—are not allowed to flag for sickness or stop for calamity or sorrow. The Judge may adjourn his court, the school and the workshop may close shutters, the mourner may veil features and turn friend and stranger from the door but the journalist must forget before tomorrow the sorrows of to-day—must write gaily and freshly, as a news monger, on the trifle of the hour, whatever burden has been laid on that same hour by Providence, for his heart and brain as man. It sometimes tries and mocks—as the world that reads what is thus written would never dream of."

The Canals.

A writer in the last number of "Hunts Merchants' Magazine," understood to be Mr. Brockway, the present Republican Member of Assembly, from the city of Oswego, presents a question, which the people of the State of New York ought to consider at once with the utmost care, with the greatest degree of intelligence which they can bring to bear upon the subject, and in a spirit of perfect independence and impartiality. It concerns vitally their material interest. It is one that they are to settle at an early day, their control over it is supreme—consequently their decision will be irrevocable. The proposition is this:

Have the people done as much, in the way of building and enlarging Canals, as ought to be done, in view of their business and the financial condition of the State?

No graver financial question can be presented for the popular deliberation.—For our own part, we are not prepared to pronounce positively upon it; but there can be no doubt of the propriety of offering all the facts and circumstances that calculated to assist the people in forimng an intelligent opinion on the subject. The fact cannot be concealed or denied that the present financial condition of the State is one of great peril to our credit, as well as great detriment to our prosperity. We owe nearly $40,000,000, and the work of enlarging the canals cannot be completed without swelling that huge indebtedness at least $5,000,000 more. At the next election the people are to say whether they will sanction a law enacted last winter, so far as the Legislature can make a statute of grant description, authorizing a loan of two and a half millions to pay off the floating canal debt, created without the color of Copstitutional or statutory authority. As we have before said, we are decidedly in favor of paying off this indebtedness, notwithstanding the irregular manner in which it was contracted. But we are not so certain that the people will decide that question in the affirmative.—But assuming that this loan is to be authorized, how is the enlargement to be completed? The treasury is bankrupt, so far as that work is concerned, and it is only by the adoption of a system of direct taxation; and the real question for the people to decide is, whether they will submit to a heavy burden to accomplish that object? Mr. Brockway takes the negative side of this proposition, and argues it with much force and effect. We quote from that portion of his article in which this branch of the subject is considered, as largely as our limits will permit:

Now, is it necessary that the enlargement should be completed? The works which it is proposed to enlarge we believe, have six feet of water the present season; is it important that another foot and greater width be added? Will it be sound policy to expend more money upon the enlargement? Do the wants of commerce require it? We make these inquiries not as party men, for we have nothing to do with politics, but as men interested in the commercial and pecuniary welfare of the State. We will first look at the business of the canals during the last ten years, as stated in the Report of the Auditor of the Canal Department, transmitted to the Legislature in January, 1859.

The total tonnage of all the property on the canals, ascending and descending, and the amount of tolls collected, is as follows:

Years.		Tons.	Tolls.
1849	-	2,894,732	$3,268,226
1850	-	3,076,617	3,273,899
1851	-	3,582,733	3,329,727
1852	-	3,863,441	3,118,244
1853	-	4,247,853	3,204,718
1854	-	4,165,862	2,773,566
1855	-	4,022,617	2,805,077
1856	-	4,116,082	2,749,203
1857	-	3,344,061	2,045,641
1858	-	3,665,192	2,110,754

The largest tonnage appears to have been in 1853, when it amounted to 4,247,852, or 582,650 more than in 1858. Since the former date, tolls have been materially reduced; still the tonnage does not return. There was, indeed, an increase of 321,131 in 1858 over the tonnage of 1857, the result perhaps of a new adjustment of tolls made in the former year.—But upon the whole, the business of the canals is tending downwards. We propose in this article to glance at some of the causes, and indicate the policy which ought to be pursued in view of the circumstances of the case and the facts before us.

We consider it a matter of extreme doubt whether the business of the canals will ever again reach the point touched in 1853, except the tolls should be greatly reduced or wholly removed; and in that case it may never do. In the first place, it must be borne in mind that several channels of communication between the Western and the Eastern cities have been opened during the last six years, owned and controlled by parties who are quite willing to do the business done upon our canals as are the canals themselves, or those engaged in forwarding goods by them. A line of railroad communication has been completed between Philadelphia and Chicago, by which the distance between New York and Chicago has been reduced to 911 miles, or 46 miles below that of any other railroad route, and Philadelphia is 124 miles nearer Chicago than New York. Baltimore is 15 miles nearer Chicago than New York. The St. Lawrence River, by the help of several canals along its margin, punishes an outlet to Western commerce. Then we have the Ogdensburg Railroad, finished something more than six years ago, distributing the product of the West through a considerable portion of the New England States by means of their railroads connecting with the Ogdensburg. The Rome and Watertown Railroad, connecting with the River St. Lawrence at Cape Vincent, is a competitor for the Canadian and Western trade, and doing a large and remunerative business. The same may be said of the Oswego and Syracuse Railroad, which connects not only with the New York Central at the latter point, but with the Syracuse and Binghamton Road, which last intersects the Erie Road at Binghamton, and thence communicates with Northern Pennsylvania by means of the Pennsylvania railroads and canals. Nor have we referred to the New York Central and Erie roads, the two great competitors for the trade of the West, which, though mentioned last in order, are far from being least in their influence and potency. These roads have been built several years, are thoroughly equipped, prepared for, and are doing a heavy business, which, were they out of the way, would be done upon the canal.

Now all these avenues have come into existence since the construction of the Erie canal, and they are competitors for the business it was built to do. Without doubt, they are formidable rivals of the canal.—Without doubt, they are diverting trade from it, and destined to divert still more of it hereafter. It is natural and proper that they should do it. It is a result that might reasonably have been anticipated. Individuals who have obtained from Legislatures acts incorporating railroad companies, have done it in the expectation of making money out of them, and those who have subscribed for the stock have been governed by similar considerations. They have expected they would in some way prove remunerative. The primary object in most cases has been to furnish an easy and rapid mode of travel to those who might desire conveyance from one point to another, but a second and equally important one has been the accommodation of the public in the matter of conveying products to, and merchandise from, market. Commerce consists in the exchange of productions of various kinds, and conveyances are required to move those productions to points where they will be in demand and saleable. Such conveyances are our railroads, such our canals. They are both useful in their way, both needed for the purpose to which they are applied, and both promotive of the prosperity of the country. That there would be competition between them, was to have been expected. It ought to surprise no one that a railroad and canal, running parallel to each other, should be competitors for the same business.

The Verdict.

We were not surprised at the verdict rendered by the jury in the case of Polly Friesch. The length of time taken by the jury to come to one mind—twenty six hours—denoted that either they would disagree, or bring her in guilty. A jury must decide upon the evidence given, and we have no question but that in this case the most conscientious regard for the testimony was had, and that the decision was in strict accordance therewith, to the best understanding of the whole; but the popular mind is not yet educated to the full comprehension of the merciful intent of the law *even*, and much less to that high standard of exalted humanity which forbids under any circumstances man shall deprive a fellow being of that which is the free gift of God.

If we were to complain of any thing, it would be the law which is below the standard of our best grades of humanity.—Jesus Christ was the best law giver the world ever knew, and he condemned no man to death, and it has not fallen to man to do what he would not.

On one ground only would we take issue with the verdict rendered in this case as not being in accordance with the testimony. No Jury of medical men familiar with the abnormal workings of the human mind would have convicted her of deliberate murder. The case is broad and clear; the mother never murders her own children while sane, such an act is insanity when rightly understood. Call it a hardened heart, call it depravity, or what you will, the moral accountability is lost in that terribly unnatural state of mind which can leave the mother to commit such an atrocious crime in the clear light of that love and mercy that gives us our being, and implanted in the maternal breast an instinct so powerful as that of her love for her offspring. Between the mother and her child exists the strongest tie that binds two souls together, and shall we say that this may be severed by the deliberate act of the mother while the mind retains its integrity? Here is a point wherein the most intelligent Jury that could be found would be likely to err in failing to fully appreciate the full force of the case. The popular notion is that to become morally unaccountable, one must needs be frantic, and devoid of reason. This is a great mistake; the most dangerous forms of mania are such as leave the victim perfectly rational on all questions but one. Under this form of mania, or insanity, the most horrible crimes have been committed, and some times been openly acknowledged, and defended by the perpetrator, while in others the most adroit and prudent management has been observed to avoid detection.

The sentence in this case says that on the 2nd of November next Polly Friesch shall be hung by the neck until she is dead. This sentence is to be inflicted upon the woman as a punishment for having poisoned her child, as she is believed to have done by the jury before whom she was tried. Will hanging Polly Frisch restore, or in any way, better the condition of that child? Will the execution of this sentence in any way better the condition of the victim? Will any one by any possible means be benefitted by this act?

Most assuredly, no such good results can flow to any one by hanging the convicted woman; but alone, and altogether in obedience to the law—a thing without soul or power to do of itself, but merely a creation of man's—it is said that she must expiate on the gallows the crime she is convicted of having committed. We stand out most decidedly against such a law.

The old notion that hanging the murderer is a preventative of crime has been pretty nearly set aside, and aught to be entirely. Of all the scenes in which distorted human nature can be made to figure, that of a public execution is the most demoralizing. The argument in support of capital punishment was that the public execution would serve as a warning; but this has been proved otherwise in the fact that these scenes have often been the occasion for the exhibition of not only every species of brutality, but an actual repetition of the crime of murder.

Whatever the State shall do the individual will claim the right to do also, when he shall desire to, and therefore when the State avenges a crime by taking life, the individual will go and do likewise. A spectacle that brings out the worst features of human nature, as a public execution unquestionably does, should be stopped by some means. Capital punishment is but a remnant of barbarism that has come down to us because it has been sanctioned by authority, but the enlightened sense of the age should cry out against it; and as we trust will be the *case* in this instance, the Governor of the State should interpose his decree to prevent the perpetration of such a disgrace upon our civilization.

New Publications.

The enterprising Publisher George G. Evans, No. 439 Chestnut Street, Philadelphia. Has just added to his extensive list, the following new Books:

The Life of Col. David Crockett, written by Himself.

Comprising his early life, Hunting Adventures, Daring Deeds in Border and Indian Warfare, Services under General Jackson in the Creek war, Electioneering Speeches, Career in Congress, Triumphal Tour in the Northern States, and Struggles in the Texan War of Independence, together with an Account of his Glorious Death at the Alamo.

In one 12mo. volume. Handsomely bound. Price $1.00.

We copy the following from the Philadelphia *North American*:—

Colonel Crockett was a character. His autobiography has been long out of print; his reputation for eccentricity has been presumed upon in the publication of all sorts of outrageous and obscene nonsense, in coarse almanacs, and other vehicles for low humor. This volume is a republication of the genuine work, with necessary additions; and will be new to the present generation of readers. It is as marked and characteristic as the subject was; his portrait faithfully drawn, and none the less so that it is without effort, and perfectly naive and sincere. We well remember the amiable original in his northern tour, and recall many of the incidents to which his book alludes. We never have looked upon his like since; and rejoice in this republication as an act of justice; to retrieve an honest man from vulgar misrepresentation.

A copy of the Book, and a handsome present will be sent by mail, post-paid, upon receipt of $100 for the book, and 21 cents for postage.

A new classified Catalogue of Books and Gifts, with inducements to Agents, will be sent free, on application.

THREE PER CENT A MONTH or the Perils of Fast Living; A warning to Young Men, by Charles Burdett. Author of "Second Marriage," "Elliott Family," "Marion Desmond," "Never too Late," etc., etc. One volume, 12mo., cloth. Price $1.00.

(*From the Gazette.*)

This book deserves to be singled out and noticed as above the many novels which are published. Both in structure and style it is entitled to the name of art. It is a Tale of Domestic Life, rehearsing the interwoven histories of a round of every day characters, and its aim is to show the follies of the too many, so called, passions and pleasures of fashionable life, touching in no part upon ground that properly belongs to the vast domain of romance.

The Bachelor Millionaire Uncle George, is a character reminding us of the Brothers Cheeryble, and although he teaches the "sweet uses of Adversity" with severe discipline, it brings out the true beauty of character, and shows how few there are who can go through the trials of every-day life, and in the end prove their constancy.

Copies of either of the books with a handsome Gift worth from 50 cents to $100, will be sent to any person in the United States upon receipt of $1.00, and 21 cents to pay postage, by addressing the Publisher.

A new and Classified Catalogue of Books in every department of Literature, together with a list of Gifts, and every information relative to the establishment of agencies in the Gift Book business will be mailed free to any one by

Pretty Women.—A pretty woman is one of the "institutions" of the country—an angel in dry goods and glory. She makes sunshine, blue sky, and happiness wherever she goes. Her path is one of delicious roses, perfumes and beauty. She is a poem, written in rare curls and choice calico, and good principles. Her words float around the ear like music, birds of paradise, or the chime of Sabbath bells.—Without her, society would lose its truest attractions, the church its firmest reliance, and young men the very best of comforts and comforters. Her influence and generosity restrain the vicious, strengthen the weak, raise the lowly, flannel shirt the heathen, and strengthen the faint heart. Wherever you find the virtuous woman, you also find fireside bouquets, clean clothes, order, good living, gentle hearts, music, light, and model institutions generally. She is the *flower of humanity*, a very Venus in dimity, and her *inspiration* is the breath of heaven.

A Runaway Locomotive, and the Bad End it came to.—The Galena Advertiser says that on Monday morning, just before 7 o' clock, the locomotive of the gravel train on the I. C. R. R. detached from the train, was standing at the upper depot in that city. It had been fired up, preparatory to work, the proper valves left open, and the proper ones shut for its stationary security, as the engineer avers; while he went in to eat his breakfast. Soon after, from some unexplained cause, the locomotive was seen moving along on the track at a moderate pace towards Dunleith. It passed the lower depot in this unattended and independent state, until to the Railroad Bridge which was drawn. It approached the chasm boldly, leaped off surely, and about eighteen feet perpendicularly, and was smashed to pieces inevitably. In one view it was well that the railroad bridge was in such a position as to admit no passage for the truant machine, as had it kept on the track it would have met the train from Dunleith which came along soon after, and a colision would have been the consequence. As it is, the pieces of the locomotive lie in the mud, and it will require considerable labor to put them together again and effect repairs. How the steam got upon the operating powers of the engine is a mistery. It is possible that some valve was not entirely closed, that led to this out-of-time muscular action of the iron horse; but the idea that it was shaken forward to its ruin by a fit of the ague is too preposterous to entertain for a moment.

The animosity between Foote, of Mississippi, and Benton, of Missouri, was wel known. It is a matter of record, and there can be no want of delicacy in alluding to a historical fact.

On the last night of that session whic closed the senatorial career of those gentle men respectively, Mr. Foote obtained th floor, and occupied the final hour with bitter and eloquent review of the life an acts of his old enemy. Mr. Benton sa unmoved; his massive features betraye no signs of anger or anxiety; you woul have thought him asleep, but for the regu lar motion of his eyelids. As the hand on the clock pointed to midnight, he qu etly remarked to a bystander—

"I leave the Senate of the United State footed out out of it; *footed* out of it, si but not *kicked* out!"

Mr. Foote had said that he would wri a little book in which Mr. Benton shou figure very largely. Mr. B. heard of th and replied, in his characteristic way, the informant—

"Tell Foote that I will write a ve *large* book in which he shall not figure all."

The "Thirty Years will show how fait fully the promise was kept.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING,

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boo and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public, We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills,

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS, Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

For Inflamatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has [illegible] one aim, and [illegible] but one thing, to wit: subdues [illegible] but one thing [illegible] inflammatory diseases, whatever be its form or location, whether in the head, throat, abdomen, [illegible] side.

NEW MEDICAL SALT. Its peculiar excellence [illegible] without the [illegible] blood and strength, it [illegible] inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is [illegible] cause of inflammation.

NOTICE TO INVALIDS! The following diseases in which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as readily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, Lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Measles, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Croup, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force,* and are *the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ Professional Correspondence.

"COLUMBUS, OHIO, Aug. 6, 1858.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 3, 1858.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 8, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 18, 1859.—I have prescribed the Hypophosphites in several cases, and am *delighted with its effects.* It is ACCOMPLISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* I was regarded as hopeless by physicians and friends. [illegible] under the 'old treatment.' I am now able [illegible] to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 29, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup, in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears *my fac simile signature.*

Beware of all Preparations claiming to be Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $2. Concentrated Solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION.

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel.) Augustine J. H. Duganne, William Earle Binder Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child or Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with *safety* place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is *four cents*, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,

N. B. A word of explanation to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the [illegible] who may be [illegible], but with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 96 MAIN STREET,
(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLD'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure,—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vinpois' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar—Sent by mail free of charge.

DR. REYNOLD'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfil this desideratum; it is perfectly safe, no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

THE GROVER & BAKER

Sewing Machine Co.,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

AUTUMN.—We saw a dead leaf fall yesterday. It may not be the first token of Autumn—the dying year—yet we looked upon it with about the same feeling that a man experiences when he discovers his first gray hair, or the misery felt by a fashionable lady when all at once the fact comes home to her that her eldest daughter is a marringeable female. The crow's feet in the corners of the eyes are the falling leaves of life, and the dead twigs, the gray hairs that have lost their sap, and tell only of what has been. Yet Autumn has its fruits, as age has its experiences; with experience comes faith, as plenty comes with Autumn. Let us then hoard up faith, as Autumn gathers up its bounty.

THE DAILY HERALD.

BATAVIA, Saturday, Sept. 10, 1859.

SUBSCRIPTION PRICE 6 CENTS PER WEEK.

TO CORRESPONDENTS:

No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer; not necessarily for publication, but as a guarantee of his good faith.

We also beg to inform our readers that we do not hold ourselves responsible for the opinions of our correspondents.

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

We notice that the Rochester Democrat and Batavia Herald are each troubling themselves more than is necessary about how the editor of this paper got to the late Canal Convention at Rochester. If it will afford them any relief, we can inform them that we traveled by the Central Railroad, and paid one dollar and thirty-six cents each way for our ticket.—We say this for the purpose of settling a very important and vexed question.—*Buffalo Express.*

We are very sorry the Express should think we had been *troubled*, for it is a very melancholy symptom, one that often makes people unhappy, and therefore we do not intend to entertain it—in fact we are openly and boldly opposed to trouble. We can assure the editor of the *Express* we for one, only felt a little *anxiety*, and so that he got to the convention safely, and then got home safely, and *saved the canal* by a ride on the Central, our interest in the matter has entirely subsided.

BISHOP ONDERDONK.—A petition is in circulation asking for the revocation of the sentence of suspension against Bishop Onderdonk. The bishop has signed a memorial, in which he exculpates his accusers, acknowledges the justice of the discipline, and professes repentence. Churchman of all shades of opinion sign the petition to the House of Bishops.

The above may possibly be true, but if Bishop Onderdonk exculpates his accusers and professes repentence for such acts as were charged against him, he must be very far gone in his dotage. No sensible man ever believed Bishop Onderdonk to be guilty of any serious offence against any body, at least among such as knew all the facts in his case. The whole trial of the Bishop was a mere conspiracy got up to ruin him and wrest from his hands his place and power in the church.

SPEAKING WELL OF OTHERS.—If the disposition to speak well of others were universally prevalent, the world would become a comparative paradise. The opposite disposition is the Pandora-box which when opened, fills every house and every neighborhood with pain and sorrow. How many enmities and heart-burnings flow from this source! How much happiness is interrupted and destroyed! Envy, jealousy, and the malignant spirit of evil, when they find vent by the lips, go forth on their mission like foul fiends, to blast the reputation and peace of others. Every one has his imperfections; and in the conduct of the best there will be occasional faults which might seem to justify animadversion. It is a good rule, however, when there is occasion for faultfinding, to do it privately to the erring one. This may prove salutary. It is a proof of interest in the individual, which will generally be taken kindly, if the manner of doing it is not offensive. The common and unchristian rule, on the contrary, is to proclaim the failings of others to all but themselves. This is unchristian, and shows a despicable heart.

We are in the receipt of the eighth number *Wept of wish ton wish* of Cooper's Novels illustrated by Darley and published by Messrs W. A. Townsend & Co. New York.

A more beautiful got up book can not be found; the paper is of first quality, the print is most perfect, while the illustrations are of superior elegance, design and taste, the binding is substantial and firm. No more tasty sett of books for the cost can be found to adorn the library than these and it seems to us every man of correct literary taste who has a library or ever expects to procure one, will not let the present opportunity pass to secure a copy while the illustrations and paint are so perfect as now, and before the plates and types become so worn as to render them less valuable.

The story is one of colonial life and is not without superior attractions for an Indian story, abounding as it does with descriptions of Skirmishes between Indians and border settlers, as they were called in 1675, residing in Connecticut and Massachusetts.

The intelligent reader while engaged in the perusal of this volumn can not but be astonished at the rapid strides which have been made in the settlement and improvement of the country, and particularly so when he reflects that most of it has been done within the present century.—We earnestly commend to every man this volume as worthy of acquisition.

READING FOR THE MILLION.—T. B. Peterson & Brothers have this day issued the second volume of their new and cheap edition of Charles Dickens' Works for the Million, to be completed in 28 volumes, one to be issued on each and every Saturday, for twenty-five cents a volume. The cheap literature of former years did not tend much to elevate their readers, but the reading that Peterson now gives, at prices which scarcely cover the cost of printing, is of the very best character, and must exercise a wholesome influence over the public taste, by making all readers acquainted with the works of the best fiction writers in the English language. A reader in the country for one dollar can have the first four of these volumes transmitted to him, or the whole twenty-eight volumes will be sent for five dollars. The second volume, issued to-day, contains the conclusion of Oliver Twist and the commencement of Pickwick Papers.

Bounty Lands.---War, 1812.

Soldiers or Widows, whose claims for Bounty Lands have been suspended for years, for want of evidence of service, should, if they desire their warrants, address the subscriber. He has the only complete copy of the rolls of the Volunteers and Militia of the State of New York, serving in the War of 1812, and is the only agent who can, with certainty, find the service, if actually rendered.

As his charges are reasonable and no fee required unless a warrant is obtained, all interested can easily test his ability.

Letters enclosing two stamps (for return postage and blanks) will receive immediate attention. C. W. BENNETT,

No. 428, H. St., Washington, D. C.

A little fellow about twelve years of age was found in Rochester on Thursday of last week, in the vicinity of DeLave's rope, energetically engaged in firing off crackers, waving his hat, shouting, jumping and cheering at a tremendous rate.—At first it was supposed that the juvenile had been deceived into the belief that De Lave was going to exhibit on the rope; but on being interrogated as to the occasion of his Fourth-of-Julyishness, he replied, "Why this is the first of September, aint it! I'm celebrating the anniversary of the Atlantic cable——hooray!" It is confidently anticipated that one day that boy will be an honor to his country.

PAINFUL SEPARATION IN HIGH LIFE.—It is with feeling of the deepest regret, such as, in our present afflicted state, would be utterly impossible for us to describe, that we record the following distressing fact, which we extract from one of the French telegrams of last week: "The Duke of Malakoff has left Nancy." What, let us ask in the name of outraged humanity, has "Nancy" done to be left by the Duke in this brutal and public manner?

Some person writing for the papers down east advises everybody not to get excited. This is all nonsense. Excitement is the motive force to action, and to desire people not to get excited is to desire them to remain in dull, stupid inactivity.—Don't be afraid to think and speak and write and act under excitement, for you will not do either with effect and profit without excitement.

Chickens of a new breed called "Kellyteadean" are being introduced into this country from abroad. Instead of feathers they are covered with fine hair like that of lap dogs, very white, soft and beautiful, and have curious red ornaments on their heads. The Wheeling Intelligencer of a late date describes a couple which had been brought to that place on the road to Pittsburg for some fowl fancier who had imported them.

A small parcel was deposited in one of the Banks in Troy which contained a fine infant, about three months old, bearing on its neck a written note, gently intimating that the mysterious stranger might be placed to the credit of Mr.———, a gentleman having an account open with the Bank.

He din't try it but Once.

The Cleveland Plaindealer does not believe in the reported "power of the human eye," and it gives as the reason of its disbelief an incident which occurred at a Southern hotel a short time since. Herr Driesbach, the famous lion tamer, was at the hotel; and one night a very powerful and savage drunken man was terrifying every person in the bar-room Herr Driesbach volunteered to "get an eye on him and fix him:" and crowding himself in front of the inebriated rowdy, he fastened his terrible eye upon him. The fellow stooped over towards the tamer, putting his hands on his knees, and returning the gaze as well as he could in his then confused state. The tamer thought things were working and intimated as much by a nod of his head to the crowd, when the subject asked in a calm dispassionate manner, "what he was looking at?" "Never you mind," said the tamer, throwing all the power he could master into his eyes, but the subject did mind, for with a startling "whoo-op" he dealt the tamer a tremendous blow under the left ear which sent him through a glass door into the next room, where he came to a sudden stop against a hard brick partition. He was carried up stairs and done up in camphor and old rags. In a few days he was able to be out, but he has never since tried the eye power on a drunken man.

A few days since Timothy Regan, a brakeman on the Galena and Chicago Union Railroad, discovered a couple of children under the wheels of a train of cars about to start from the freight depot, in Chicago. He succeeded in rescuing them, but in doing so, he had his left hand caught and taken off by the train.

"My son, haven't I told you three times to go and shut that gate?" "Yes, and haven't I told you three times that I wouldn't do it? You must be stupid.

The Borealis which is just now exciting so much admiration and playing so many tricks with the telegraph wires, is said to be a great affair of the kind. It's a "roarer."

It is said that gold has been found in the gravel bed at Oneida Castle, Madison county.

The Fall trade has set in quite actively in New York, but greater caution than heretofore is observed in giving credit.

[From the Phila. Pennsylvania Inquirer.]

NEW AND PROSPEROUS SETTLEMENT.—Hammonton on the Camden and Atlantic Railroad, is a flourishing village settled chiefly by New Englanders, who wish to escape their frosty climate, and by persons from the West, who are engaged in the grape culture. One year ago the settlement commenced, and since then has a population of fifteen hundred. They have built about three hundred houses, opened four stores, several hotels, one steam saw and planing mill, and one water power saw and planing mill, with schools, churches, and brick yards. They have set out since, forty vinyards, and in short, established a settlement, which from the respectability of the settlers, is destined to become one of the most important and influential places in the State of New Jersey. Grape growers are of the opinion that the strip of land between the Little and the Great Egg Harbor rivers is the best for the vine, owing to both soil and climate, of any that has been found in the country. From the extent they are entering into the business, a supply of pure and unadulterated wines may soon be expected.—They who have raised crops at Hammonton represent that the soil is very productive. It is not surprising that the place should increase so rapidly, when it is considered the advantages over the West in health, climate and market. Crops are secure from frost, that blighting enemy that robs the farmer of the north of so much of his labor and profit.

STAR WRITING FLUID.

In bringing this WRITING FLUID before Public, the Proprietor, knows he has a g deal to contend with, as there is so n spurious Inks manufactured that are ut worthless, but I do not wish to say this is only Ink and best in use. I will say that second to none, as my motto is, "Try it, if like it—buy it." The superior qualities of FLUID are, namely: It is decidedly a bus Ink, and so permanent and ineffaceable, even the test of Oxalic Acid cannot remo from paper; hence its value to business and the community. This Acid instantly af most Inks, even that from the largest estab ments. Arnold's of London, is gradually ted by it. Harrison's of Philadelphia, insta disappears, while no effect upon the Star is visible, till at last it is changed by the Aci a reddish tinge, but remains ever afterwar permanent and legible as ever. Test our with a drop of the Acid, then test others will observe the result. There is but one kind of Ink besides ours that will stand the that is thicker, redder and dearer than our all of these combined, every one can see tha Ink which cannot be effaced, and then cou feited by rogues as is often done on Bank Deeds, Wills, Records, &c., not only des but will command the custom of an enligh community. As it is a Chemical preparat challenge all competition. It flows more ly from the pen, will not mould, and is easi moved from the hands when stained. It only to be tried and you will buy no other

BY TELEGRAPH.

NEW YORK, Sept. 9.

Mr Alfred Freeman, proprietor of the International Hotel in this city, committed suicide in the above mentioned house by cutting his throat. He had been ill for a week of slow fever and a serious attack which doubtless caused aberration of mind which led to the suicide.

BURLINGTON, N. J., Sept. 9.

Rev. Thomas Neal, an aged minister of the Methodist Episcopal Church, and Grand Chaplain of the Grand chapter of Royal Arch Masons of the State of New Jersey, died at 3 o'clock this P. M., at his residence, in this place.

BOSTON, Sept. 9.

The English papers received by the Europa, reported that Mr. Henry Stowell, Jr., of the firm of Slocum, Stowell & Co., of New York, committed suicide at Manchester, Aug. 22, by hanging himself.

New York, Sept. 9.

Advices from Buenos Ayres of the 10th of July state that active hostilities had commenced between that state and the Argentine confederation.

Two Buenos Ayres war vessels had been fired on when off Rosavio, and an Argentine war schooner had been captured by the other side.

The American steamer Ascencion with Mr. Yancey, our Minister, on board, had also been fired on from Rosavio, having been mistaken for a Buenos Ayrean vessel.

A satisfactory explanation, however, followed.

Between two and three o'clock this morning a fire was discovered in the Harmonia Hotel in Hudson street, Hoboken, which resulted in the loss of four lives by suffocation. There were seven persons in the Hotel. The proprietors were Boiese & Knapp, and Mr. Boiese wife and four daughters. Mr. Boiese and the next to the oldest daughter, 16 years of age, attempted to escape from the third story, and their bodies were found on the landing outside.

The two younger daughters were found suffocated in their bed. Mrs. Boiese escaped on to the roof of the piazza, and from thence was rescued by the firemen.—The oldest jumped to the ground, sprained her ancle, and received other injuries.

The fire was extinguished before the property was much damaged.

BOSTON, September 9.

The three days encampment of the State Militia broke up this afternoon, and many of the troops left for home.

Among the most impressive features of to-day's proceedings was the review of the entire force by the Governor and the Legislature, attended by General Wool and other distinguished guests.

The column occupied one hour in passing.

The troops subsequently formed in hollow square, when the Governor introduced General Wool, who was received with nine cheers and a salute from the artillery.

Brief speeches were made by Gov.—Banks, Gen. Wool, and Mr. Phelps, President of the Senate, after which a collation was taken at head quarters.

The weather has been delightful and excellent discipline and health have been maintained at the encampment—a success even beyond the most sanguine hopes of its originators and warmest advocates.

WASHINGTON, Sept. 9.

It is said that the President has tendered the Commissionership of the General Land Office to Ex-Congressman Hughes, of Ind. He will probably decline, as he did last March the Commissioner of Patents.

It is understood that the Cabinet to-day had the San Juan Island question under consideration.

A number of Members of Congress have already engaged residences for the next session.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

Dr. Coggswell's New Medical Salt, instead of its being a remedy for all ills, has control over but one thing, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

New Medical Salt. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

Notice to Invalids! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

Dr. Coggswell's New Medical Salt does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

Dr. Coggswell's New Medical Salt. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try; if not sick, remember the *New Medical Salt.*

Dr. Coggswell's New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible] As it is not a Patent Medicine, but the [illegible] ption of an eminent Physician, no one [illegible] fail to try the New Medical Salt. DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ Professional Correspondence.

"Columbus, Ohio, Aug. 8, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the Hypophosphites *than from all other forms of medication combined.*"

"Manchester, Mich., Aug. 9, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"Middlebury, Vt., Aug. 6, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"Shepherdstown, Va., Aug. 13, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* IT IS ACCOMPLISHING WONDERS.

"Lowell, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, who ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success.* It was regarded as moribund by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"Chatham, Pa., July 28, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * * It HAS WORKED WONDERS IN EVERY CASE."

Consumptives, in any stage of the Disease, should resort *immediately* to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter, and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Bayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world.

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child or Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion: Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT! JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED with elaborate engravings, of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLDS' MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrapper to any part of the world. Price TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vickers' French Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLDS' PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfil this desideratum; it is perfectly safe; no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

A New Express Company.—The association of the American Express Company, which was formed ten years ago, expires by limitation on the 1st of January next, and a meeting of the shareholders is called in New York for the 15th of November, to devise in advance the best means for renewing the joint stock partnership, with good will and name of the present concern. No provisions, it seems, was made in the original compact for such renewal or extension.

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

The Bolters.

We have been so much engaged for the past two weeks with the common enemy of the Democracy that we have not been able to give any attention to the labors of the Bolters—the "Worthy Trio" who control the columns of the Genesee Democrat—a paper now evidently "run" for the benefit of the opposition, and we have no doubt at the expense of certain Black Republican leaders who wish to get rid of Dean Richmond because he is an active Democrat and spends his money freely in support of the Democratic cause. The Democrat has published nothing for several weeks past to distinguish it from the papers of the opposition by which it is openly countenanced and supported. It makes no war upon the policy of the opposition party, now in power, in relation to our canal debt—whether it approves or censures the profligate course of debt which has been run by the late Seward Whig party, or defends the "pay as you go" policy, proposed by the Democratic party in 1835, the public have yet to be informed. We cannot but suspect that, so far as the *Nine Million Canal Bill* makes a part of the history of the canal enlargement, it is the secret intention of the *Ex-Canal Commissioner and his Clerk* to defend that Bill and all the proceedings under it.—*The Clerk* ought certainly to show what duties he performed for the Commissioner under that Bill so that the public may be enabled to learn what services he performed to entitle him to the salary for which his receipts are on file in the office of the Comptroller. Indeed, the public have a right to know what services he rendered during the *six years* that he was Clerk to the Commissioner.

Was the office a sinecure? Let us have the facts. During the whole *six years* the Clerk was continually engaged in the practice of the law in this village, while the Commissioner was in Albany. It will be observed that this is a public affair.—The people have a right to know how their money has been expended.

PROGRESS.—It seems almost impossible to believe that at the commencement of the present century, winds, sails and oars were the only means of propelling vessels known, and that steam had not then been adopted or hardly thought of beyond a few attempts to make it work paddles on the Schuylkill. Now a vessel of twenty-four thousand tons is to come across the ocean, probably chartered at $100,000, to bring two thousand passengers, and to make no less than fourteen, though its proprietors hope nearer twenty-four miles an hour. On the other hand we have now perfected, and in practical working order, it seems, one or two submarine boats of iron, that can dive and sail under water any distance, from a few inches to a hundred feet; can remain under water for four hours with or even without a tube connecting with the surface; can carry and fire torpedoes, or bore holes in the bottom of ships; can fish up pearls or cut telegraph cables. He who made great whales, made the little thresher and the sword fish, in due time to harpoon and destroy them, and so just as commerce invents the Great Eastern, which seems fairly able to run down and sink a dozen ordinary men of war without feeling the shock—just then out comes this nautilus, and it is hard to tell which is to prove the more formidable in time of a war, or ultimately, perhaps, the more safe and valuable in times of peace.

When a wisconsin girl is kissed she looks surprised, and says,—

"How could you?"

To which the swain replies.—

"It will give me great pleasure to show you," and proceeds to give her a duplicate.

Buffalo Items.

The *Express* reports wind, in and about the office of that paper in particular, and generally all over. We have no doubt of it, we always thought the Express office was a windy place—breezy as a morning zephyr. Says:—"It played the dickens with women's dresses," (what Dickens, Charles?) kicked up a terrible dust and half filled our Sanctum with the "invading sands" —that would'nt run out we suppose and hence the fuss.

We can assure the *Express* that we felt the breeze out here, and we should feel very much obliged to it if it would keep its wind "to home."

RECOVERING.—We are happy in being able to announce, says the Express, that Hon. Albert H. Tracy is apparently recovering from the severe illness which we mentioned yesterday, and that the physicians consider him past danger.

Hon. Joshua R. Giddings, of Ohio, is said to have been in town yesterday and stopped with Philip Dorsheimer, the new made Republican, at the Mansion House. Whether anybody has been in town since we shant know until to-morrow.

EXPLODED.—The Locomotive we mentioned yesterday as having exploded in Rochester, was the Ontario, run by Stephen Hanford, an engineer who has been employed on the road for twenty-one years and the senior engineer on the road. She exploded her boiler yesterday morning while drawing a train of freight cars from the freight house to North street. The locomotive was quite demolished. Hanford was so injured that one of his legs had to be amputated. The fireman was blown over a fence, about twenty feet distant. The passenger train was detained about an hour by the accident and delay in clearing the track, but arrived in Buffalo only twenty minutes behind time.

Coffee, Sugar and Molasses.

The stock of coffee in New York, Boston, Philadelphia, Baltimore and New Orleans, on the 1st of September, amounts to 140,980 bags, and 9,651 pockets. This shows a larger stock by 3,142 bags and 9,651 pockets on the 1st of September than at the corresponding period of last year, but the supply then was smaller than the average of some previous years.—Large purchases since the 1st inst., including some for export to Europe, have considerably reduced the stock in New York and Boston, and there appears to be a confident feeling that the market for some time to come will be quite buoyant and firm. The increase in the consumption last year in the United States was estimated at 46 per cent. over the previous year, and the average increase for the past ten years has been about 11 per cent. In Europe stocks are comparatively small, while the consumption is on the increase.

The stock of molasses in New York and Boston on the 1st, was 39,590 hhds, and 14,881 barrels. Almost two times as large as last year, but about the same as the corresponding period in 1857. The consumption of the lower grades is now, however, very large for distilling purposes, as prices rule comparatively lower than for several years past.

The stock of sugar on the 1st of September at Boston, New York, Philadelphia and Baltimore, was 99,062 hhds, 46,504 boxes, 86,082 bags, and 2,337 melado hhds. This is a large increase as compared with the stock on hand at the same time last year, and about the same as in 1847. Sugars, it is thought will not come into speculation. The disastrous attempt to control the market two years ago is a lesson that ought to be remembered.

A QUESTIONABLE COMPLIMENT.—At the American House, Greenfield, Mass., they have a cylinder fly-trap which catches flies at the rate of a quart an hour. This fact, however creditable to the fly trap, is a poor recommendation to the hotel that furnishes the flies. It reminds us of the chap who said he bought a fine comb with the warranty that it would catch thirty at a time, and upon personal trial found it fully up to the guaranty.

A Porter county paper says that a Mr. Beal of that county tied a long chain round an oak tree some years ago for some temporary purpose, and, forgetting it, let it stay until the bark and wood grew over it, and now it it entirely imbedded in the trunk of the tree. It will prove a crowder to the lucky individual who cuts the tree down a hundred years since.

MAGNIFICENT PRESENT TO QUEEN VICTORIA.—The London Chronicle says: "We can state, on authority of a private letter from India, that the Maharajah of Cashmere is forwarding, as a present to her Majesty, a most costly shawl-tent, which will contain moreover a bedstead of solid gold. The value of this regal offering is said to exceed £150,000."

Arrival of the Anglo Saxon.

FARTHER POINT, Sept. 12

The steamship Anglo Saxon, Capt. Ballentyne, from Liverpool 31st ult, passed this point yesterday afternoon, but owing to the interruption of the line by the storm, her news could not be transmitted until to-day.

The Teutonia appears to have reached Southampton early on the morning of the 30th, and the Nova Scotian arrived at Liverpool at 1 P. M. on the same day.

The crew of the ship Ben Bolt, reported lost in the report by the Ocean Queen, was saved. The vessel was insured in London. She had sailed from Triole with her Havana cargo.

THE ZURICH CONFERENCE.

A late Berne telegraph says as to the proceedings of the Conference, reports were quite contradictory, and that there was every reason to believe the Sardinian Plenipotentiary would not affix his signature to any protocol in favor of the scheme of the deposed rulers of the Italian Duchies.

GREAT BRITAIN.

The directors of the company owning the Great Eastern have declined Mr. Lever's offer to charter her, and their original programme was to be carried out. The ship had been closed to the public and was to leave the Thames in a day or two.

Leigh Hunt, the popular author, died in London on the 28th ult, in his 75th year.

FRANCE.

The Emperor remained in retirement in the Pyrenees. It was asserted that he would shortly proceed to Cherbourgh, and also pay a second visit to the Chalons Camp.

The Constitutionnel, in a leading article, says the Emperor will fulfil loyally his Villafranca agreement for the restoration of the former reigning princess of the, Duchies, but if he should not succeed in reuniting the princess and people in mutual accord, it is not his intention to force either one or the other.

ITALY.

There is no change in the situation of affairs in Italy.

The people of Naples were much excited in regard to the high price of corn.

An earthquake at Scocia killed 200 persons, and injured a large number of others.

NEW YORK, Sept. 12

The steamship Star of the West arrived to-day from Aspinwall, with the California mails and passengers of Aug. 20th.

She brings upwards of $2,000,000 in specie and nearly 500 passengers.

California news have been anticipated. The steamer Golden Gate, with New York passengers and mails of July 20th, arrived at San Francisco on the 13th of August, and the Cortes, of the opposition line, on the 14th.

WANTED—Agents in every section of the United States, to circulate SEARS' LARGE TYPE QUARTO BIBLE, *For* Family Use—Entitled THE PEOPLE'S PICTORIAL DOMESTIC BIBLE, With about One Thousand Engravings!!

This useful book is destined, if we can form an opinion from the Notices of the Press, to have an unprecedented circulation in every section of our wide-spread continent, and to form a distinct era in the sale of our works. It will no doubt, in a few years become THE FAMILY BIBLE OF THE AMERICAN PEOPLE.

The most liberal remuneration will be allowed to all persons who may be pleased to procure subscribers to the above.—From 60 to 100 copies may easily be circulated and sold in each of the principal cities and towns of the Union. It will be sold by subscription only.

Application should be made at once, as the field will soon be occupied.

Persons wishing to act as agents, and do a safe business, can send for a specimen copy. On receipt of the established price, Six Dollars, the PICTORIAL FAMILY BIBLE, with a well bound Subscription Book, will be carefully boxed, and forwarded per express, at our risk and expense, to any central town or village in the United States, excepting those of California, Oregon and Texas.

Register your Letters, and your money will come safe.

In addition to the Pictorial Bible, we publish a large number of Illustrated Family Works, very popular, and of such a high moral and unexceptionable character, that while good men may safely engage in their circulation, they will confer a PUBLIC BENEFIT, and receive a FAIR COMPENSATION for their labor.

Orders respectfully solicited. For further particulars, address the subscriber, (post paid.) ROBERT SEARS,

EVERY READER

WILL please notice the advertisement descriptive of MR. SEARS' PICTORIAL FAMILY BIBLE, and send for the Printed Catalogue of all our Illustrated Works.

To the uninitiated in the great art of Selling Books, we would say, that we present a scheme for money making, far better than all the gold mines of California and Australia.

Any person wishing to embark in the enterprise, will risk little by sending to the Publisher $25, for which he will receive sample copies of the various works, (at wholesale prices,) carefully boxed, insured and directed, affording a very liberal percentage to the agent for his trouble.—With these he will soon be able to ascertain the most saleable, and order accordingly. FROST AND CRANBERRIES.—We learn, says the Milwaukee News, that the early frost has played the dickens with the cranberry crop of this State, and that where ten bushels were gathered last season, it will be hard work to find one bushel this, and they will be of a much poorer grade. In some Counties of the State, the cranberry crop has far exceeded in value and amount, the grain crop, and its loss will be very serious to those who have relied upon the now ripening crop for their fall change and winter clothing.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operation.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and MECHANICS to manufacture who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

BY TELEGRAPH.

Last Evening's Report.

Further by the Anglo Saxon.

FATHER POINT, Sept. 12.

THE ZURICH CONFERENCE.

A despatch dated Zurich, Aug. 27th, says for the last few days there has been no Conference of the Plenipotentiaries.

It is believed they will be enabled to quit Zurich, at the latest, in a fortnight.

On Monday the 28th the Austrian and French Plenipotentiaries held a private conference.

The Paris correspondent of the London Times says, in a letter dated the evening of the 28th, a private letter from Zurich of the 26th states that the labors of the Plenipotentiaries were going on slowly enough, notwithstanding the announcement made a few days ago that it was doubtful if any important point had been settled.

What the French Government will at last have to do is simply to declare to Austria that it has done all that was morally in its power in favor of her protege, or else it must dispose itself to impose them on the Duchies by intrigue if not by force.

ENGLAND.

The Queen and Royal family had gone to Scotland for their usual autumnal visit.

The Isle of Man had been successfully connected by a submarine telegraph cable with England.

The telegraphic Companies between England and Malta had been re-established. This would expedite the reception of news from India by about three days.

Lord Radstock publishes in the London Times a letter received by him, from Richard H. Dana, of Boston, on the subject of ballot in the United States. Mr. Dana shows the benefit of the ballot system, and explains that in America it has been found necessary for security against fraud to deprive it of the element of secrecy.

A Cabinet Council had unexpectedly been summoned in London, on the 29th. Various speculations were afloat as to the cause of it. It was generally supposed to have reference to some new phase in the Italian question.

The strike of the London builders continue.

The London Times in a leading article on England's defensive preparations says that she is now rapidly approaching, if indeed she has not actually attained a position in which no assailant can hope to attack her with impunity.

HALIFAX, Sept. 12.

A tremendous conflagration occurred in this city early on Saturday morning—Two whole blocks on Granville street, numbering fifty buildings and including thirteen extensive dry goods establishments, were totally destroyed. The damage is not estimated, but it must necessarily be very large.

It is reported that three men were killed at the fire.

FREEPORT, Ill., Sept. 10

The Illinois State fair closed to-day after a very successful exhibition.

The $3,000 prize for a steam plow was not awarded on account of the condition of the *ground* where Mr. Fawkes made his trial before the executive committee. The trial now stands adjourned till Mr. Fawkes returns from the American Institute Fair in New York, where he is engaged to exhibit his plow.

PORTLAND, Sept. 12.

The city government has made especial arrangements to do honor to the arrival of the Great Eastern. The programme includes a public dinner, ball, general illumination of the city, ringing of bells, salutes of artillery, excursions in the harbor, military displays, and other manifestations of public rejoicing.

NEW ORLEANS, Sept. 12.

The steamship Granada is below, with Havana dates of the 9th inst.

The steamship Philadelphia left there for New York, on the 9th inst.

Sugars were in improved demand.

The Brownsville Flag, of the 1st inst, says that it was rumored that Miramon, with 3,000 men, had marched on San Louis.

Gen. Marquis was in Zacatecas, and Gen. Ortega had been killed in battle.

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compound; he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Pancost, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. Please accept my thanks for the can of pills which reached me this morning by express. Enclosed find the amount of your bill. Send everywhere.

DR. HOOFLAND'S

GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhœa** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by Dr. C. M. JACKSON & CO., *No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. Jackson will be on the outside wrapper of each bottle.*

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's*, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflamatory Diseases only.

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, [illegible] any ill, has but one aim, and accomplishes but one thing, to wit: subduing inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW ANIMAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (in other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms, which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as readily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and chest, Pits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids in removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGSWELL'S NEW MEDICAL SALT is sold in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent medicine, but the [illegible] of an eminent Physician, no one [illegible] to try the New Medical Salt. [illegible] testimonial and directions see circular.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ Professional Correspondence.

"CHICOPEE, MASS., Aug. 9, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 8, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 8, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 10, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects*. It is accomplishing wonders."

"LOWELL, O. July 8, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who are now enjoying comparatively good health, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, with decided improvement. It was regarded as hopeless by physicians and friends, and now so much improved, that [illegible]. Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Haymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering Notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's intensely interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared expressly for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can with safety place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five thousand* News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is four cents, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be "unsuspecting," led with us, we would state that we have no connection with any other Gift— Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(*2d door, Up Stairs, Buffalo, N. Y.*)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption, AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgia pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

SOLEMN FACTS.—A noted writer says that a woman with a hazle eye never elopes from her husband, never chats scandal, never sacrifices her husband's comforts for her own, never finds fault, never talks too much or too little, always is an entertaining, intelligent and lovely creature.—The grey is the sign of shrewdness and talent. Great thinkers and captains have it. In women it indicates a better head than heart. The dark hazel eye is noble in significance as in its beauty. The blue eye is admirable but may be fickle. The black eye—take care! Such may be seen almost daily at the police office, generally with a complaint against their husband for assault and battery.

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

An Immense Aerial Ship.

The Times contains an account of a new aerial ship, which is in course of construction, about four miles from New York, under the direction of the aeronaut, T. S. C. Lowe, of New Hampshire, a man who is said to have made thirty-six balloon ascensions. The new aerial ship has been christened the City of New York, and is designed for a trans-Atlantic voyage. It is five times larger than the largest balloon ever before built. Its dimensions are as follows:

Greatest diameter—feet	130
Transverse diameter—feet	104
Height, from valve to boat—feet	350
Weight, with outfit—tons	3½
Lifting power (aggregate)—tons	22½
Capacity of gas-envelope—cubic feet	725,000

Six thousand yards, or fifty-four thousand square feet, of twilled cloth have been used in the construction of the envelope, and seventeen sewing machines have been employed in connecting the pieces. The upper extremity of the envelope, intended to receive the gas-valve, is of triple thickness, strengthened with heavy brown linen, and sewed in triple seams. The pressure being greatest at this point, extraordinary power of resistance is requisite. It is asserted that one hundred women, sewing constantly for two years, could not have accomplished this work, which measures by miles. The material is stout, and the stitching is stouter.

The varnish applied to this envelope is a composition the secret of which rests with Mr. Lowe. Three or four coatings are applied, in order to prevent leakage of the gas.

The netting around the envelope is equal to 160 tons. The basket is circular, twenty feet in circumference and four feet deep. It is to be warmed by a lime stone which is to furnish heat without fire.—Below the basket is a metallic life boat, containing an Ericsson engine, designed to control a propeller, by which means it is believed a regulating power may be obtained. The propeller is fixed in the bow of the life-boat, projecting at an angle of about forty-five degrees. From a wheel at the extremity twenty fans radiate.—Each of these fans is five feet in length, widening gradually from the point of contact with the screw to the extremity, where the width of each is 1½ feet. Mr. Lowe claims that by the application of these mechanical contrivances his air-ship can be readily raised or lowered, to seek different currents of air; that they will give him ample steerage way, and that they will prevent the rotary motion of the machine.

Mr. Lowe expresses complete confidence in his aerial ship, and declares his purpose to start for Europe with it, and hopes to make the trip to London in forty-eight hours. The enterprise involves an expense of $20,000. The time for the ascension is not definitely fixed, but the event will probably occur in three or four weeks.

We learn from the Taunton (Mass) Gazette of Friday that the lifeless body of Mr. Nelson E. A. Willar, who was buried alive in a well which he was cleaning out on Wednesday morning last, was taken out by the workmen after fifty hours of almost uninterrupted labor. The unfortunate man was found at a depth of thirty-five feet below the mouth of the well, which is fifty-four feet deep. Of course life had long been extinct, and it was apparent that no human effort could be expected to rescue him alive.

The Machias Republican says: The stomach of Mr. John Allen, who died very suddenly near Beddington a few weeks since, has been examined, and poison found therein. His wife and a Mr. Mann have been arrested on suspicion, and taken to Aurora for examination. It is supposed that Mrs. Allen "knew a Mann before she was a widow, and killed that man, for that other Mann."

A breach of promise case has recently been tried at Catlin, Chemung county, and the defendant, D. C. Kimball, has been adjudged to have disappointed the slighted lady Miss Amanda M. Masters, to the extent of $1,000. The case has made much scandle, for the defendant testified that the fair Amanda had voluntarily become his wife, *de facto*, if not *de jure*. As the parties are what is called "respectable," the affair furnishes ample food for the village gossips.

Fall Fashions.

The Ladies' Visitor for September announces a "novelty" dress. It is composed of two materials—for instance, red velvet and white moire antique, and has, it is said, a "piquant effect."

The "Alice Maude" is a new outer garment. It is made with a deep pointed yoke at the back, and plain in front. The back is gathered into three box-plaits upon the yoke, and the front is fashioned so as to admit of the arm being raised without displaceing it ungracefully.

Skirts are worn much longer behind than in front; flounces are altogether disused for the promenade, and the double jupe is worn on all occasions. Circulars are made of white berege and of white Marseilles; the former trimmed with colored quiltings, and the latter with white fringe.

Walking-dresses of black and white plaid or stripe, with dusters to match, will be extensively worn. Gaudy colors are utterly discarded by all persons of good taste, especially for the promenade.

Slippers are always ornamented by rosettes of ribbon or buckles and flat bows, and ends trimmed with lace.

Bonnet ribbonds are in great variety, the favorite patterns being two stripes—one white and the other some rich figure in colors. Another style of ribbon is in blocks of various colors on a white ground.

WHISTLING GIRLS.—An old proverb runs thus:

> Whistling girls and crowing hens,
> Always come to some bad end.

In one of the curious Chinese books recently translated and published in Paris, this proverb occurs in substantially the same words. It is also an injunction of the Chinese priesthood, and a carefully observed household custom to kill immediately every hen that crows, as a preventative against misfortune, which the circumstance is supposed to indicate. The same practice prevails throughout many portions of the United States.

We do not see why, if crowing hens are disposed of for fear of brooding misfortune, that "whistling girls" should not also be made the subject of visitation. They are rather in high favor, as witness the popularity of the song:

> "Whistle and I'll come to you my lad!"

Can any old bachelor listen to this eloquent strain, emanating from the rosy lips of a mischievous piece of calico-dressed divinity, without feeling his puckering-string growing short at the corners of his mouth "prepare to pucker." A girl who can whistle has music in her soul of no uncommon kind—that is evident, and the "bad end" she comes to is evidently to whistle her way into some old bachelor's bosom. Pretty bad place, to be sure, but a spot in which a great many "unprotected females" would be most glad to find an asylum—particularly if it was accompanied with a fine suit of rooms—a Chickering Pianoforte and servants to match.

> Though father and mother and all should go mad,
> O, Whistle and I'll come to you my lad.

"You are an old sheep," said a promising specimen of young America to his mother. "Well, you little rascal," exclaimed she, seizing the broom stick, "if I am an old sheep, I *lam'd* you and I'll lam you again."

We are pleased to learn that Hon, Charles Sumner is recovering. He is in Paris, where he had his spinal marrow taken out, scraped, soaked in oil and replaced, his muscular membranes operated upon, his nerves taken out, sized and replaced, and is in a fair way of recovery.

Since the nomination of the Republican State ticket the query is being made why so many Democrats are put in nomination? Four are upon the State ticket. If the Republican State ticket is elected, will there not be a majority in the Canal board who in 1842 favored the policy?

A large Newfoundland dog in Rochester ran against a little boy seven years old, the son of Deputy Sheriff Pierce, and knocked him down, fracturing his thigh. The injury is very serious, if not fatal.

The following epitaph was taken from a tomb-stone stone in Sterling, Miss:

> "As she on her bed of sickness lay
> Her friends stood weeping round,
> She not a word to them could say,
> No medicine could they get down."

NOT COMMUNICATIVE.—On Friday last, as a train was leaving the Rochester Depot, a lady discovered that her satchel had been stolen. It was found under a seat occupied by a well-hooped and good looking young woman. A wallet containing $3 was missing, and an officer suspecting the young woman to be the thief, asked her name, which she refused to give. He asked where she lived, and she was equally incommunicative; He asked where she was going, and she said it was none of his business. Her occupation was then demanded, and she said she did what she pleased. She was taken into a private room and searched, but nothing was found. The search being over she coolly returned to her seat and was soon apparently interested in the pages of a yellow covered novel. She can travel.

A gentleman in North Chester, Vt., two or three weeks since, offered as a prize, a copy of Webster's "Unabridged Dictionary" to the one of the scholars in all the public schools in town who should "spell the others down." Seven scholars were accordingly represented, and about a dozen teachers and a large crowd of spectators were present when the trial took place, on the 25th ult. Only one trial was to be had on a word, and the unfortunate who missed must take his or her seat. Eighty scholars contested for the honor and the prise, and after five hours trial, five pupils remained standing, and the enthusiastic audience soon raised the needful to purchase each a copy of the great "Unabridged."

RIGHT.—Rev. Mr. Brown, of the M. E. Church is opposed to the absurd custom of gentlemen getting up and marching from their pews into the aisles to let ladies in. He favors the plan of taking seats and there remaining undisturbed. This is right, and we hope to see one church act sensibly on this subject. The cause which first brought this practice in use, is not now necessary. In the days which tried "men's souls" long ago, when Indians were prowling about, the men were seated at the outer ends of the seats, to be ready to repel attacks from them. We are now invaded by no enemies but silly coustom.

In the days of the greatest official corruption known in English history, Audley the famous usurer-monger, when asked the value of an office he had purchased in the Court of Wards, replied: "Some thousands to any one who wishes to get to heaven immediately twice as much to him who does not mind being in purgatory; and nobody knows what to him who will venture to go to hell.

Medical Advice.—"Doctor," said Frederick Reynolds, the dramatist, to Dr. Baillie, the celebrated physician, "dont you think that I write too much for my nervous system?"

"No, I don't," said Dr. Baillie; "but I think you write too much for your reputation."

The Medina (Pa.) Advertiser says that a school teacher in Delaware County beat a little girl, thirteen years of age, for a trifling offense. He also hanged her up by the thumbs, the joints of which are either wholly or partially destroyed from the effects. Strange as it may seem the indignant people didn't hang the unfeeling wretch.

Another accident from the tight rope mania has occurred in Rochester. A boy named Lavis, twelve years old, walking on the railing of the Genesee Valley Canal bridge *a la Blondin*, lost his balance and fell twenty feet. His injuries may prove fatal.

The melancholy editor of the Boston Post says the suicides throughout the United States now average about nine a week.

LOCAL MATTERS.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of the

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the *largest* stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

BY TELEGRAPH.

The Democratic State Convention.

SYRACUSE, Sept 13.

The attendance both inside and outside of the Convention is already large, and the prominent men of the party have taken the field early.

The headquarters of both wings of the Democracy are at the Voorhees House, the rooms of Fernando Wood and Peter Cagger being in close proximity, and Isaac Fowler and the whole string of Tammany delegates, being only a few doors removed.

The appearance of Wood's and Cagger's quarters give a fair criterion of the complexion of the Convention.

The former are quiet, with indications of firmness on the countenances of those who pass in and out, while the latter are crowded to their fullest capacity and an air of confidence is apparent in all. Numerically, as between the Hards, who are district system men, and the Softs, or those in favor of electing Charleston delegates at once, the convention will stand without contested seats as follows:—Softs, 70 to 72; Hards, 24 to 26. The calculation is closely made and is probably correct, although the Wood men claim a larger number.

Daniel S. Dickinson is at the Syracuse House, and has been visited by Cassidy and Comstock of the Atlas and Argus, Comptroller Church, and a large number of others, and also by Wood, and a delegation of Mozart Hall men.

Dickinson's position is that of conciliation, and he desires harmonious arrangements as to organization, and a fair representation for the Hards on Charleston delegation.

Dean Richmond and the western delegation of Softs are at the Syracuse House.

The old State officers are to be renominated with the exception of Secretary of State, Tucker, who declines, and whose place will be probably filled by Davis R. Floyd, Jones or Judge Scott. To-night the chances favor and former.

Skinner, of Herkimer, and Judge Scott are talked of for Canal Commissioner.

The Convention will be temporarily organized with S. T. Fairchild, Class Democrat, of Madison, or perhaps John Stryker, of Rome, for President.

Permanent President will be W. H. Ludlow, unless some change in the programme takes place before morning.

The probability now is that there will be very few contested seats, many thought to be contested declining to appear.

The New York case will most likely be settled by resolution declaring that as the last Convention decided in favor of the Tammany delegates, and no new features have arisen since, the Tammany delegates are entitled to the seats.

This will exclude Fernando Wood from the floor, in that case he will take the seat of Lewis A. Edwards, of Suffolk, who has the power of substitution.

On the Mozart Hall side, Wood claims a greater number than here given him, and insists on having the case of contested seats heard before the Convention.

Appearances now indicate that all will be harmonious between Dickinson's friends and the Softs.

The Charleston delegation will undoubtedly be chosen now. The Hards will have probably two delegates at large to two Softs, and one-third, or rather more of the State delegation.

The Wood party held a caucus this evening, which was largely attended, although Mather, Schell, and some other Dickinson men, remain outside. Speeches were made by Wood, John A. Green, Jr., and others. All firmly insisting on an equal division of the Charleston delegation and the State Committee, and an equal representation for Tammany and Mozart in the Convention.

The speeches were resolute, but conciliatory in tone.

Russell, of Ulster, waited on the Softs to ascertain the truth of the rumor that no delegates would be admitted without tickets and no tickets issued to any contestants.

The Hards were informed that every delegate and contestant would receive tickets and be admitted to the floor. The Hards thereupon resolved to accept tickets this time in view of the emergency of the case, but declared against receiving tickets or submitting to that mode of admission hereafter. They resolved to present the name of Thos. G. Alvord, ex-Speaker of the Assembly, for the presiding officer of the Convention.

The Wood men insist upon choosing their own share of Charleston delegation.—If they have the privilege of doing so they will name Fernando Wood and John A. Green, Jr., of Onondaga, as delegates at large.

On the soft side it is proposed to concede Delos DeWolf and Bronson or Schell as delegates at large.

Dean Richmond will be the delegate at large on the Soft side, and probably Isaac Fowler.

Among the candidates for State delegates from New York are George Sanders, Waterbury, Mather, Cochrane, Capers, and Judge Brennan.

Mr. Dickinson appears anxious to conciliate, but wishes the Mozart delegates to have a representative in the Convention.

Dr. Sawyer of Blackwell's Island, is offered the nomination of State Prison Inspector, and will be nominated if he will accept.

Comptroller Church and Attorney General Tremaine have been actively engaged all the evening endeavoring to effect a compromise and harmonious agreement with Wood.

The city is now very full, and there is a chance of a crowded convention.

Duncan S. Magee, one of the Tammany delegates, has a letter from his contestant on the Mozart Hall side, declining to contest his seat, and expressing the wish that Magee may go for union and harmony of the party.

GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhœa** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by DR. C. M. JACKSON & CO., *No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of* C. M. JACKSON *will be on the outside wrapper of each bottle.*

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public, We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills,

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Disease. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the earlier and [illegible] stages [illegible] a period, consequently, when there can be no uncertainty as to the nature of the disease, can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Marginal Memoria, our Items of Interest, etc. etc. In a word the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taking tens, they are now taking hundreds of copies. This is the general effect among the *five thousand* News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,

N. B. A word of explanation to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to prevent the *yew* who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 9½ MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fleur Albus &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammatory state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills will receive for $5 a series of Health Rules, and perfect chart of cure, which will be of more than a thousand dollars value to them through life.

A NEW WORK, SPLENDIDLY ILLUSTRATED with [illegible] plates, [illegible] pages, the best work on diseases of the genital organs ever introduced to the public, by Dr. REYNOLDS [illegible] everything every subject known in the [illegible] or [illegible] as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being, in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, after given up by all making pretensions to the healing art. All cures warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vincent's Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found in the directions accompanying each box. Price One Dollar—Sent by mail free of charge.

DR. REYNOLDS' PATENT FRENCH SAFE.

This appliance those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is guaranteed never to fail. Its use is perfectly safe, no metallic substance entering its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family purposes. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The Jumper Drowned.

We learned yesterday that Shields, the man who was advertised to make a Sam Patch leap at the Falls to-morrow, was drowned Tuesday evening at the place he had selected for his foolhardy undertaking. It was near the point where the Blondin cable was stretched that he had proposed jumping, and that day he went into the water for the purpose of making an examination of the place before performing the feat.—While swimming he was either taken with a cramp and sank through helplessness, or he was drawn under by some nether current or eddy of the rapids. The latter seems to be the supposition at the Falls, but we, says the Buffalo *Express*, should rather believe that he was drowned from the former cause, the coldness of the water at this season rendering a swimmer extremely liable to cramps, and it seeming to us unlikely that there should be any downward sucking current at the place where Shields went under. The reason, however, matters little; it is sufficient that he sunk and was not seen afterwards. So ends this affair that was being got up to feast the eyes of gaping fools. Had Blondin made a fatal step the first time he attempted to cross his rope it would have been better for the public.

Mankind ought to look for something higher than the attributes of the brute creation by which to distinguish themselves and it is no compliment to the newspaper press that these foolhardy exhibitions have recieved so much *eclat*. A good smart monkey will outdo Blondin any time and not make a more disgusting exposition of himself. We hope the death of this last aspirant for notoriety will serve to check the further spread of this kind of mania for such exhibitions.

SUSPENSION OF THE "ATLANTIC MONTHLY" PUBLISHERS.—The Boston publishing house of Phillips, Sampson & Co. were obliged to suspend payment on Saturday.

The Boston Courier, in noticing this suspension, states that the "Atlantic Monthly load" was one of the causes of their embarrassment. This, however, says the New York Post, is denied, "on authority" and it is stated that the Atlantic has not only paid its expenses, but a very handsome profit over its cost. The suspension grew out of unfortunate circumstances, well known to the trade, which produced a lack of confidence in the stability of the house.

Buffalo Items.

Geo. W. Oliver, son of Dr. Wm. G. Oliver, the well known Dentist of Buffalo while out gunning yesterday, jumped over a fence and while drawing his gun after him, with the muzzle near his breast, it discharged, killing him almost instantly.

The Philanthropic Convention to hold three days, opens to-morrow. It claims the good purpose of overcoming evil with good, but we apprehend there will be a good deal of ranting, and likely enough more overcoming good with evil, than the contrary.

Another of the highly respectable young men of Buffalo has got into trouble. He forged a check which passed at first, but was afterwards detected which led to his arrest and the discovery on his person of several others. A colored female is said to have led him away. Rich parents and respectability seems to ruin a great many young men in Buffalo.

RATHER DIRECT.—A clergyman from a neighboring town and one of his elderly parishioners were walking home from church one icy day last winter when the old gentleman slipped and fell flat on his back. The minister, looking at him a moment, and being assured that he was not much hurt, said to him- "Friend, sinners stand on slippery places." The old gentleman looked up, as if to assure himself of the fact, and said, "I see they do; but I can't."—*Providence Post.*

Democratic State Convention.

SYRACUSE, Sept. 14

Tickets of admission to the Hall are issued to all delegates and contestants.

Wood, John A. Green, Gid. J. Tucker and other hards, have been in session this morning, and resolved to claim a hearing before the committee on New York contested seats, and oppose to the last extremity any attempt to settle that question by resolutions.

Dickinson advocates equal the representation for Mozart and Tammany on the floor, and counsels moderation.

Messrs. Rogers, of Erie, Schell and Mather, do not act cordially with the Wood party.

Edwin Croswell is here, and has been in consultation with Wood and Dickinson.

The Convention temporarily organized at noon.

The Softs are confident, and talk of conciliation.

The Wood men positively insist on selecting their share of the delegates to Charleston themselves.

Before 12 o'clock the gallery of the Hall was crowded densely with spectators, and a large number of delegates were present, with a number of outsiders. Immediately the clock struck twelve, Hiram C. Smith of Monroe, jumped upon the floor, and moved that Thos. G. Alvord be temporary chairman of the Convention.

The vote was instantly put and carried.

Immense excitement followed, the majority of the Convention being taken by surprise so terrible as to prevent any attempt at amendment.

Instantly the vote was declared. Mr. Thomas G. Alvord, who was on the platform, took the Chair and called the Convention to order.

A motion was then instantly made to elect Messrs. Shankland of Cattaraugus, and J. B. Hall, of Schoharie, Secretaries.

This resolution was also carried amidst a perfect panic on the part of the Softs.

Mr. C. D. Murray, of Cattaraugus, immediately took the floor and moved the following resolution:

Resolved, That regretting the difficulty in the Democratic party in the city of N. Y., this Convention will not decide upon the regularity of the two existing organizations there, and hereby admits to seats both of the delegations from that city, with equal rights upon this floor. (Loud and overpowering shouts of Question, Question Question.)

Mr. Cochrane of New York, took the floor.

For a long time his voice was drowned in shouts of "Question," and a most deafening uproar.

Jumping upon a seat, Mr. Cochrane continued amidst immense excitement, until Peter Cagger took the platform, called the Convention to order, and nominated John Stryker, of Rome, as temporary Chairman.

An immense riot followed, during which no word could be heard.

This continued until Mr. Rynders came forward in support of Mr. Cochrane. He was confronted by Mr. Sheehan and Benjamin Rae.

Blows were partially struck. Callahan, a New York boy sprang at Wood, exclaiming, you must stop this fight.

Reporting at present impossible.

Fighting and a dreadful row.

John Stryker was moved as temporary chairman and knocked down by one of the Wood men. He was not Hurt, but was knocked off the platform.

Excitement most intense at the present moment.

After most tremendous excitement in dumb show, John Stryker adjourned his convention, and Mr. Wood moved the regular motions for committees and made a speech bitterly attacking disorganizers, as he declared those who had left. Motions all put and declared carried.

Stryker having declared the Convention adjourned till 1 P. M., all the Convention except the Wood men withdrew.

It is impossible to see how many remained in the Hall in consequence of the crowd of outsiders.

At 1½ P. M. there was no further rioting, but the Wood men remained in the Hall.

The Wood convention adjourned and the chair amidst immense applause from the gallery and floor, lame and bruised from the fall and blow.

After a fine speech from Cochrane, declaring that the party was now united, the roll was called.

[we are unable to give room for more of the report. The Wood party was pretty thoroughly routed and the regular Convention proceeded to business. The Wood party is charged with bringing hired ruffles to break up the Convention.

AN UNPARDONABLE OFFENCE.—There is one thing that the most successful man rarely succeeds in—and that is making others forgive him his success.

SUPERSTITION.—They that are against superstition oftentimes run into the wrong side. If I will wear all colors but black, then am I superstitious in not wearing black.—*Selden.*

The Latest from the Convention.

SYRACUSE, Sept. 14—7 P. M.

All the Delegates but Mr. Smith, of Monroe, and Mr. Alvord, of Onondaga, have appeared and taken seats. Wood's outrage is a perfect fizzle. The Convention has decided 92 to 31 against postponing the election of Delegates to Charleston, and appointed a committee of two from each Judicial district, to report the names of Delegates. Good feeling prevails. Adjourned till to-morrow morning.

SIMPLE MODE OF ASCERTAINING INTEREST.—A new mode of computing interest at six per cent., has been published which appears simple. Multiply any given number of dollars by the number of days of interest desired, separate the right hand figure, and divide by six; the result is the true interest of such sum for such number of days at six per cent. This rule is so simple and so true, according to all business usages, that every banker, broker, merchant, and clerk, should post it up for reference and use. There being no such thing as a fraction in it, there is scarcely any liability to error or mistake. By no other arithmetical process can so decided information be obtained with so few figures.

FRUIT TRADE OF MONROE COUNTY.—The apple crop of Monroe county is estimated as high as 450,000 barrels, and the total crop of Western New York at 1,000,000 barrels. The Rochester Democrat says: "It is estimated by one of the heaviest operators in fruit here, that not far from 15,000 barrels of apples have been shipped from Rochester since the season commenced, and that at least 25,000 more must follow. Others make their figures larger than this, but we prefer to be on the safe side. The prices paid at present, will average about $1 00 per barrel—the best bring $1 25, and the most inferior kinds 75 cents. Recent advices from the East tend to establish the opinion that prices must fall still lower."

Why is a young lady like a bill of exchange? Because she ought to be "settled when she arrives at maturity."

A woman has no natural grace more bewitching than a sweet laugh. It is like the sound of flutes on the water. It leaps from the heart in a clear, sparkling rill: and the heart it feels as if bathed in the cool, exhilarating spring. Have you ever pursued an unseen fugitive through the trees, led on by her fairy laugh; now here—now lost, now found.

THE LOVER'S PUZZLE.—To learn to read the following, so as to make good sense, is a mystery:

I thee read see that me
Love is down will I'll have
But has and you have you'll
One and up and you if.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public. the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Death of an old Resident.

Died in Elba Tuesday evening, Major Eden Foster, aged *Seventy years.*

Major Foster, was one of the early settlers of the town, extensively known, and has died leaving many friends to mourn his loss. His funeral will be attended at the Baptist church in this village, on Friday at eleven o'clock, and his remains taken about four miles north to Daw's corners for burial.

FROST.—There was a severe frost last night, sufficient to kill everything not too matured to be injured by it. Buckwheat will probably suffer considerably by it and perhaps some fields of corn.

RETURNED.—Our distinguished citizen, Harry Wilber who went down to syracuse to superintend the Convention for the "hards" of this district, with Mr. James G. Shephard, the hard delegate who was to take the Seat of DEAN RICHMOND have this morning returned. They are reported to be in a very unhappy state of mind.

See advertisement of J. D. Ferris offering to sell his Railroad Saloon.

Good news for the People.

G. W. Hall, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one-half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

DR. HOOFLAND'S

GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

**Liver Complaint, Dyspepsia, Jaundice,
Debility of the Nervous System,
Diseases of the Kidneys,**

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhea** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by Dr. C. M. JACKSON & CO., *No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. JACKSON will be on the outside wrapper of each bottle.*

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians, of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills,

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post-paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites contain the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption.

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the Disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

[illegible], August 1858. [illegible]

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other* kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith,

Mrs. Mary J. Holmes, Helen Foster Graves, Mary G. Vaughan, Margaret Verne, Anna Raymond, Ella Mayville. Write for it regularly, while a score of other well-known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is destined more especially as a First Class Story Paper, to which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Sketches of Travel and Adventure, Short Stories, General Summary of Events, Humorous Sketches, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The [illegible]! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Episodes of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs. An interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our [illegible] [illegible], our [illegible] [illegible], etc., etc. In a word, the Editors will use their best endeavors to so get up a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting room of the merchant—a paper that parents can, with safety, place in the hands of their children without any misgiving, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, and lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has grown up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where five thousand were taken last, they are now taking hundreds of copies. This is the general effect among the five thousand News agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, and in a place where you have no means of looking after it. We trust the day is not far distant when every town large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3. Four copies for $5, eight copies for $11. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all current banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Emporium located by us at No. 677 Broadway, New York city, is the oldest establishment in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the public who may be unequally led with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using our appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(3d door, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eyesight, loss of memory, dizziness of the head, neuralgia pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys, and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from sexual excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Practice.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Herb Doctor is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for 25 cents a series of Health Rules and perfect chart of cure, which will be to them a true guide all through life.

Address, DR. JOHNSON,
Drawer 491 P. O. Office 95 Main St.,

THE GROVER & BAKER
Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer to-sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Recreant Democrats!

In reply to an article under this head in our paper of the 3d instant, the Republican Advocate of last week, said:

It seems by the last number of the Genesee County Herald, that it is determined to find out from us why the old Whig Party was allowed to go down and join the number of defunct political organizations, and the Republican Party came into being to trouble the Democracy. From its perseverence in search of *the reason why*, we are led to infer that it regrets the change which the death of the one and the birth of the other has made, and that it fears much more from the opposition of the Republican Party, than it should had the old parties remained as formerly.—There *may* possibly, be good reason for its fears.

But the Herald is in search of light.—It really wants to know why! Now we submit that we are not exactly the one to whom the question of the why or wherefore ought to be made! As far as we can remember—for it was some years since that the Republican Party was formed, and our memory is somewhat bad—*we were not consulted*, and of course we cannot be held responsible for the fact, neither can we exactly tell *why it was done at* all!—It is sufficient for us, at this time, to know that the Whig Party, with all its glories, and its achievements over the unterrified Democracy has gone the way of many other parties. In plain words it is *dead*.

Now, we submit this is no answer to our inquiry; what we wished to know and what we think the public have a right to know, is whether the Advocate, with the late change of party names, had modified, changed or abrogated any, or either of the articles of its old political creed which it formerly maintained so long and so ably—in plaintiff terms, does it yet favor the idea of a *protective tariff*—a national Bank or any other fiscal agent for the collecting, safe keeping (?) and disbursing of the revenues of the government in place of the independent or sub-treasury? Does it favor the idea of internal improvement by the general government among the States, and if so to what extent?"

We were induced to ask for information upon this subject, as we have been unable to find any new declaration of principles in the so called Republican, formerly Whig party, and no declaration of a retraction of any old principle. The object would now seem to be to steal into power, as they did in 1840, without standing upon any particular platform. The Boston Atlas, more honest than its contemporaries expressly, says "the American Republican party have no higher aim than to rescue the Government from the power of the men who now control it," or as Governor Seward would say to dislodge the Democratic party.

In 1840 the same men who now compose the Republican party built log cabins—hung out coon skins, drank hard cider and went for "Tippecanoe & Tyler too," without a why or a wherefore. They did then, however, say that a National Bank was "an obsolete idea," but the new administration under President Harrison was hardly organized, when, with indecent haste, they proceeded to repeal the sub-treasury law, for the express purpose of making the Banks (and the Bank of the United States of Pennsylvania among others) again the depositories of the public moneys. In 1837 every Bank in the United States having failed, President Van Buren called an extra Session of Congress for the purpose of passing some law for the safe keeping of the public monies; that Congress when convened, passed the independent or sub-treasury law. It was attacked by the new hard cider party in the most angry manner and immediately set aside. It was not pretended it had not worked well, nor but that its adoption at the time was a measure of absolute necessity for the purpose of taking the public money from the custody of insolvent banking incorporations. But as very justly said by Mr. Benton to the Senate of the United States "the election of Gen. Harrison was effected by the combination of all parties to pull down one party without any unity among the assailants on the question of measures."

We are now again experiencing another combination of all parties to pull down the Democratic party without any declaration of measures.

Since the opposition press will not speak out and declare itself upon the great issues which have heretofore divided parties and which must continue to divide them, we must conclude that the Republican party, should it come into power, will not hesitate to put in practice the same policy and the same nefarious schemes which it so often attempted to carry into effect under the old name of "Whig."

The Democratic party has never changed its name, and it has continually, since the formation of the Federal Constitution, battled for a government of *limited powers*, against the opposition, whether Federalists, National Republicans, anti-Masons or Whig, which under all these names and some others, has always claimed for Congress the right to exercise many powers by *construction*—thus making the federal government, in fact, an arbitrary government.

But really we do not feel that we ought to press our friend, the editor of the Advocate, further upon the subject as he says he is "not exactly the one to whome the question of the why or the wherefore ought to be made" and that "*we were not consulted* and of course cannot be held accountable for the past, neither can we exactly tell *why it was done at all*." This will do very well so far as it relates to the chang of name.

But we think our friend, the editor, must have a very bad memory when he would have the public believe that he can hardly remember when the change was made. The Whig party assumed the name of Republican in 1856, about three years since, when it went for "Fremont and Freedom. Our friend must have a very short memory.

While the Democratic party has never changed its name it has never attempted to carry an election by an appeal to the passions and prejudices, and not the reason and judgment of the people. It has never availed itself of any temporary excitement or issue to obtain political power.—The hard cider campaign of 1840 disgraced us as a people. It showed, at least, that the successful political party on that occasion had no confidence in the intelligence of the people. It had a worse aspect than the bribery system practised in Great Britain, because under that system the electors were considered at least as intelligent beings, capable of accepting bribes, but in 1840 the electors were treated as children, and were supposed to be influenced in their political action by singing, drinking and the exhibition of Coon skins and other childish performances.

Last Evening's Report.

Democratic State Convention—Second Day.

SYRACUSE, Sept. 15

The Democratic State Convention assembled at 10 o'clock.

President Wm. H. Ludlow announced that the first business in order was the reports of committees.

Messrs. Shea and Richmond, from the committee on contested seats, reported in favor of admitting Orville Robinson as a delegate from Oswego. Report accepted.

Mr. Stryker, of Oneida, moved that the Convention now proceeded to the nomination of candidates for State officers. Adopted.

Mr. Rynders said that as there was only one candidate in the field, and that as the desire of the whole Convention was to renominate Judge Johnson, the present able Judge, he moved that Alex. S. Johnson be unanimously declared the candidate of the party for Judge of the Court of Appeals. (Applause.)

Thereupon, Judge Johnson was unanimously nominated. The result was received with loud cheers.

Mr. Armstrong of Queens, presented the name of David C. Floyd Jones of Queens, as a candidate for Secretary of State.—(Applause.) He desired to say that as Mr. Jones appears as the nominee of a party that met in a private room in a Hotel last evening, that such nomination was made without his knowledge or consent and was repudiated by him. (Cheers) He commented on the public and private character of Mr. Jones and expressed his conviction to the democracy of New York and Queens, that his name would add strength to and secure victory to the ticket. (Applause.)

H. S. Randall, of Cortland, read the following letter from Gid. J. Tucker:

ALBANY, Sept. 10.

When the Democrat party of the State of N. Y. did me the high favor, two years since, to place me at the head of its victorious column, I publicly stated in accepting that distinction a determination which it now becomes proper to renounce. I request that if my name be presented to the State Convention, of which you will be a member, you will say that, faithful to my resolution in 1857, I respectfully decline the renomination. Yours, truly,

GIDEON J. TUCKER.

Mr. Hyatt, of Westchester, moved that David R. Floyd Jones be nominated.—Carried by acclamation.

Mr. Randall moved that Sanford E. Church be nominated unanimously as candidate for Comptroller. (Loud applause.)

Owing to the interruption of the telegraph, yesterday P. M., almost the entire proceedings of the morning session were lost.

The following are the nominations for the balance of the ticket:

For Attorney-General—Lyman Tremain.

For Canal Commissioner—W. J. Skinner.

For Treasurer—Isaac V. Vanderpool.

For State Engineer—Van Rensselaer Richmond.

For Cleark of Court of Appeal—John L. Lewis Jr., of Yates.

For State Prison Inspector—N. S. Elderkin of St. Lawrence.

The Convention then took a recess.

On reassembling the Convention after recess, the President announced the State Central Committee for the ensuing year. The alternations are as follows:

1st District—Peter B. Sweeney in place of D. E. Sickles.

2d—Aaron Ward, of Weschester, in place of E. Haight; James Craig, of Kings, in place of Edmund Driggs.

3d—F. C. Laflin, of Ulster, in place of C. L. McArthur.

5th—Willard Johnson, of Oswego, in place of H. C. West.

7th—L. A. Ward, of Steuben, in place of B. Walker.

8th—A. P. Lanning, of Erie, in place of Vandervoort, deceased.

The remainder the same as last year.

[We have to omit here the lengthy Resolutions of the Convention and much other matter of interest as our space will not admit of it.]

The President announced the following committee to submit names of Charleston delegates to the Convention.

1st District—Froment Sweeny, New York; S. Smith, Putnam; T. Warren, Kent J. Hardenburg, Ulster; P. Cagger, Albany.

4th—Cushney, Montgomery; L. Stetson, Clinton.

5th—F. Kernan, Oneida; J. Earl, Onondaga.

6th—W. Halsey, Tompkins, D. C. Bates, Oswego.

7th—Thos. Y. How; Cayuga, S. Birdsall, Seneca.

8th—D. Richmond, Genesee; H. J. Miner, Chautauque.

Recess till 4 o'clock.

Misapprehensions have arisen here in relation to the remarks made by Isaiah Rynders this morning, it is due to him to state that he made no unfriendly allusion to or personal remarks of any of the persons named in his speech, excepting Fernando Wood and Cornelius Wood, who made the assault on Mr. Stryker.

Mr. Stryker is somewhat easier to-day and can walk with assistance from his hotel to the hall of the convention.

On reassembling the convention, a further adjournment till 9 o'clock took place, Comittee on Charleston delegation not being prepared to report. The Committee was in session all the evening until 9 P. M.

At 9 o'clock the convention was again called to order.

Champlain, of Allegany, moved the following resolution:

Resolved, That the delegates to the Democratic National Convention, to be appointed as here instructed, to go into that convention as a unit, in accordance with the will of the majority of the members thereof, and in case any of its members shall be appointed delegates to any other organization, and shall not forthwith in writing decline such appointment, his seat shall be regarded as vacated. The delegation shall proceed to fill the same as it is hereby also empowered to supply all vacancies by death, absence, resignation or otherwise. Adopted unanimously.—(Loud cheers.)

Peter Cagger, from the Committee on Charleston delegates report the following as the list:

Delegates at large. Dean Richmond, Genesee; alternate John J. Taylor, Tioga; Hon. Augustus Schell, of New York; alternate Hon. D. F. Tiernan; Isaac Fowler, N. Y.; alternate Hon. Schuyler Crippen, Otsego; Hon. Delos Dewolf; alternate, Hon. A. G. Danby, Oneida.

Dist. DELEGATES.

24th—James P. Haskin, Oneida; John J. Peck, Onondaga.

25th—E. P. Ross, Cayuga; Aaron Griswold, Wayne.

26th—W. W. Wright, Ontario. D. A. Ogden, Yates.

27th—Henry D. Barto, Tompkins; Chas. Hulett, Chemung.

28th—C. C. B. Walker, Steuben: A. J. Abbott, Livingston.

29th—S. B. Jewett, Monroe; B. F. Gilkeson, Monroe.

30th—Marshall B. Champlain, Allegany; Hhory I. Glowacki, Genesee.

31st—Sanford E. Church, Orleans; A. H. Eastman, Niagara.

32d—John T. Hudson, Erie; Alpheus Prince, Erie.

33d—John C. Devereaux, Cattaraugus; Hiram J. Miner, Chautauque.

The report was adopted unanimously.—(Loud and long continued applause)

John Clancy moved a vote of thanks to the President and Secretaries, for the able manner in which they had presided over the Convention. Carried unanimously.

The Convention then at 10,42 adjourned with three hearty cheers for the ticket and nine more for the platform.

The delegates mostly leave by the midnight train.

MT. MORRIS ITEMS.—The Livingston Union contains the following items:

A small building next to the Post Office was destroyed by fire on Saturday evening. R. M. Rolfe, late of Bath, lost $4,000 worth of jewelry, and Mrs. White, of Castile, owned the building. The Post Office had a narrow escape.

Six attempts have been made to fire buildings within 24 hours, indicating a determination on the part of some audacious rascals to burn the town. A fellow named James Ferguson, or Purvis, was caught and sent to Jail. Some were in favor of hanging him, and might have saved the county expense and the people future anxiety by so doing—considerations not to be overlooked.

Of the lease of the Gen. Valley Extension Railroad, the Union says:

On Monday last, by a lease made with the Directors, A. D. Patchin, Esq., of Buffalo, assumed the control of our railroad. This, unquestionably, was the best arrangement that could have been made especially for the bond holders. Some six miles of the road is yet unfinished, and if not speedily and vigorously worked, cannot be completed before the fall rains, when the running of the road would be unsafe. To do this work it was necessary to raise funds. Under the present lease the earnings are to be expended in finishing the work. The arrangement relieves the bondholders from the necessity of advancing money to put the road in permanent running order.

The broom corn crop is very large and ready for gathering. In sight from the village is about eight hundred acres, and in a few days some two hundred persons will be employed in breaking, cutting and dressing it for market. To secure this crop it will take over four weeks, and the expense will amount to some *six thousand* dollars. Broom corn has paid producers well for the past three years.

LOCAL MATTERS.

The Fair.

The attendance Thursday at the County Fair was quite large, sufficient we should think to put a handsome sum into the Treasurers hands, and to fulfill all promises. There has been a complaint heretofore that premiums were not paid, and this has operated detrimentally to the interests of the society.

Genesee Co., has heretofore enjoyed the reputation of being one of the best agricultural districts in the State, and its present farmers seem to fall back upon the reputation gained by their fathers and take little interest in the agricultural progress of the age and, therefore are not much inclined to pit stock or products with their neighbors. For this reason probably the varieties of stock and agricultural products at the fair yesterday, was by no means creditable to this county.

The address of Dr. Hunt, was well received by those who could hear it, but he was obliged to speak at the greatest disadvantage against wind and dust.

We are told that Whiskey was freely sold about the entrance to the ground, and that its effects were visable in the shape of x es and other demonstrations of angularity.

New School.

Miss Buchanan would announce to the citizens of Batavia that she has opened a School on Bigtree-st., two doors west of Snipery, for the purpose of instructing children in the first rudiments of education. Miss B. pledges herself to take the greatest pains with children entrusted to her charge. *

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.
GREAT DISCOVERY!
NEW MODE OF ADVERTISING.
The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of
BOOTS AND SHOES
that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its
ENTIRE SUCCESS
and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.
He has on hand a good assortment of Stock, such as
Oak and Hemlock Sole Leather,
French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.
Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*
Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.
Batavia, August 11th, 1859.

STAR WRITING FLUID.
In bringing this Writing Fluid before the Public the Proprietor knows he has a great deal to contend with, as there is so many spurious inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, ruder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. HOOFLAND'S
GERMAN BITTERS,
AND
DR. HOOFLAND'S BALSAMIC CORDIAL,
The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.
Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,
and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.
The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*
Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,
and has performed the most astonishing cures ever known of
Confirmed Consumption,
A few doses will also at once check and cure the most severe **Diarrhœa** *proceeding from* COLD IN THE BOWELS.
These medicines are prepared by Dr. C. M. JACKSON *& Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of* C. M. JACKSON *will be on the outside wrapper of each bottle.*

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.
WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to
Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.
We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:
THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.
THE LIVER PILLS,
For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of
FEVER AND AGUE,
preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.
As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.
Their unprecedented popularity has induced the proprietors,
FLEMING BROTHERS,
PITTSBURGH, PA.
to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to
FLEMING BROS., Pittsburgh, Pa.
P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Batavia, August 1859. [illegible]

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

W. H. STORY!

Now is the Time to Subscribe.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Nutings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to prompt the jew who may be unacquainted with us, we would state that we have no connection with any other Gift-Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(*Up stairs, Up Stairs, Buffalo, N. Y.*)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back, and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. Reynold's Medical Guide: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vichois' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLDS' PATENT FRENCH SAFE

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfill this desideratum; it is perfectly safe, no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

THE DAILY HERALD.

ONLY SIX CENTS A WEEK.

The following is an extract from a letter in the Buffalo Courier, from a New York correspondent who goes for exterminating the Hards. Hear his complimentary allusions to Ex-Mayor Wood:

Many suppose that Wood will not carry his Mozart Hall delegates to the Convention. But I know better. His impudence approaches sublimity; and although his associates are politically as dirty and ragged as Falstaff's legion, we will have no right to be ashamed of them, whether he takes them to Conventry or the devil.—Of course he will be shown the door without any unnecessary ceremony, if he is able to get his face inside the convention, and this he knows as well as you or I; but he is determined to play the game out, hoping that some unforeseen contingency may arise, in which he can injure the party. But his race is nearly run. Pest and nuisance as he is, it is impossible that he should not find his level at an early day.

JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

The Result.

It would seem that a bad man could not have come to a worse end, politically, than Ex-Mayor Wood of New York has found as a result of his attempt to disorganize and break up the Democratic State Convention at Utica.

From all quarters, and through all papers either Democratic or Republican, he receives the severest castigation. Not one that we have yet seen attempts an apology for either his principles or his policy, while the *mean* (meanness in the plural) which he brought into action to help him carry out his purposes were the lowest order of fighting characters from New York.

This Ex-Mayor Wood, a man notorious in New York as a *smart* villain, is the leader of that faction of the Democracy known in two senses as "Hard" Democrats, and we have been told, with how much truth we do not know; that from the New York head quarters of this gang of political desperadoes, money had been furnished an individual in this place to enable him to defeat DEAN RICHMOND in the County Convention from being appointed a delegate to the State Convention at Syracuse.

We all know about the Convention of last Saturday, how it appointed Mr. J. G. SHEPHERD, a worthy citizen of Alexander as delegate, to take the seat from under DEAN RICHMOND at Syracuse—how he went to Syracuse with Mr. Harry Wilber, of this place, and how they both came back again—not having found an opportunity to take the seat.

We are disposed to spare Mr. Shepherd further comment on this matter, he has no doubt by this time seen fully the folly of the part he played, and to realize more than ever before, the wisdom taught in the example of the poor dog tray.

In this immediate neighborhood a great effort has been made to identify the Central Railroad with the Democratic party, or the party known as "softs," in contradistinction to the "hards," simply because Mr. RICHMOND is one of its prominent leaders, and the Vice President of the Central Road. There are some even who really seem to think that the Railroad is a political institution, and turn their eyes up in holy horror at the idea of supporting the regular Democratic nominations from fear that thereby they would be giving force and strength to the Railroad party. It is quite sufficient to say that this is a mere local notion propagated by a man who rejoices in the reputation of having once been reckoned in with the "rolling stock" of the Road, but who for sundry misdemeanors was run off the track.

Those who have been disposed to consider the bogus Convention of last Saturday as a true branch of the great Democratic tree, are probably by this time fully satisfied that they had taken up with a twig brought forth by a whirlwind, fruitless and leafless, fit only to lash the backs of those who attempted to magnify it into the proportion of a live tree.

Parson Brownlow gives a realization of the telegraphic speed of railroad travel by saying. "It is flitting the journey of a *ghost*—it is travelling the body after the style of *thought*—it is imitating the fashion after which angels go on errands!"—*Exchange.*

We should like to know how Parson Brownlow knows how angels go on errands, or whether angels have errands to go on?

The French journals announce the discovery of an artificial light so wonderfully luminous and steady as to be available in all photographing operations. The light being contained in a portable apparatus, portraits can be taken in private residences, at any time, or in the darkest rooms, wholly independent of the state of the atmosphere.

A History of all Religions:

Containing a statement of the origin, development, doctrines and government of the Religious Denominations in Europe and the United States, with Biographical sketches of eminent Divines. By SAMUEL M. SMUCKER, LL.D. Published by Duane Rulison, *Quaker City Publishing House*, 33 South Third street, Philadelphia, Pa.

The subject of Religion and the Doctrines of Sects must always have an absorbing interest for the thoughtful observer, and a work which affords the desired information, in a convenient and accessible form, at a moderate price, has been urgently demanded, and will be sought for with avidity, and must command a large sale. In the present work, the origin, development, doctrinal belief, Church government and peculiarities of over eight different religious sects, are treated in a style clear, compendious and accurate, and will afford all the information which might be procured with great difficulty and expense and much labor and research, from the large polemical works and encyclopedias.

Dr. Smucker has evidently prepared this work with much care, and it exhibits great ability and learning. The articles on the different religions are very impartially written, and show the careful study of an unprejudiced and sound mind; and the importance and value cannot be too highly estimated of such superior and unbiased effort in a work of this kind, as too often those pretending to give correct information upon such subjects are prejudiced in favor of some particular sect or denominations. Mr. Rulison has brought out the work in a very handsome form, and the public is indebted to him for a very valuable, instructive and useful book. The price, $1,00, is remarkably low for such a work, and in order that it may have a rapid and extensive circulation, he will send it to any address, accompanied with a valuable Gift, on the receipt of the price and twenty cents to prepay postage.

Mr. Rulison will send free, on application, his new, enlarged and revised Catalogue of Books and Gifts, containing all information relative to the establishment of Agencies in the Gift Book business,

A NEW WORK BY EMERSON BENNETT, Author "CLARA MORELAND," "PRAIRIE FLOWER," "THE REFUGEES," "BLANCHE BERTRAND," "THE ARTIST'S BRIDE," &c. &c., ENTITLED WILD SCENES ON THE FRONTIERS; OR, HEROES OF THE WEST.
"Westward, the Course of Empire takes its Way!"

This Work, is the *only one in Book form,* which for several years has emanated from the pen of the gifted author, who treads now alone the path once trodden by our own Cooper. It will contain graphic pictures of the conflicts of the hardy Pioneer, whose strifes and struggles with his Indian foe, rival the tales of fiction and the tragic counterfeits of the mimic stage. Also thrilling narratives of the daring deeds, the heart-trials, the heroic devotion and self-denial of noble women, the *mothers* of the West! Beneath the over-arching forests, hand to hand, and foot to foot, the intrepid adventurer has encountered in deadly combat the ruffian desperadoes who made their haunts in the backwoods, and his gallant achievements have thrown a halo of romance over the waving prairies, the grand old mountains, and the majestic rivers of the land of the setting sun!

Nor are these pages wanting in those gentler scenes which make up home-life, and which are pictured with all the skill and fidelity for which the author is pre-eminently distinguished. His delineation of Frontier character, and of the scenery of the Borders, has always the advantage of an accuracy which is the result of an intimate, personal acquaintance.

The Work will be printed on fine white paper, in clear, open type, and appropriately and beautifully illustrated by the most skillful artists.

THE GREAT EASTERN.—Yesterday was the day fixed for the sailing of the mammoth steamer Great Eastern, from Holyhead, for New York. It is expected that she will make the passage across in six days.

Scandal is a bit of false money, and he who passes it is frequently as bad as he who originally utters it.

The Greatest Sufferer—Job Not a "Circumstance."

The Hillsdale (Mich.) Democrat of Thursday last tells a very steep story on the authority of a clergyman and an acquaintance who resides in *Monroe* city.—The subject of this remarkable relation is an invalid whose sufferings throw those of Job entirely in the shade. The clergyman's statement is as follows:

A man now living in the above city (Monroe) was taken ill with rheumatism about eight years ago, and so formidable was the attack that in two years after he became entirely helpless, and has been compelled to lay on his back, in which condition he has lain six years, without the possibility of laying in any other position. His lower extremities are drawn up, and have become entirely rigid. His arms and hands are in the same painful and helpless condition. He cannot be moved without the most excruciating pains. His finger and toe nails are all rotted off, and he is emaciated to almost a skeleton. He possesses his mental faculties, converses freely with those who visit him, has a good appetite, and can slightly turn his head.—His wife, who is said to be an attentive and amiable woman, has made his shirts suitable to his condition. They have fastened pulleys into the ceiling of the room, so that they can, by means of ropes, &c., elevate him, in order to make his bed and change his linen. He experiences no pain when not disturbed by moving his person. They have recently removed him into the front room, so that he can see people passing by the house which gives him much pleasure. This extraordinary case is exciting great commiseration among the community, and our informer has wondered why the case has not been published before. The invalid owns a house and lot in the city of Monroe, and through the industry and prudence of his amiable wife, they get their living.

From the Cincinnati Commercial.

Extraordinary Marriage

Nine years since, Mr. T. F. Walton, residing in Hamilton Butler County, having been infected with the gold fever, was carried off to California, leaving his wife at home. He remained there month after month, his spouse expecting in vain to hear from him, until two entire years had elapsed. Supposing him dead or herself deserted, she sued for and obtained a divorce, probably on the ground of protracted absence and lack of support.

A few months after the divorce was granted, Mrs. W. was married again, and after living with her second husband two years, he died, leaving her an actual, as she was before a legal widow. She continued in a state of single blessedness for several years, and had determined to wed no other lord, so unfortunate—or fortunate was it—had she proved with two already.

A fortnight since Mr. T. F. Walton the could n't-be-heard-from, gratified a mythical Micawber, and "turned up" most unexpectedly in this city. He immediately proceeded to Hamilton, and found his former consort, made explanations—what they were we know not, but sufficient that they proved satisfactory to her—and obtained her consent again to be a candidate for her hand. He began his courtship anew, wooed and won her in three days, and yesterday Mr. and Mrs. W., the original, come to the city and were married at the Walnut Street House.

WHOPPERS.—The editor of the Lockport *Courier* has seen a peach which measured nine and a half inches in circumference. The editor of the Lyons *Republican* has tasted a peach which weighed half a pound. The editor of the Rochester *Democrat* has eat (of course he eat it if it came within his reach) a peach which measured ten inches in circumference, and weighed eight ounces and a half.—*Exchange.*

The above statements are only beat by the Irishman who said that they had potatoes in Ireland that weighed two pounds a piece, and ten of them would make a man a meal.

The Albany Atlas, on authority not stated, says the usual method pursued by shoplifters is to affix a large bag inside their hoop skirts, with the mouth extending to the bosom of the dress. When they enter a store, they employ opportunities when the clerk's attention is diverted, to slip some valuable articles which may be within reach into their bosom, and it finds its way to the bottom of the bag, and out of the way of detection, except with the aid of a policeman. An expert, muscular shoplifter will carry off a hundred weight with ease, and generally without detection.

The Grand Trunk (Canada) Railroad Company have made arrangements to issue excursion tickets from all Western points, on the arrival of the Great Eastern. A ticket from Milwaukee to Portland and back is fixed at $18, and the issue of the tickets will commence on the 19th. The fare from Toronto to Portland and back is only ten dollars. We may expect to see many people from Western New York take this route unless our companies reduce fares.

A threshing machine took fire last week from a rather singular cause. A small stone got into the machine between the cylinder and concave. From the sparks emitted the dry chaff and dust inside became ignited, and the flames communicated with the straw passing out, and everything being parched up by the drouth, the whole machine, together with a stack of straw, and a stack of about one hundred bushels of wheat was instantaneously one mass of fire, there being barely time to rescue the team from the general destruction.

We have heard a story of a shipwrecked mariner who was saved when his ship went down, by a piece of brown soap which he had in his pocket, and which washed him ashore. There is much lye in that piece of soap.

The Evening Post says Gerrit Smith pays for the articles, letters and sermons which he causes to be printed in the newspapers. With him it is a direct matter of business.

An oil spring is reported to have been discovered on Oil Creek, Pa., which throws up 400 gallons of pure oil every day.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

WASHINGTON, Sept. 15

The recent Convention between Great Britain and Guatimala, defining the boundary of Belize, does not threaten the disturbance of our peaceful relation with England, nor embarrass the settlement of our Central American differences.

Lieut. General Scott arrived here this morning, and in the course of the day called on the President and officers of the government. He came on business of the San Juan Island dispute.

The present indications are that he will be ordered thither, the conditions of affairs in that quarter being such as to require the services of a man of his well known character for prudence in all his official movements, to prevent a collision between the U. S. and British forces, pending the settlement of the question by the two governments, as in the North Eastern boundary difficulty.

NEW YORK, Sept. 16.

A serious riot occurred yesterday on board the tug Moses Taylor, which had been down the bay to convey passengers on board the steamer Jason.

While steaming back the captain of the tug got into a difficulty with a gang of rowdies, who had been down to see their friends off, and was badly beaten.

The rowdies knocked him down with an ax, and after stamping on him threw him from the hurricane to the main deck.

The engineer, who rendered him assistance, was also badly beaten.

The captain had an arm broken, his skull split, and is otherwise badly injured.

After leaving the captain and engineer, the rowdies proceeded to demolish the cabin and fixtures of the boat.

CHICAGO, Sept. 16

The entire block in this city bounded by Clinton street on the north, and Canal street on the west, and Lake on Fulton street south, was burned this morning.

The Hydraulic Blackford's lead works mill, the block surrounded by North Jefferson, Clinton, Fulton and West Lake streets, were destroyed. Also a large amount of other property.

The total loss is a little less than $500,000. Insured $250,000 in New York and New England offices.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of those combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY discovered by Dr. Churchill, of Paris, is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites* increase the *Principle* which constitutes nervous force, and are the most *powerful blood generating agents known.*

The Cure of Consumption.

In the second and tertiary stages (of a period, consequently, when there can be no uncertainty as to the nature of the disease) it can be checked IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"CINCINNATI, OHIO, Aug. 6, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 9, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MONTPELIER, VT., Aug. 9, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* IT IS ASSUREDLY A GREAT REMEDY."

"LOWELL, [illegible], July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as HOPELESS by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, VA., July 30, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * IT HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (a simple syrup), in extra large bottles, is "chemically pure," is the combination proposed by Dr. Churchill "for general use," and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases, and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you *their* preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practiced upon you.

PRICES—One Bottle, $1; three Bottles, $5; Concentrated solution, by mail, *pre-paid,* $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Lager Beer Saloon!

WM. BENDER.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just surprise!*

It fills the nerves with Native life
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man reason all he'll think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he buys!

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE
NEW YORK WEEKLY,
A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,"
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Haywood, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,
EDITORS AND PROPRIETORS,
22 BEEKMAN STREET, NEW YORK.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift——Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S
HERB DISPENSARY!
OFFICE 95 MAIN STREET,
(Up Stairs, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING
Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption,
AND ALL
Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations of symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back or limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body as leucorrhoea or Fleur Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from mistreatment [illegible] and chronic [illegible] morbid irritability, hence the want of success on the part of Old-School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, with [illegible] poisons. The [illegible] cure are such that patients will be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter and have the medicine sent them by mail or express.

Young Men suffering from these disorders, will receive our new edition of Health Bible, and precise chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!
JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. Reynolds' Manual. Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such, directs how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, both male and female, and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter and packages forwarded to all parts of the world.

Females afflicted with irregularities, menstruations, &c., can obtain Dr. Vickers' French Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, $1. [illegible] Sent by mail free of charge.

DR. REYNOLDS' PATENT FRENCH SAFE.

This article, those whose health or circumstances do not permit an increase of family, to regulate or limit the number, at their own option, without injury to the constitution. It is an easy, safe and sure preventive against Syphilis and other diseases. The above article is especially adapted to fulfil this desideratum; it is perfectly safe, no metallic substances entering into its composition.

The price of this article is one dollar and can be sent by mail to any part of the United States or Canadas free of charge.

The Philantropic Convention.

The Buffalo papers are full of the proceedings of the Reformers Convention, but we find little of real interest in the reports. Either the reporters take great liberty with the Speakers and their speeches, or else they don't amount to much.

This Convention it is well known originated with Andrew Jackson Davis, and he is the leading spirit in its deliberations: and therefore it somehow fails to draw largely with the able men of the day.

Mr. Davis is not regarded as a leader by intelligent Reformers, and as this Convention is emphatically his pet institution, it calls out only such as require a leader, and this class is by no means to be taken as a sample of the Reformers, or as the representatives of the ideas of the age.

It won't do to attempt to mend all the defects in the world at once, it is considerable of an undertaking—one that wise men contemplate long before laying their hands to it, therefore it is, that we find the Reform Convention made up for the most part of Quixotic individuals.

News Items.

A strike of the men working on the New York and Erie tunnel at Bergen, N. J., took place on Friday last in consequence of the non-payment of wages.—The laborers obstructed the track and stopped all trains.

The military were held in readiness for orders, but it being impossible to find the Sheriff, the troops were dismissed. The strikers remained victorious.

The through mails were sent back to New York to be despatched over the Hudson River and Central Railroads.

At noon Saturday, two Regiments of N. J. Militia were ordered to the scene of the riot.

Post Master Fowler obtained a requisition from the Government for the despatching of troops from that city.

The rioters, it is said, procured a cannon which they loaded with spikes for use in case they were attacked.

One of the ringleaders was arrested this morning.

A great storm prevailed in New York on Saturday. A five story warehouse in progress of erection on Duane street, was partially blown down, demolishing a tenant house adjoining, and burying the inmates in the ruins. Several have been rescued badly injured, and others are believed to be under the rubbish.

The steamship Arago which sailed today for Havre, took $619,000 in specie.

The Ohio State Fair at Chicago drew *immensely*. One of the principle objects of interest at the Fair was the exhibition of the steam plows of Fawkes and Waters. Both attracted the attention of the immense concourse in attendance.

The number of visitors one day was estimated at 35,000.

The receipts of one day were said to have been $10,000.

DROWNED AT SUSPENSION BRIDGE.—Christopher Wetmer, one of the wealthiest and most respectable residents at the Suspension Bridge, was accidentally drowned Saturday. He was overseeing some repairs about the mill-race, below the bridge, and while the workmen were engaged in the dry race, slipped into the river and was seen no more. Marks of his fingers on the wood-work showed how the accident had happened.

Leigh Hunt the well-known English editor and poet, died recently. The news of his decease comes by the Anglo Saxon. He was 75 years of age. His father was a West Indian by birth, but came to America, and on the breaking out of the Revolution, showed his loyalty by going to England. The writings of Leigh Hunt are numerous and many of them much admired. He had been connected with various newspapers at different periods of his life.

A SUBTERRANEAN FOUNTAIN OF OIL.—The Pennsylvania Rock Oil Company own some valuable property in Titusville, Pa., if a letter in the New York Tribune is correct. The letter states that last week the agent of the company, while boring for salt, or to find the source of the oil which is so common along the banks of Oil Creek, at the depth of 71 feet tapped a vein of water and oil, which yielded 400 gallons of pure oil every 24 hours. The pump throws five gallons per minute of water and oil into a vat, when the oil rises to the top, and the water is drained off at the bottom. The story seems improbable, but we presume that the Tribune is satisfied with its authenticity.

The Clearfield Republican says: "During the exercises at the Camp-meeting in Goshen, a large rattlesnake made his appearance within the precincts of the camp ground, apparently making his way towards the altar. Whether he was bent upon some evil purpose, as was the devil in the serpent's guise when he entered Eden, whether he had merely come on a visit of curiosity or to resent the instruction of the church upon the solitude of the forest where he had so long been king of the reptiles, is unknown; but he caused considerable excitement until he was dispatched."

DESTRUCTIVE FIRE AT DUNDEE.—The village of Dundee, Yates county, was visited by a destructive fire on Wednesday night, which destroyed property to the amount of $25,000. It was discovered in Kingsley's boot and shoe store, up stairs, and spread rapidly in both direction. The Dundee House, three dwellings, three dwellings, three stores and the post-office were consumed. The disaster is a severe one for that village.

A NOVELTY IN FASHION.—Among the novelties recently introduced in ladies apparel, is a new article of suspenders. They bear resemblance to those worn by gentlemen, except that they are made of delicate white elastic fabric, with frilled edge, about one inch wide, and are attached to the skirt by buttons in like manner. We doubt not this invention will be generally adopted with a view to relieve the waist of the unlimited burden, which such habiliments necessarily produce.

By our exchanges, we learn that, in various sections of the State, there has been frost, which unfortunately, has done considerable damage in some instances. In the Mohawk Valley, near Schenectady, we learn that broom corn has suffered materially.

In the western part of Onondaga county much buckwheat had been destroyed frome the same cause.

In the vicinity of Rochester corn has been damaged some, and it was feared fruit also.

In the south part of Niagara county corn and potatoes have suffered slightly.

A dispatch from Chateaugay, N. Y., yesterday, says the frost of last night has done its work thoroughly in this vicinity. Potatoes and all the vines are cut to the ground. The degree of cold was so great as to form a hard crust on the ground.—There were snow and hail storms yesterday.

The daughter of a proprietor of a coal mine, in Pennsylvania, was inquisitive as to the nature of hell. Upon which her father represented it to be a large gulf of fire of most prodigious extent. "Pa," she said, "couldn't you get the devil to buy his coal of you?"

THE "ATLANTIC."—It is said that the failure of Messrs. Phillips, Sampson & Co. will not cause a discontinuation of the *Atlantic Monthly*, and that the October number will be out in a few days.

DEAN RICHMOND is getting to be an institution in the State. We shall have to set up a distinct department for his sayings and doings. Here is the last, which we find in the Syracuse Journal:

DIDN'T WANT HIM TO RETURN.—A RICH SCENE.—Like some of his illustrious cotemporaries, the editor of the Buffalo Evening Post, a paper of more sprightliness than wisdom, has been very violent, at times, in denunciation of the N. Y. Central Railroad. He has, in fact, appeared to "enjoy himself" in abusing this great thoroughfare. But a change recently came "o'er the spirit of his dream,"—He desired to go east, and he thought it would be very convenient to be "bribed with a pass." Expressing his thoughts to a friend, he remarked that if he had not been so violent toward the Road he supposed he might get the coveted pass. His friend assured him that if he would apply to Dean Richmond he would be accommodated, which the editor thought preposterous; but after consideration he concluded to make the attempt. He accordingly called on the democratic mogul.

"Mr. Richmond," said the editor, "I am going east, and I have called to see if you can accommodate me with a pass."

"Certainly sir, certainly sir! with the greatest pleasure," said Mr. Richmond, and he proceeded to fill out the pass.

The little card was handed to the editor, who, expressing his thanks, glanced over it and saw that it only passed him to Albany, with no provision for his return.

"Mr. Richmond," said the editor, very modestly, "I see this only passes me to Albany. I intend to return——"

"The h—l you do!" said Richmond, seizing the pass. "Intend to *return*, eh? Can't have any pass from me, then!" And he tore the pass into pieces.

We don't know whether our friend has gone east yet. But it is said that he admires Dean Richmond since that scene transpired.

"Sal," cried a girl, leaning out of the upper story of a small grocery, addressing another girl, who was trying to enter at the front door, "we've all been to camp meeting and been converted, so when you want milk on Sunday, you will have to come in at the back door."

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and indelible, that even the test of Oxalic Acid cannot remove it from paper: hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others, you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

THE DAILY HERALD.

ONLY SIX CENTS A WEEK.

LOCAL MATTERS.

We noticed Thursday upon the grounds of the Genesee County Agricultural Society, a very fine specimen of calf-skin, tanned by a French process, without the use of bark. The time taken, we were told to tan the skin was six days, at a cost of less than four cents a skin to prepare the liquor. The leather was very soft and smooth and was pronounced by gentlemen who profess to be competent judges, to be thoroughly tanned, and as far as we could see, it was in every feature a "fac simile" of genuine French calf skin, and we do not hesitate to recommend it to the public. We are in hopes that there will be some revolution in the art of tanning in this country that will produce leather equal in quality to French leather and we can see no good reason, setting "old fogyism aside," why it cannot be done. Certainly the public demands something of the kind when it is known how fast our oak and hemlock forests are diminishing before the axe of the sturdy pioneer. We have a vast amount of thickly settled territory west and south that is entirely without the facility for tanning, being entirely destitute of bark; depending solely upon the eastern States and foreign importations for a needful supply of leather for home consumption at enormous prices. M. G. Willioud, a French gentleman and practical tanner and courier, is the proprietor of the tanning process and he claims it to be the same process as used in France for the past fifty years for tanning all kinds of soft leather, such as calf, goat, kid, and sheep skins.

Persons wishing to see samples of leather taned by M. G. Willioud's French process, will please call on, or address E. H Harrington, Batavia, N. Y., general agent for the sale of the process for tanning. *

The Chief Engineer having ordered an Inspection, to take place on the 26th inst. There will be a special meeting of Rescue Engine Co. No. 1. on Friday evening next, for the purpose of making arrangements for the day.

This Morning's Report.

Arrival of Steamship Borussia.

New York, Sept. 18.

The steamship Borussia arrived this morning from Southampton bringing London and Liverpool dates of the 3d and 350 passengers. We have files of London papers only.

A report was in circulation at Gibraltar on the 27th of August that the Emperor of Morocco was dead, and that a serious affray had taken place on the Island of Ceuta between the Spaniards and Moors.

Troops were called out. Seven thousand Moors had collected, and at last accounts these parties were fighting all night of the 26th, and several killed on both sides.

The English mail steamer Indus was fired on twice from the Spanish fort, at Tarifa, on the morning of August, while her ensign was flying. At the second fire, a large round shot fell within fifty yards of the steamer.

At a meeting of the Plenipotentiaries, Sept. 1st, the regulation of the Lombardian frontiers and the separation of the civil and ecclesiastical jurisdiction, were discussed.

The Australian mail steamer Northern was lost August 20th on the Red sea.—Mails and passengers saved.

Uneasiness was felt in Paris on account of the Zurich Conference, and rentes declined.

Accounts from Madrid state that Spain had withdrawn her Consul from Tangier, and decided to demand satisfaction of Morocco for outrages at Ceuta. Orders had been given for the formation of an expeditionary corps of 1,000 men.

It is suggested in the London papers that the firing on the steamer Indus from Tarifa, was for the purpose of bringing her to for the purpose of learning the state of affairs at Ceuta.

Washington, Sept. 18.

The Potomac river is very high, and there is much danger from drift, but no serious damage has yet occurred and the water is still rising. Fears were entertained for locks No. 4 and 5 of the Chesapeake and Ohio Canal.

The warehouse of the New York Steamship Company is in jeopardy, and the wharves in Georgetown are overflowing.

Portland, Me., Sept 17.

The Lewiston Bagging Co's storehouse, containing 500 bales of cotton, was partially burned yesterday. Loss $20,000.

St. Louis, Sept 17.

George G. Atherton, charged with embezzling $53,000 from the Southern Bank of St. Louis, in April last, was convicted to-day, and sentenced to 5 years in the Penitentiary.

Denver City advices of the 8th inst. reached Leavenworth yesterday. The returns from the mountain districts were not received.

Large numbers of miners were leaving the mountains for the valleys in consequence of snow storms.

Troy, Sept 17.

A large brick building on Ida Hill, owned by the estate of Benj. Marshall, and occupied by the Troy Hosiery Co. and Empire Machine Co., was partially destroyed by fire at 1 o'clock this morning.

The building was filled with goods and valuable machinery. Loss estimated at $25,000. Insured in New York, Philadelphia and Hartford Companies.

The fire originated in consequence of one of the hands putting cotton in the stove.

DR. HOOFLAND'S GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe Diarrhœa *proceeding from* Cold in the Bowels.

These medicines are prepared by Dr. C. M. Jackson & Co., *No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines every where, at 75 cents per bottle. The signature of* C. M. Jackson *will be on the outside wrapper of each bottle.*

In the Almanac published annually by the proprietors, called Everybody's Almanac, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,

Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill of Paris) is sufficient for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period comparatively when there can be no uncertainty as to the nature of the disease) [illegible] IN ALL CASES [illegible] except when the existing lesion of the lungs is of itself sufficient to produce death.

The Remedy has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Lager Beer Saloon!

WM. BENDER.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just surprise!*

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater stride
And sets the soul a glow!

"BILL'S" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*

BILL'S glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION.

BEAUTIFULLY ILLUSTRATED,—

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel.) Augustus J. H. Duganne, William Earle Binder Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have showered us oh by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mate Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $13. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(Corner Up Stairs, Buffalo N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Caraseous, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Flour Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. Reynolds's Medical Guide: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret-habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Vision's Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLDS'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfil this desideratum; it is perfectly safe—no metallic substance enters into its composition.

The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

Batavia Lyceum---Annual Meeting for 1859.

At a meeting of members of the Lyceum, held at the office of Wakeman & Bryan, pursuant to a published call, on the evening of the 20th Sept., 1859, Wm. S. MALLORY, Pres't, called themeeting to order.

The regular Secretary being absent, H. T. Cross was appointed Secretary, *pro tem.*

A very able report was offered by Wm. G. Bryan, in behalf of the officers of the Society, which, on motion of P. S. Moffet was read and adopted.

On motion of Rev. T. P. Tyler, it was moved and carried that the report of the Executive Committee, or at least such parts of it as they may think proper be published in the village papers.

On motion of Frederick Follet, it was moved and carried that a Committee of five be appointed by the Chair to report suitable names to this meeting for officers for the coming year.

The Chair appointed Col. Frederick Follet, Seth Wakeman, Geo. Babcock, Rev. T. P. Tyler and Thomas McCully, as such Committee.

The Committee reported the following names for officers:

JOHN FISHER, President.
SETH WAKEMAN, Vice do.
JOHN F. LAY, Secretary.
S. B. PIERSON, Treasurer.
GEO BABCOCK, Lib. and Reader.

EXECUTIVE COMMITTEE.

Wm. G. Bryan, H. U. Howard, A. E. Warner, Homer Bostwick, M. F. Robertson.

On motion the report of the Committee was accepted.

On balloting for officers the names as presented by the Committee, were found to be elected.

On motion the Lyceum adjourned until the next meeting, called by the proper officers of the Society.

WM. S. MALLORY, President.
H. T. CROSS, Sec'y, *Pro Tem.*

AT HOME.—Isaac Butts, Esq., the able Editor of the Union, returned home Tuesday the 21st, accompanied by his family. At the Depot Mr. Butts was received by a number of personal friends, and a deputation of the men employed in the Union office. The latter had a carriage and four horses provided to convey the returned travelers to their home.

Mr. Butts went abroad for relaxation and pleasure, and with no intention of writing for his paper; but he has given his readers some of the best expositions of public affairs and opinions abroad that we have seen, judged from a common-sense American point of view, so says the Albany Atlas.

The late M. A. Bowden, of Georgia, left the sum of one hundred thousand dollars to the Glenville College and Military Institute, to be applied to the payment of professional salaries and the education of poor boys. This is one of the largest bequests ever made to any one institution in this country. We will bet he left poor relation wanting bread.

The bullies, who figured in the Convention at Syracuse, appear in the New York papers, in the character of affidavit-makers; and swear that they and their accomplices were the only peaceable and honorable men at Syracuse.

They would not have earned their wages if the were not as ready to swear as to fight.

All that the public will conclude from this false testimony is, that the men who prepare the outrages at Syracuse, arranged the testimony also, so as to swear themselves clear. It is but another revelation of the extent, the baseness and the thorough depravity of the plot.

American State Convention.

UTICA, Sept. 20.

About 126 persons are here this evening, in attendance to the American State Convention, including delegates from thirty counties, but not all full. Little opposition, at present, developes itself to the proposition for a devided ticket between the nominees already in the field.

Erastus Brooks, Lorenzo Burroughs, Joel T. Headly, Gen. Gustavus Adolphus Scroggs, Daniel Ullman, Samuel J. Wilkin, James Kind, Capt. Jas. H. Foone, H. P. Northrup, Hon. George Briggs, of New York, and other prominent actors in the American organization, are here.

At present there are only a light sprinkling of outsiders from other parties.

Some slight talk is going on for a straight ticket, and some for no ticket at all, but for a platform condemning the irresponsible conflict doctrine, but what little prospect of either making headway against an electic ticket. Chances at present favor the following candidates:

Davis, Court of Appeals, certain.
Leavenworth, Secretary of State, doubtful.
Church, Comptroller, certain.
Myers, Attorney General, certain.
Richmond, State Engineer, doubtful.
Dorsheimer, State Treasurer, doubtful.
Skinner, Canal Commissioner, doubtful.
Forrest, State Prison Inspector, certain.
Lewis, Clerk of Court of Appeals, pretty certain.

The nomination of Church seems certain, in consequence of anti canal record of Denniston. So is that of Myers. The argument used again Tremaine is his constant opposition to Americanism. Other candidates may be varied from the above. Very little excitement apparent.

Courage.

We should brave trouble as the New England boy braves winter. The school is a mile away over the hill, yet he lingers not by the fire; with his books slung over his shoulder, and his cap tied closely under his chin, he sets forth to face the storm. And when he reaches the topmost ridge, where the snow lies in drifts, and the north wind comes keen and biting, does he shrink and cower down beneath the fences, or run into the nearest house to warm himself? No; he buttons up his coat and rejoices to defy the blast, and tosses the snowwreaths with his foot, and so, erect and fearless, with strong heart and ruddy cheek, he goes on to his place at school.

Now, when the fierce winds of adversity blow over you, and your life's summer lies burried beneath frost and snow, do not linger inactive, or sink cowardly down by the way, or turn aside from your course for momentary warmth and shelter, but, with stout heart and firm step, go forward in God's strength to vanquish trouble, and bid defiance to disaster. If there is ever a time to be ambitious, it is not when ambition is easy, but when it is hard. Fight in darkness; fight when you are down; die hard, and you won't die at all. That gelatinous man whose bones are not even muscles, and whose muscles are pulp, that man is a coward.—*Henry Ward Beecher.*

They have a ghost in Lowell—of a girl who was murdered there some fifteen or twenty years ago. It is pretended that a "medium" was informed that the existence of the mortal tenement of the spirit was brought to an untimely end by the hand of violence, and buried in the cellar of a certain house. It is said, further, that the occupants of the house are deprived of a proper allowance of sleep, on account of the noisy and unruly tendency of the hobgoblin which infests it; To prevent any further trouble, a policeman has been instructed to visit the premises and arrest the disorderly spirit for disturbing the peace.

A friend of ours says lawyers, as a general thing, are very feeble men.

Keep Your Eye on Your Neighbors.

Take care of them. Don't let them stir without watching. They may do something wrong if you do. To be sure you never know them to do anything very bad, but it may be on your account they have not. Perhaps if it had not been for your kind care, they might have disgraced themselves and families, a long time ago. Therefore dont relax any effort to keep them where they ought to be; never mind your own business, that will take care of itself. There is a man passing along—he is looking over the fence—be suspicious of him, perhaps he contemplates stealing something some of these dark nights; there's no knowing what queer fancies he may have got into his head.

If you see any symptoms of any one passing out of the path ofduty, tell every one else that you can see, and be particular to see a great many. It is a good way to circulate such things, and though it may not benefit yourself or any one else particularly, it will be something important about some one else. Do keep something going—silence is a dreadful thing; though it is said there was silence in Heaven for the space of half an hour, don't let any such thing occur on earth; it would be to much like Heaven for the inhabitants of this mundane sphere. If, after all your watchful care, you can't see anything out of the way in any one, you may be sure it is not because they have not done anything bad; perhaps, in an unguarded moment, you lost sight of them, throw out hints, they are no better than they should be—that you should not wonder if people found out what they were after a while, and then they may not carry their heads so high. Keep it a going and some one will take the hint and begin to help you after a while—then there will be music, and everything will work to a charm.

The Toledo Herald of Friday says: An anxious parent from a point 12 miles this side of Buffalo, was at the depot yesterday morning, with his truant daughter of 18 "springs." who had "appropriated" $200 of the old gentleman's funds to aid her in her flight to some Gretna Green, where the obdurate father could not prevent her from throwing herself, money and all, into the arms of the object of her heart's dearest affection. The solicitous father overtook his spunky daughter here, (she being unattended,) and recovered $190 of the abstracted funds—whereupon she returned home with him; still it could be plainly seen on her countenance that nothing on earth would divide her from the destiny she covets—

For if she wills to wed, you may depend on't,
And if she wills she wont—that's the end on't.

"Sich corruption in the church!" said Mrs. Partington, bringing her hands down severely on a paper she was reading, containing an account of an Episcopal dedication somewhere. There was instantly great attention. "I read here," continued she, "that the archbishop came in with his mitre and stole; and if stealing isn't corruption, then I don't know what is."

MRS. CUNNINGHAM'S REVENGE.—It will be recollected that some time ago the N. Y. Evening Post published a series of articles describing the fortune tellers, matrimonial agencies, &c., in the metropolis. These articles were afterwards printed in a book, and to create a sensation with a view to its sale the last two or three pages were devoted to Mrs. Cunningham, and as she alleged foully belied her. It is now stated that she has taked a lease of the house adjoining the brown stone front of Mr. Bryant, editor of the Evening Post, for the purpose of annoying him. She pays her rent promptly, and her landlord refuses to oust her at the urgent solicitation of M. Bryant.

VITRIOL AND FENCE POSTS.—Of the many methods of preserving fence posts from decay, none is perhaps more simple and cheap than the one of soaking them in blue vitriol. At a recent meeting of the Farmers' Club, in Hudson, N. Y., one of the members exhibited a post which, previous to being placed in the ground, had been soaked in a solution of blue vitriol—one pound of vitriol being used to twenty quarts of water. The post was pine, and when taken up was as sound as when first put down, eight years since. This solution is good for all kinds of timber exposed to the weather—spouts, shingles, bean poles, &c.

A parson cornered a farmer, whom he seldom saw at his ministrations, by asking him directly after a little reproof of his sin of omission: "Shall we see you at church next Sabbath?" "Y-e-s" he replied, slowly. "Yes, I'll go—or send a hand."

The leading sensation-preachers of the day,—such as Beecher, Spurgeon, Parker, Chapin, etc.,—are said to make from five thousand to twenty thousand dollars a year. They are engaged in preaching what may be called "speculative theology."

"Hell, my dear hearers," exclaimed an Irish clergyman—hell is a place of inexpressible torment, besides being altogether inconvenient.

Of the late Albert H. Tracy of Buffalo, the New York Tribune says: In point of intelectual ability, largeness of faculties, and breadth and thoroughness of culture, Mr. Tracy was among the very first of American citizens. * * *

In his later years especially, he was much more a philosopher than a politician. For partisanship, party management, and party exigencies he had no natural sympathy. But those whose privilege it was to enjoy his society, and to feel the charm of the wide vision, the elevated tone of thought, the rich treasures of knowledge and of illustration, and the gentle, thoughtful spirit which flowed in the eloquent abundance of his conversation, will sadly say with us that in him a great mind has indeed passed away from the interests and the conflicts of the world.

Theodore Parker's last letter to *The Liberator* is dated "Neufchatel, Suisse, August 23." He says: "I think I am really getting better; certainly I am fatter and stronger than for a year past.—But the cough continues—the voice is good for nothing—it is a little painful to talk at all. Professor Desor has a fine wood lot, and I work in it with a bill hook and little hatchet; pruning the trees, and cutting down bushes; and sometimes I take an ax and cut down a tree twelve or fourteen inches in diameter. I do not overwork, and have a good appetite."

The title of the Hon. Robert Dale Owen's work on Spiritualism, now in the press of Lippincott & Co, Philadelphia, is "Foot-Falls on the Boundary of Another World."

The Rev. Mr. Wright, Methodist clergyman of Cleveland, is under a heavy cloud, being charged with licentious conduct in connection with nine young ladies of his congregation. We should think the moral atmosphere of Cleveland might destroy almost any grades of moral purity.

If you want a boy to behave well, give him good clothes. Dress him like a gentleman, and he will be more likely to carry himself in a gentlemanly manner. Let him dress like a clown and you may be pretty sure he will behave like a blockhead. Dress and *ad*-dress have a closer connection than many people imagine.

A follow was arrested in Chicago, the other day, for stealing window glass. He certainly took pains to get into difficulty.

Physicians in India raise blisters with red hot irons, and dress them with cayenne pepper. If such treatment does not make people smart we don't know anything that would.

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boo and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

LOCAL MATTERS.

MORE APPLES.—Don't tell us that editorial notices don't pay, that in fact there is not force in *sich*, or that they don't *draw*. Our notice of the apples Mr. C. T. STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper: hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. HOOFLAND'S
GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhoea** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by Dr. C. M. JACKSON & CO., *No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of* C. M. JACKSON *will be on the outside wrapper of each bottle.*

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Disease. The *Hypophosphites possess the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the stages and [illegible] on a period, consequently, when there can be no uncertainty as to the nature of the disease) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"CINCINNATI, Ohio, Aug. 5, 1858.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, Mich., Aug. 3, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I would not be satisfied to remain without them."

"MONTPELIER, Vt., Aug. 8, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, will cure consumption."

"STEPHENSBURG, Va., Aug. 18, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* It is a most valuable remedy."

"LOWELL, O., July 2, 1859.—I have used it in all about forty patients, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who are now enjoying comparatively good health, and exempt from all the symptoms of pulmonary disease. I furnished the Remedy *in my own case, with decided success.* It was recommended [illegible] by physicians and friends [illegible] under the 'old treatment.' I am now able to ride horseback and visit the sick, as many miles, perhaps, in a day, as any other physician in the county."

"PHILADELPHIA, Pa., July 28, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It has worked wonders in every case."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in dissolution, in extra large bottles, is "chemically pure," is the *only* one proposed by Dr. Churchill "for general use," and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you [illegible] than mine. Do not buy them! My "Genuine Preparation" bears my *fac-simile* signature.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Lager Beer Saloon!

WM. BENDER.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!

It fills the nerves with Native life,
And warms the stomach up,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man crazy, all he'd think;
It warms him through and through, you know,
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a commonskunk!
But always makes the senses rise
To Truthful triumph if he *buys!*

BILL's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy at Bill his Lager Beer,
'Twill make *you feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION, BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our quality, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mate Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child or Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the few who may be unacquainted with us, we would state that we have no connection with any other Gift Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of [illegible] & CO. [illegible] New York.

DR. JOHNSON'S
HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(Up Stairs,) Buffalo, N. Y.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption. AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs; lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!
JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLD'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as connected, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with Irregularities obstructions, &c., can obtain Dr. Vichois' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail, free of charge.

DR. REYNOLD'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially adapted to fulfill this desideratum; it is perfectly sure, no metallic substance enters into its composition.

The price of this article is one dollar, and it can be sent by mail to any part of the United States or Canadas free of charge.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The Genesee Democrat.

This veracious print, after laboring thro' a whole column to show that the late State Convention was regularly organized under Thomas J. Alvord as Chairman, and was broken up by the "attendants upon our Railroad friends, short boys, shoulder hitters, fighting men and rowdies generally," proceeds to state that this routed regular Convention met again at 7 o'clock P. M. at the Voorhees House where a ticket was nominated &c. It does not put up the ticket in the usual manner at the head of its columns, but merely refers to the proceedings in another column. In these proceedings will be found a resolution in which the regular Convention nominates precisely the same ticket for state officers as that put in nomination by the "Railroad party with the "short boys," "shoulder hitters," "fighting men" &c.—What a spaniel like, not lamb like, Convention? What submission, or rather what contemptible cowardice. In 1853 these same men, after pretending then as now, that they had been overawed by bullies and rowdies bolted from the regular Convention, and after locking themselves up in the ladies parlor at the Globe Hotel, nominated a full opposition ticket. There was some show of manly courage by this act. But now, after following Fernando Wood into a private parlor, they patiently await the action of the Convention of "fighting men" &c., and then by resolution adopt the same ticket. In 1853 they manifested some show of courage, but now they dare not nominate a separate ticket, well knowing that such a course would in the coming election exhibit their weakness and expose them to the contempt and ridicule of the whole country.

But to show the utter prostration of all moral sense on the part of this piratical print, we copy the following "protest of the Hon. D. S. Dickinson and others, as follows:

PROTEST

As members of the Democratic party of the State of New York, we have ever sought in our best judgments, and with a liberal respect for any difference of opinion among our political friends, to advance its true interests and maintain its principles. Actuated by these views, disorganization and violence in our political conventions have never received our countenance or approval, or called out from us any other than expressions of unqualified condemnation. No fancied good or intended vindication of a right or redress of a supposed wrong can justify a resort to such expedients. We can view in no other than this light the occurrences this day at the attempted premature organization of the Democratic State Convention in Weiting Hall, and the personal violence and outrage by which we understand it was accomplished; and we deem it due to ourselves and to the Democratic party of the State, in this form TO ENTER OUR PROTEST AGAINST IT FROM FIRST TO LAST.

Among the gratifying incidents by which the untoward movement has been followed, we notice the prompt return of nearly every delegate, who, in an impulsive and mistaken moment, participated in it, to the body of the Democratic State Convention; and we indulge the hope that, however unfortunate and disreputable in itself, its ultimate effect will contribute to THE UNION AND CONSOLIDATION of the Democratic party, and to the CORDIAL AND SUCCESSFUL SUPPORT of the Democratic organization and ticket.

SYRACUSE, Sept. 14, 1859.

D. S. Dickinson, Edwin Croswell, Augustus Schell, John C. Mather, Geo. Bartlet, H. S. Randall, Henry W. Rogers, Delos DeWolf, David B. Eddy, Robert Dunlap, Elijah Purdy, Wm. Williams, J. M. Jaycox, David Seymour, Clark S. Potter, Wm. F. Russel, and many other prominent representative men among the Hards.

This is a sufficient denunciation of the "attempted premature organization of the Democratic State Convention in Weiting Hall, and the personal violence by which it was accomplished. The Susquehannah Chief, Mr. Dickinson by this protest and by his speech on the occasion before the Convention, has placed himself on high ground with the Democratic party of the State. But it would seem a few of his misguided followers in this county are still determined to adhere to the desperate fortunes of Fernando Wood, rather than submit to the will of the majority of the Democratic party.

The association of the "worthy trio" which now controls the "Democrat," is, in some respects natural. The reader, has no doubt, seen it stated as a philosophical maxim that "men who are familiar with the same things, are familiar with each other." With such men there is always a sort of fraternal feeling—as among professional men—clergymen, lawyers and physicians, there is always a free and easy intercourse, because, in their respective professions they are familiar with the same books and the same things. So with farmer and mechanics, and so it is with political bolters. Our "Trio" having all and each of them, on various occasions, bolted the regular organization of their party it is not wonderful that they should now fraternize, notwithstanding they have so often heretofore abused each other so roundly.

But the efforts of these malcontents, both here and in the city of New York, are now powerless for mischief. The Democratic party of the State is now once more united, and with proper efforts can carry the State by as large a majority as was given in the Presidential election of 1852—the party then was well united and a majority of about 27,000 was the result. We are again united and can, if we will, elect our State ticket by nearly, if not quite as large a majority. The public good requires every true Democrat to do his duty. The public affairs of the State must be taken from the control of those by whom they have been so criminally mismanaged. The interest of every man, woman and child in the State requires that the change should be made.

STEAM PLOUGHS.—The Committee appointed by the Illinois State Agricultural Society to make a practical test of steam-plowing machines, have unanimously awarded the prize of $3,000 to Joseph W. Fawks, of Christina, Penn. The machine invented by him was fully experimented with and amply sustained the tests of the Committee. Its whole weight was ten tons, length 18 feet, and cost about $4000; the engine about thirty horse power.—The ploughs, eight in number, are attached to one frame, which is suspended by chains passing over grooved pullies in two beams, projecting from the seat of the engine. These can be raised or lowered at pleasure, according to the depth of the furrow. The cost of the plowing per diem is estimated as follows: One ton of coal $5, labor of three men $4; oil, &c. $1; wear and tear $2; interest at 10 per cent. $1,12; total $16,12. It is calculated to plow 25 acres per day with a liberal allowance for hauling fuel and water one mile, making the cost per acre 64 1-2 cents. The price paid for breaking prairie land at present is $2,50 per acre. Experiments were made to test the capability of the machine to overcome steep grades and it fully answered every requirement, and also from its great breadth of base can safely be run across an inclined plane of 30 degrees.

Trial Trip of the Great Eastern—The Monster at Sea.

The great event of the week had been the departure of the Great Eastern.

The Nova Scotian brought out news that the vessel had proceeded down the Thames on the 7th, and anchored for the tide till the following day. Her departure from her moorings, accompanied by four powerful brigs, two at the bows and two at the stern gave rise to a scene of the greatest enthusiasm on the Thames, which was continued at all the prominent points. Capt. Harrison, and the most experienced Thames pilots directed the ship's motions. Mr. Scott Russell was on the bridge directing the action of the engines, both of which, screw and paddle were under steam.

Capt. Comstock, of the Collins steamer Baltic, stood aft to transmit directions to the men at the wheel—the new steering apparatus not being completely fitted.

The very first turn in the river demonstrated that the ship was as completely under command as a river steamer, and the only difficulties to contend with were the sharp curves in the stream. She steers as easy as a wager boat. Her engines were found capable of starting her or arresting her motion, literally, at almost a single motion of the hand.

The only difficulty experienced was at Blackwell Point, where the river forms an acute angle, and in the centre of the channel, at this point, a bark and a schooner had unfortunately anchored. There was an anxious and perilous delay of 15 minutes, but the danger was passed, and there was no other serious cause for uneasiness.

There was not a single regular seaman on board during the river trip, the crew not having joined her.

There were perfect ovations at Greenwich, Blackwell, Woolwich, and other points, where immense crowds had assembled.

At Purfleet the ship swung round to her single anchor in beautiful style, and the anchor (Trotman's Patent) never yielded an inch from the spot where it dropped.

On the 8th the Great Eastern got up steam, weighed anchor, and at 8:40 A. M. started from Purfleet for the Nore.

As on the preceding day, she was accompanied by tugs, and the enthusiasm along the river, particularly at Gravesend, was very great. On arriving at Chapman's Head, at the top of Sea Reach, the tugs were cast off and the great vessel was left to herself. Increased speed was then got on her, simply to give her good steerage way, moving her engines steadily, but with no view to test her power.

In ten minutes, however, says the correspondent of the Times, she set at rest all doubts forever as to her being the fastest vessel beyond comparison, in the world.—Employing less than two-thirds of her power in her worst trim, being six inches down by the head, and too high out of the water to permit her paddles or screw blades to work perfectly, and with a strong tide against her, she ran a distance of 15 statute miles in two minutes less than an hour. The engines worked with astonishing ease, and there was scarcely a vibration perceptible. Before anchoring, the vessel was put about, and went completely round in less than three-fourths of a mile.

At 12:30 the vessel anchored at the Nore. She was to leave the Nore at 7 o'clock on the morning of the 9th, and steam away easily for Portland, Dorsetshire, which harbor she was expected to reach early on the morning of the tenth.

American State Convention.

The Americans are having an interesting and rather harmonious time at Utica. Samuel Richmond, of Bergen gives utterance to the following sentiments on the question of sore heads.

Richmond, of Genesee, denied that this was a Convention of sore-heads, but of men who were buoyant and joyous, and confident in their power to do something that would be affective in this State and Union. If the gentlemen desire to find sore-heads he would have to seek them at the head quarters of the Republicans and Democrats, (applause,) in Peter Cagger's office and Thurlow Weed's studio. (Cheers. The object of these men was to carry the State of New York, and now they trembled in their shoes lest Americans should prevent either of them doing so. If this ticket to be made here to-day is elected the Americans would carry the State.—(Loud cheers.) There was just enough material on the two tickets to make one decent ticket,—neither were fit as a whole to govern the State.

He was here as an American, he yielded to no man in that, but he recognized the fact that there must be an union of the opposition to destroy the power of the democracy in the Union. The republicans of New York were willing enough for a union, if the Americans would consent to take back seats; this they would never do, nor would they go for any candidate who did not love and was not loved by the whole Union.

NEW ORLEANS, Sept. 21.

The steamship Habana, of the Tehuantepec line, has arrived, with San Francisco dates of the 5th inst.

The steamship Washington had been libeled before the Brazilian Consul.

Five thousand American troops were on the island of San Juan. Erections had been thrown up, and the harbor of Victoria was commanded by the field pieces. The island was in a complete state of defence.

Harney says he will call for volunteers from the Territory, if he is attacked.

Harney had written a letter to Gov. Douglas, to the effect that he had occupied the Island to protect the Americans from the insults of British authorities of Van Couvers Island and the Hudson Bay Company's officers.

The British Admiral refuses to obey the orders of Douglas to bring on a collision, and also refuses to bring the North Pacific fleet near the Island. He says he will wait for orders from the Home Government, and disclaims all hostile intentions.

The American and British officers were on friendly terms.

The spunky Mrs. Jane G. Swisshelm sends to the St. Paul Minnesotian the subjoined spicy letter;

"Now, take notice. On the night of the 23d of March, 1858, Sylvanus B. Lowry, present Democratic candidate for Lieutenant-Governor of Minnesota, came down into Lower St. Cloud, two miles from home, and staid until 1 o'clock the next morning to be present at and assist in the destruction of *The St. Cloud Visitor*, that he *was* present and *did assist* in that destruction.

When he wants to see the proof in print, he should sue me for slander. I would like a *special call* and authority to send for persons and papers—would like it so much that I thought seriously of prosecuting him for burglary; but I prefer to act on the defensive. Does he want the proof? JANE G. SWISSHELM.

"St. Cloud, Sept. 5, 1859."

Further Foreign News.

SACKVILLE, Sept. 21.

The R. M. steamship Arabia, Capt. Stone left Liverpool at 9 o'clock on the morning of the 10th inst. and arrived at Halifax about 6 o'clock P. M. of the 20th.

The steamship Balbos left Liverpool at about the same time for Halifax.

The Independence Belge says that England has proposed to France and Austria and European Congress on Italian affairs, on the preliminary basis of non-intervention by force of arms. A Paris telegraph of the 9th says this statement is not correct.

FATHER POINT, Sept. 21.

The steamship Nova Scotian, from Liverpool 7th inst. passed this point at about noon on her way to Quebec.

The general news is unimportant.

Another meeting between the Emperors of France and Austria was expected to take place in Switzerland.

NEW YORK, Sept. 21.

The steamship New York arrived here this evening. She left Southampton on the 6th.

A Paris letter in the Independence Belge says that the Emperor made peace merely for the purpose of putting down the naval supremacy of England, and unless she submit quietly to have her naval estimates fixed by France, there must be war.

The vote in Parma, on annexation to Piedmont, resulted in its favor, 63,000 to 500.

The London Morning Post has an editorial on the report that Gen. Harney had taken possession of the Island of San Juan. It considers it probable that another boundary dispute may arise, and says that the occupation of an Island which is still subjudice is the exercise of a power to which the British Government can not tamely submit, and hopes that no concessions will be made which are inconsistent with the dignity of the country or the security of the gold regions.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a business Ink, and as permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the *pen*, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only.

DR. COGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all the [illegible] complaints [illegible] inflammatory diseases, whatever be its form or locality, whether in the head, throat, stomach, or [illegible].

NEW MEDICAL SALT. Its peculiar excellence is that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (as others) by producing an equilibrium of the fluids in the body, the want of which is the main cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less forms of pain, are especially adapted to the *New Medical Salt*, as the fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGSWELL'S NEW MEDICAL SALT does just what it claims to do—not more. It equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try; if not sick, remember the *New Medical Salt.*

DR. COGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is.

As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonials and directions see circular.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Disease. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages at a period, consequently, when there can be no uncertainty as to the nature of the disease, can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ Professional Correspondence.

"COLUMBUS, OHIO, Aug. 6, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MISS., Aug. 8, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 2, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, will cure consumption."

"SHEPHERDSTOWN, VA., Aug. 13, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with the effects.* It is ACCOMPLISHING WONDERS."

"LOWELL, O., July 6, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who are now ENJOYING COMPARATIVELY GOOD HEALTH, and ARISEN FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success.* It was regarded as hopeless by physicians and friends, and cured by myself, under the 'old treatment.' I am now able to work, in attending to the sick, as many miles, perhaps, in a day as any other physician in the county."

"CORNING, PA., July 28, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It has WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising the Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practiced upon you.

PRICES.—Large Bottles, $2; three Bottles, $5; Concentrated Solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed,) by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Lager Beer Saloon!

WM. BENDER.

You, who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man *feel* all he'd think;
It warms him through and through, you know,
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys*!

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary A. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Marville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate moral knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taking tens, they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,
EDITORS AND PROPRIETORS,
22 BEEKMAN STREET, NEW YORK.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the [illegible] who may be unacquainted with us, we would state that we have no connection with any other Gift-Book House—and though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(2 doors Up Stairs, Buffalo N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat, shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the genital organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without expense. In any part of the country, from an accurate description of their case by letter and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for six monies of Health Rules, and perfect Chart of cure, which will be to them a true pole star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 200 pages, the best work on diseases of the genital organs ever introduced to the public, is DR. REYNOLDS's MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them; and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with Irregularities, obstructions, &c., can obtain Dr. Nichols' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLDS' PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. The above article is specially intended to fulfill this desideratum; it is perfectly safe; no metallic substance enters into its composition. The price of this article is one dollar and it can be sent by mail to any part of the United States or Canadas free of charge.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Cider Made Without Pressing and Wine Without Grapes.

A recent letter from a gentleman residing in Parkersburg, Va, has in substance the following:

An old Dutchman residing in that city has a novel method of making cider. He has practiced it for several years with success. He purchases large quantities of apples and grinds them in the ordinary way. He has a number of large casks prepared, standing on end and open at the top. At the bottom of each cask is a faucet, whose mouth is protected by sticks placed crosswise and clean rye straw a foot deep. Into these casks and upon this straw strainer the pomace is shoveled as soon as ground. When the casks are full, about as much water is poured into each, as the pumace each contained should yield gallons of pure cider. The casks and pomace then remain undisturbed for two or three days, when the faucet being opened the cider runs out. Cider is heavier than water and in its first stages does not mix. The pomace having a greater affinity for water than cider, absorbs the water and consequently ejects its own juice without the aid of a press. If too much water has been accidentally poured on the pomace, it will remain on top of the cider and not run from the cask till all the cider is out. The faucet should be closed as soon as the drippings look pale. On pressing pieces of the pomace after this process, they will be found tasteless. Such is the German theory. The same old Dutchman manufactures what he calls "Neffins pure American wine" as follows: He takes a common box of raisins, chops them up like mince meat, and after the cider ceases to foment, puts them into a barrel of this liquid, together with a small bag of charcoal. After a few months the cider by some hocus-pocus process becomes "Pure American Wine." It is then ready for bottling, and if tightly corked will keep forever. Some thirty barrels of this liquid brought at auction recently, from $7 to $11 per barrel.

[The above described process for extracting the juice of apple pomace is in accordance with a principle well established.—The method has for a long time been adpoted in extracting the propities of medicinial substances by packing ground roots, barks &c., in upright tin cylinders. The process is called "displacement," that is, the last fluid poured on the top, displaces, or takes the place of that below crouding it out at the bottom.

About the "American wine" we are not able to offer an opinion until we have tried it—we would like to try.

ED. HERALD.]

The plain old mansion at Baton Rouge, La., long the residence of Gen. Taylor, was recently torn down. It was a very old house. When the fort of Baton Rouge was taken by the Saniards under Don Bunardo de Gealvez, in 1779, it was the resident of Col. Dixon, the English Commander. It was subsequently occupied by the Spanish Commander, and, more recently, by the family of the Hero of Buena Vista.

Meeting of the Democratic State Committee.

The Democratic State Committee convened at the Delevan House, Albany Wednesday last, and organized by the selection of Dean Richmond Chairman, and Peter Caggar Secretary. The committee proceeded at once to the work of organizing the State for an efficient campaign. After adopting such measures as were deemed necessary at this time, the committee, at a late hour last evening, adjourned to meet again at an early day.

The American Ticket.

The American State Convention at Utica, yesterday, instead of making a straight out ticket of men from their own ranks, adopted candidates from the Democratic and Republican ticket in the field as follows:

Judge of Appeals—H. E. Davis, Republican.

Secretary of State—D. R. Floyd Jones Democrat.

Comptroller—R. Denniston, Republican.

Treasurer—P. Dorsheimer, Republican.

Attorney General—Charles J. Myers, Republican.

State Engineer—V. R. Richmond, Democrat.

Canal Commissioner—W. I. Skinner, Democrat.

State Prison Inspector—N. S. Elkerdin Democrat.

Cleark Court Appeals—Charles Hughes Republican.

The candidates were not balloted for, but "fixed up" by a committee. When the report was made a long and bitter discussion ensued—a minority of the committee having dissented from the action of the majority. As this discussion does not appear in the report received last night, we insert a sketch here:

Mr. Fullner said he could not swallow a Dutchman. No American, who had taken a solemn obligation to vote for no man not born on the soil, could vote for a Dutchman. He was willing to leave the office unfilled, but would not vote for a Dutchman, or an Irishman, and the committee had no right to say that he should.

Mr. Irving, of New York, was opposed to the nomination of Dorsheimer. It was through the instrumentality of Buffalo men, and was the result of a bargain by which the President of the State Council obtained the office of Sheriff, and other Americans for offices. He would not morally perjure himself for any such bargains.

Messrs. Macomber and Scroggs spoke warmly in favor of Dorsheimer and in support of the report of the Committee, and directed attention to the fact that at the last Troy Council the oaths and obligations of the order were abolished.

Mr. Bates of Weschester, said the Convention had made themselves ridiculous, and he should not vote the ticket.

The previous question was moved and ordered, and a resolution to vote *viva voce* on each candidate adopted. On Dorsheimer's nomination the count was demanded. The vote stood for endorsement 90 against it 60. The other candidates were all endorsed.

SNAKES.—The Decatur (Iowa) Republican says that a huge snake, reported by some to be twenty feet long, and covered with bright spots, has a hidingplace in that region, somewhere in the bank of Clifty creek, and has destroyed a good deal of stock of different kinds. He was seen the other day, and tracked to a hiding place under a bridge, The bridge was torn up by a crowd brought together by the news of the discovery, but the snake was gone. His track upon the ground is said to look as if a log had been dragged along, and a man who saw him coiled up one day says he made a heap as large as a molasses barrel. A reporter of the Buffalo Republic has set out for Clifty Creek.—*Exchange*

The snake and Clifty creek will both be on exhibition in Buffalo in a few days.

THE CHEMISTRY OF NATURE.—one of the mountain streams which form the Schuylkill river holds in solution so much lime from the limestone regions which it traverses that the water is unsuited for domestic purposes. Another stream is so impregnated with sulphuric acid from the coal mines that it kills all the fish within thirty miles. Both streams which unite above Reading, are clear and transparent above their junction, but below the united stream presents a milky and clouded appearance. Here nature performs one of the largest, grandest and most useful chemical experiments in the world. Here two streams of water are made one, and purified by the chemical attraction of the impurities of both. Here the lime held in solution by the waters of Maiden creek, unites with the acid which impregnates the Schuylkill, and forms gypsum—first coloring the water a bluish white, and then rendering it clean and pure before it reaches Reading, by the sinking of the gypsum to the bottom of the stream.—But for this combination the city of Philadelphia, which it supplies, would be without water from its present source fit for domestic use.

Heavy Defaulcation in New York.

The value of fast young men for Bank Clerks is again exemplified in the following recent divelopement.

The N. Y. Express of Wednesday evening states that a deficit of $61,000 has been discovered in the accounts of the discount clerk of the Fulton Bank, W. J. Lane, Jr., a son of the cashier. Having charge of the bills receivable, he has had no trouble in converting them to the extent named, but it is not certain that the loss is confined to this sum. The habits of the clerk in question were of the fast order, furnishing a solution of the difficulty. The Bank has recovered about $20,000 of the stolen money in the form of horses and presents, including $1,000 in diamonds, made to the mistress of Young Lane.

The Evening Post says:

The deficit will probably be made good by his father. Lane says that he has dealt largely in lottery tickets. Lane is now under arrest. He was married and lived in his father's house. This, *we believe*, is the first case of embezzlement in the management of this Bank since its organization. The surplus of the Bank on the last return was $279,671—the capital $600,000.

GOV. MORGAN visited the Rensselaer Countay Fair on Friday last, and made a speech, in the course of which he said:

"I have been a farme—a genuine, hard working farmer—and it is in the hope that my voice will reach the ear of every young man present, that I assert there is not an individual in the County of Rensselaer who commenced earlier, labored harder, and had fewer advantages than I, prior to the age of 17; and if I have obtained any measure of success in life, it is entirely owing to habits inculcated, discipline practiced and lessons learned on my father's farm.

THE RUFFIAN DISCHARGED.—The N. Y. Tribune says that Messrs. W. N. Mc Intyre and John C. Mather have dismissed from service in the Public Stores Cornelius Woods, who committed the assault upon Mr. Stryker, Chairman of the Syracuse Convention. Is there no way to bring the ruffian to justice?

It is said that in the event of the reversal of the sentence, Bishop Onderdonk has solemnly pledged himself in a written document in the hands of Dr. Hawks, and immediately to take effect, to assign to Bishop Potter the exercise and administration of the powers and authority appertaining to the office of Diocesan, and furthermore expressing his full purpose not to perform Episcopal functions in the Diocese without the consent of Bishop Potter.

Some of the San Francisco papers have published portraits of Mr. Greeley. They seem to have taken for this purpose such wood cuts as they had on hand, and instead of adapting the portrait to the original, they content themselves with adapting the description to the portrait. It was found necessary in one case to make him a "stout, burly, dark-complexioned man, with black hair, and a good deal of black whisker."

The Hon. J. R. Giddings had his pocket picked of $30 at the Vermont State Fair at Burlington last week. The Burlington Free Press says that a number of gentlemen immediately subscribed the amount, and gave it to him.

Mr. David Melville of Newport, R. I., is said to have been the first person to introduce the gas-light into this country.—In the year 1813 he lighted his residence in Newport, a factory in Pawtucket, and Beaver-Tail Lighthouse in this way.

THE END OF A MURDERER.—The telegraph yesterday announced the death of Dr. R. M. Graham, at New Orleans, having been shot in an affray with a man named Ernest Tolldane. This Dr. Graham is the same who figured in the New York Courts a few years ago as the murderer of Col. Charles Loring, of California, whom he stabbed at the St. Nicholas Hotel, under the most aggravating circumstances.

In Auburn Monday evening, a lad named Swift, twelve years of age, shot his sister while playing with a pistol, which he supposed was not loaded. It is thought she will recover.

The California correspondent of the New York Tribune writes that Mr. Greeley was sorely afflicted with boils in consequence of his long continued stage riding.

The Mariposa Star says of his appearance that "he does not look like a vegetarian—wears specs—declines to drink—never smokes—seldom swears—and, other peculiarities, seems to be in a devil of a hurry to get back to New York."

WORSE THAN CRUELTY TO ANIMALS.—The Bath Advocate, which was one of Wood's strongest supporters prior to the 14th, runs up the regular ticket, prints the regular proceedings together with Dickinson's "admirable speech," and does not even allude to the roughs and their Voorhees House fare.

Why is a quick tempered man and an honest physician very much alike? Because they are both likely to get out of *patients.*

My son, run to the pump and fetch me a drink of water; I am very dry. "So is the pump father."

"Gentlemen," said a tavern-keeper to his guests, at midnight, "I don't know whether you have talked enough or not, but as for myself, I am going to shut up."

A cynical writer asks "when will women cease to make fools of themselves." Probably when men cease to admire and love fools more than women of sense.

When, in a case of doubtful morality, you feel disposed to ask, is there any harm in doing this? please answer it by asking yourself another, is there any harm in letting it alone?

Evening Report.
From Washington.

WASHINGTON, Sept. 22.

Notwithstanding the failure of Congress to make an appropriation for the Post Office Department, the latter has so far been enabled to transact its business without serious difficulty. However the balance due to the contractors up to July 1st, after deducting their usual collections from the Post Office, and after that time the entire amount of their pay must be suspended until Congress shall provide the necessary relief, so as to entitle them to pay until the 1st of October, and by the terms of their contract sixty days more must expire before their accounts can be finally settled, which will postpone the day of payment till December 1st, within less than a week from the regular meeting of Congress. According to contracts, payments are due in November for the quarter ending on the 30th September, and in February for the quarter ending 31st December.

Balloon Ascension.

WATERTOWN, Sept. 22.

Prof. John LaMountain made his second ascension from Watertown today at 5:30 P. M., accompanied by John A. Paddock, of New York Reformer, in his celebrated balloon Atlantic, which made the trip from St. Louis to Jefferson county, N. Y., amidst the shouts of 20,000 people.

The weather was fine and the sight grand and sublime. The course was north.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the mission of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. HOOFLAND'S
GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhoea** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by Dr. C. M. Jackson & Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. JACKSON *will be on the outside wrapper of each bottle.*

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

[illegible]

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Marasmus, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris), is winning for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites contain the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption.

In the second and third stages [illegible] IN ALL CASES by this treatment, except where the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PREVENTATIVE [illegible] AS VACCINATION DOES [illegible] SMALL-POX.

Professional Correspondence.

"[illegible], Aug. 9, 1858.—I have been treating the Disease for twenty-five years, and have derived more satisfaction from the use of the Hypophosphites *than from all other forms of medication combined.*"

"MANCHESTER, Mass., Aug. 7, 1858.—I have used the Hypophosphites in my practice *with very happy effects*—[illegible]."

"[illegible], Vt., Aug. 3, 1858.—I believe the Hypophosphites [illegible] way Dr. Churchill used them, [illegible]."

"[illegible], N. Y., Aug. 12, 1858.—I have prescribed the Hypophosphites [illegible] and am *delighted with the effects.* [illegible]."

"[illegible], O., July 2, 1858.—I have used in all about forty bottles and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who are now enjoying COMPARATIVELY GOOD HEALTH, and [illegible] pulmonary disease. I have used the REMEDY in my own case, *with decided success.* [illegible] I am now able to ride, to attending on the sick, so many miles, perhaps, in a day, as any other physician in [illegible]."

"[illegible], Pa., July 28, 1858.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It [illegible] IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME [illegible]. CAUTION.—Interested Druggists will try to sell you [illegible]. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any SALTS. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor dizzy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thruppence worth in sparkling foam,
At Bender's shop and happy home!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION, BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States. Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world.

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES. The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy: Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY. The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five thousand* News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(Up Stairs, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for 25 a series of Health Rules, and perfect chart of cure, which will be to them a true polar-star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLD'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Nichols' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar.—Sent by mail free of charge.

DR. REYNOLD'S PATENT FRENCH SAFE.

This enables those whose health or circumstances do not permit an increase of family, to regulate or limit the number of their offspring without injuring the constitution. It is the only safe and sure preventive against Pregnancy and disease. THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Change of Tactics.

Our readers generally, are probably conversant with the peculiarities attending the *practice* of the "medicine men," in control of the Genesee Weekly *Democrat*, during the recent local contest for delegate to the State Convention, in proscribing for the Democratic Electors of this County. Anterior to the meeting of the State Convention they contented themselves with administering moderate doses of "free passes" and "soulless corporations," which, producing in the *patient* reader a continual nausea and corresponding inclination to relieve the system by vomiting, it was supposed would prove adequate to the case and ultimately produce entire relief. It would seem, however that these learned "physickers" have all at once discovered that, not only was the "subject" more infected than they had been led to suppose, but worse than all, they had entirely mistaken the *diagnosis* of the disease itself!

Indeed, under that treatment the case had become entirely hopeless—in fact, "a gone case"—and a new system must be devised forthwith. A Council of Medicine men has been accordingly held and new aids and instrumentalities introduced. And now we have it again, in full blast—One thing is entirely clear—the system now in vogue is certain either to "kill or cure!" The improvement consists in the introduction of numerous doses at once—perfectly Allopathic in size and intended to act *as an emetic and cathartic both at once!* The first "onslaught" was made to-day. Only look at it! There is a dose from Dr. *Fernandy* Wood, of the N. Y. News; another by Dr. *Satanic* Bennett of the Herald; a third by "Stub" Bryan of the Buffalo Evening Post; and a *fourth* by the "physickers" proper of the Democrat—all administered simultaneously! Shades of Cooper, Brandreth and Mother Godfrey's Cordial! what a prescription!—*The entire contents of a country drug store, with the store thrown in,* would be "small by degrees and beautifully less" in comparison! We raise our warning voice! Let everything decent, animate or inanimate, *stand from under!*

The *Democrat* is out for this week more tinctured with gall and wormwood, if possible, than heretofore. It was earnestly hoped that this concern would regard discretion as the better part of valor, and subside under the overwhelming defeat that has befallen every point it has attempted to carry, but it is evident that it don't know when it is whipped.

Cose defines the exact height of a young lady's ambition to be two little feet.

The express line of steamers on Lake Ontario have hauld off.

PROGRESS.—The Democrat last week put up none of the names of the candidates nominated by the Democratic convention at Syracuse. This week, we perceive, it hoists a part of the names, this is encouraging. May we not hope that the whole ticket will sport from its mast head before the election.

From the Milwaukee News.

Western Farmers Selling their Wheat.

The experiences of the past two years, as well as the necessities of the present moment, have caused the farmers almost unanimously to come to the conclusion that the chances of the markets, as to holding their crop, are against them—that it does not pay. The prevailing prices may afford them only a small profit, but every one else has had to come down to that order of things, and they must also. So they are threshing and marketing in right good earnest. The receipts of wheat at this place for the past week being 300,000 bushels alone, and from some of the villages in the interior we learn that the wheat is coming in *faster* than the buyers and railroads can take care of it. Especially is this the case in the stalwart counties of Walworth and Rock. We are glad of it. Everybody is glad of it. In the course of a month the effects of it will be visibly apparent to all. Even now the sluggish courses of trade begin to move faster and beat anew, and all legitimate business will thrive better. The surplus of wheat of Wisconsin this year will pay two-thirds of the individual indebtedness, and with that load off their backs our people will breathe much more freely. Better times, however slowly, are coming.—The man who cannot take encouragement from the prospect, should give up his business to those who are more hopeful and enterprising. They are not wanted in the way of progress.

Fashionable Women.

Fashion kills more women than toil and sorrow. Obedience to fashion is a greater transgression of the laws of woman's nature, a greater injury to her physical and mental constitution than the hardships of poverty and neglect. The slave-women at their tasks will live and grow old, and see two or three generations of their mistresses fade and pass away. The washer-woman, with scarce a ray of hope to cheer her in her toils, will live to see her fashionable sisters all die around her. The kitchen-maid is hearty and strong, when her lady has to be nursed like a sick baby. It is a sad truth that fashion-pampered women are almost worthless for all the good ends of human life. They have but little force of character; they have still less power of moral will, and quite as little physical energy. They live for no purpose in life; they accomplish no worthy ends. They are only dollforms in the hands of miliners and servants, to be dressed and fed to order. They dress nobody; they feed nobody; they instruct nobody; they bless nobody, and save nobody. They write no books: they set no rich examples of virtue and womanly life. If they rear children, servants and nurses do all, save to conceive and give them birth.—And when reared, what are they? What do they ever amount to, but weaker scions of the old stock! Who ever heard of a fashionable woman's child exhibiting any virtue and power of mind for which it became eminent? Read the biographies of great men and women. Not one of them had a fashionable mother. They nearly all sprung from strong-minded women who had about as little to do with fashion as with changing clouds.

Thus was our back brocken *before* the Convention had assembled.—[Fernando Wood.

Like the broken backed and treacherous Duke of *Gloster* at Bosworth Field, "Fernandy" doubtless came to the conclusion, after the convention that there must have been at least "six *Richmonds* in the field;" and like Richard, he would have been glad of an opportunity at a late hour on Wednesday night to swap his "Kingdom" for a fair sized "horse."—Rochester Union.

If he had seen the *trio run* at stafford and could have imitated their fleetness in pursuit of Kingdon's shoe shop he would never call for a horse "The speed of thought was in their limbs."

THE LONDON FOUNTAINS.—A free fountain was recently erected in London, which bore the following inscription:—"This fountain of pure water was erected by Robert Stafford for the benefit of his friends and fellow parishoners in Westminster, with an earnest desire for their temporal and eternal welfare." The fountain was opened without any ceremony whatever; it is placed in the center of a poor and crowded locality, and in the course of the first day nearly 5000 persons slacked their thirst at its stream.

BETTER THAN TO BE PRESIDENT.—Mr. Greeley, in his last letter from California, says that J. C. Fremont is taking about five thousand dollars per week out of his mines at Mariposa. That will pay.

Evening Report.

EASTON, SEPT. 23,

The Lehigh and Delaware rivers are both rising rapidly.

A serious break in the Delaware Canal is reported. It is said that 40 feet of the embankment is washed away.

The damage to the East Pennsylvania & Lehigh Railroad has been repaired, and the trains are running regularly.

READING, Pa., Sept. 23,

The flood is subsiding at Easton, Pa., and the Reading Railroad trains are now running regularly on time. All the canals are overflowed, and the boats are not able to run. Several bridges are also gone.

WASHINGTON, Sept. 23,

Perry Mc D. Collins, Esq., consular agent at Amoor River, Asiatic Russia, has arrived in this city, and expects to sail in a few days, on his return thither by the way of St. Petersburgh.

It appears from his statement, that American commerce at the Amoor River is steadily increasing, several ships having sailed from the United States to participate this year in its rich trade.

They have taken out assorted cargoes of merchandise, including cotton, wines, liquors, ship stores, and all kinds of hardware, machinery, steam engines, &c.

There are now on the waters of the Amoor River five steamers, built in this country.

A Russian officer, Capt. Davandoff, at present in New York, is superintending the construction of steam engines and machinery to be placed in gun-boats to be constructed on the Amoor, which is navigable for steamboats at least twenty-five hundred miles. The climate is similar to North-west Canada, and the agricultural productions about the same. The principal value of the country as yet developed is for furs and minerals, but when the steam navigation shall be fully established the trade will be immeasurably increased in other productions, and Liberia and Tartary will add their treasures to those of the Amoor country. From Moscow to the head of the Amoor, a distance of 400 miles, are upwards of 500 cities, towns and villages, of industrious inhabitants.—The Amoor Co., last year sent to the Amoor river, three or four vessels with full cargoes, together with iron steamers to initiate their project, viz: to unite the mouth of the Amoor with Siberia, by a regular line of steam packets.

SACKVILLE, N. B., Sept. 23

The Royal Mail Steamship Europa, from Boston, arrived at Halifax at noon today, and sailed shortly afteawards for Liverpool.

There are as yet no signs of the Balbec which left Liverpool the same day with the Arabia.

THE POTOTOE BLIGHT IN IRELAND.—The potatoe blight in its worst from, has attacked the crop in the neighborhood of Cork, Ireland. The Examiner says: We regret to say that, so far as has come under our observation, in the rural districts around the city, potatoe disease is becoming very general. In one instance that has come to our knowledge, a splendid field of fifteen acres, excellent land and highly cultivated, the crop on which was at one time expected to realize £500, is now become absolutely worthless. In many cases half and even two thirds of the crops have been lost. An esteemed correspondent informs us that the blight has set in with deadly virulence along the coast of Kinsale to Clonakilty.

The Dublin Evening post, in noticing the harvest operations, says:

Here potatoes are excellent—quite equal to the quality before the blight—and the produce is large, although a considerable portion are small.

ACQUITTED.—A man named Jason Richmond was recently arrested at Exeter, R. I., on the charge of having murdered his wife who mysteriously disappeared on the 10th of June last. A body of a female was discovered under a tree which had blown over, near Mr. Richmond's residence, on the 23d of last month, and this it was supposed, was the corpse of the woman supposed to have been murdered.—It was known, too, that the couple lived unhappily, and that a family quarrel had occurred on the very day of Mrs Richmond's disappearance. One day last week, however, the missing woman made her appearance. She had left home in consequence of the quarrel; changed her name to avoid detection, remained away as long as she desired, and then returned to her "bed and board."

In Buffalo Wednesday $429 damages were awarded to a colored man named Peter Welch, who brought suit against the Superintendent of the county Penitentiary and one of the guards at the institution, named Robinson, for being shot by the latter in the hip while undertaking to escape.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Yesterday Afternoon's Report.

NEW YORK, Sept. 22.

A despatch from Washington says, in the event of a collision between the United States and Great Britain, growing out of the San Juan affair, Gen. Harney can put the Government in possession of the fact in 18 days, by an express from Vancouver's to Salt Lake City, and thence to Leavenworth.

A communication from Portland, Me., arrived at Washington yesterday, for the purpose of inviting the President and Cabinet to attend the celebration of the arrival of the Great Eastern, but in consequence of pressing engagements neither the President nor Cabinet could accept the invitation.

WASHINGTON, Sept. 22.

The President will next week resume his residence at the White House.

All the documents ordered by the last Congress, with the exception of the mechanical part of the Patent Office Report, have been printed.

Sept. 23.

The receipts of the Treasury last week amounted to $835,000. The drafts issued to $1,158,000. The amount subject to draft, is $4,405,000.

A despatch from Old Point Comfort states that the health of the Secretary of War is improving.

Senator Bigler's recent visit here was with reference to the affairs of his brother, who is Minister to Chili.

The Spanish Minister will soon leave Washington for New York, to remain a month.

NEW YORK, Sept. 23.

Last evening a new counterfeit $5, on the State Bank of Troy, was passed in the lower portion of this city.

The retail merchants were all promptly notified throughout the city by the police.

MAUCH CHUNK, Sept. 23.

The heavy rains which have been falling in this vicinity during the whole week have raised the Lehigh river 8 feet above the ordinary mark.

Our streets are overflowed, the water being from one to three feet in depth, and our cellars are flooded. Citizens are moving about in boats, saving what property they can. It is impossible to estimate the damage, but it must prove immense.

BOSTON, Sept. 23.

The 25th anniversary of the settlement of the town of Chelmsford, Mass., was celebrated yesterday by the dedication of a granite monument, erected in memory of the Patriots of the town who lost their lives in the cause of Independence.

The exercises consisted of an address by Dr. Willard Parker, of New York and a procession and a dinner, at which sentiments were given and appropriate speeches.

PETERSBURG, Va., Sept. 22.

Roger A. Pryor, Douglas Democrat, has been nominated as the Democrat candidate for Congress, to fill the vacancy in the 4th District of Virginia, lately represented by Wm. O. Goode, deceased.

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston [illegible], a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y. appear to be the pill of the world. Dr. H. makes no secret of their compound; he furnishes the physicians in good standing with the receipt of their ingredients, and with the Pills sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Pancost, of Baltimore, M. D., a writer to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS, Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no others,) by producing an equilibrium of the fluids in the body, the want of which is the only cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver. Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL SALT is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is.

As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (of a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"COLUMBUS, OHIO, Aug. 8, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the *HYPOPHOSPHITES than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 1, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 9, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and am *delighted with its effects.* IT IS ACCOMPLISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used, in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, who ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * IT HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup, in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile signature.*

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $2; three Bottles, $5; Concentrated Solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

You who have drunk "BILL's" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just* surprise!

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*

BILL's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The thrippence worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its regular Contributors will be found the names of some of the best male and female writers in the United States; such writers as Justin Jones, (Harry Hazel), Augustus J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith, Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret [illegible], Anna [illegible], [illegible] write for it regularly, [illegible]

THE NEW YORK WEEKLY [illegible] a force of talent [illegible] to the world.

NOTICES OF THE PRESS.

[illegible]

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES. The aim and object of these productions will be to inculcate moral knowledge under the pleasing guise of fiction, or to [illegible] lesson through the [illegible] romance. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notices of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Wee Spy! Francis S. Smith's intensely interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared expressly for the ladies by one of the most brilliant lady writers of the present day.

Our Musical Morsels, our Items of interest, etc., etc. In a word its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting room of the merchant—a paper that parents can, with safety, place in the hands of their children without fear or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation to [illegible] of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY. The indications are at present, that the circulation of the WEEKLY will soon reach half a million. Where the one-cent were taken before, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country we are daily getting [illegible] to send orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper [illegible]. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, [illegible] a place where you have no means of [illegible] after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(Up Stairs,) Buffalo, N. Y.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; [illegible] of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies without minerals or poisons. The facilities of cure are such that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLD'S MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all making pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Nichols' Female Monthly Pills at the above office. THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and strongly made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The Great Eastern is evidently a doomed vessel. The telegraph informs us of a serious explosion on board, which would seem to indicate that she is indeed fated. Mishap after mishap, and delay after delay, has been patiently born on the ground that such were incident to all new and great enterprises, but somehow the public learns to regard with superstitious doubt the success of any enterprise that starts, and holds companionship so constantly with misfortune.

In the middle of the road between Niagara and Queenstown there stands an old oak tree, under whose branches it is said the Bard of Erin sat down and composed the "Woodpecker Tapping." The tree goes by the name of "Tom Moore's Oak." It has gradually lost all appearance of vitality.

The crew of the Great Eastern consists of 60 able-bodied seamen, 90 seamen riggers, 200 engineers and firemen, Steward's staff 100; making with officers, about 500.

HORACE GREELEY is to deliver the address before the Wyoming Co. Fair on Wednesday next.

The Cleveland Clergyman.

At the Hanover street Church, in Cleveland, a secret conference has been in session, and the Rev. A. Wright, the pastor of the Church, was expelled by a vote of 54 ayes to 40 nays, It was charged that the Reverend gentleman's conduct was in direct antagonism to his name. The instances of back-sliding said to have been proven against him—the proceedings were of course secret—were romantic walks by moonlight with fair sisters—an unpastorial kiss bestowed by his 50 year old lips upon the rosy and fragrant mouth of a young girl of 15 summers—and, worse than all, an assurance made by him to a married lady of his congregation, who was not blest with children, that "it was not too late to have a boy!" The gallant clergyman has appealed from the Cleveland conference, to the General conference of the United States; and a champion of his cause, who declares that it is all a conspiracy, defends him from the "suspicionable character" of the charges made against him. In a letter to the Cleveland Herald, this advocate explains that in the "moonlight walks" only the "sacred truths of scripture were discussed;" that the "kiss" was the fervent salute of fatherly affection and christian love; and that the physiological fact with which the Reverend saint sought to comfort his dissatisfied parishioners, was uttered in presence of his wife, to a lady who was well-known as an "old joker!"

Benjamin Kimball, a lawyer of Bangor, Me., is under arrest, charged with forging a deposition purporting to be made by Joseph Greeley, Jr., of Sutton, N. H., and a magistrate's certificate to the same, by which he (Kimball) obtained a divorce from his wife. He was held in two thousand dollars bail for a trial.

Candor of a Bank Clerk.

The New York Evening Post after relating the story of the Fulton Bank clerk—Lane's—operations, tells the following:

Apropos of speculations of persons in banks, a curious story is told of another bank, in which the discount clerk had resigned his situation; his resignation had been accepted; his accounts had been pronounced correct, and a complimentary vote of thanks passed by the board for his attention to his duties, &c. He then stated that he had a communication to make, as a caution to induce them to watch his successor. He stated that, notwithstanding his accounts were all correct at the time of his resignation, he had, in fact, been using the bills receivable of the bank for years as collateral for loans, and employing the funds in the purchase of paper at usurious rates. By this course he had accumulated sufficient property to meet his moderate desires, and, having no further use for the facilities he had enjoyed, he had resigned. Whether the vote of thanks was re-considered is not known.

IT'S ALL HABIT.—As an illustration of this fact we heard a good story the other day, of an eminent railroad man as well as political manager, who is rather addicted to profanity on any and all occasions, whether in buying or selling a cargo of grain, or in a convention of railroad managers or political wire pullers. Our railroad friend, in walking down Wall street the other day, in company with a venerable and devoted member of the Board of Brokers—one who kept his large pew in Trinity, attended the "stated preachings of the gospel," regularly, and who, on the whole, was religiously inclined, but not so much so that he could not drive a good bargain among the bulls and bears on week days, when the conversation took a heavenword turn. Lecturing our railroad official on the immorality of the habit of swearing—its influence on the young when coming from one holding so prominent a position, begged of him to try and leave it off. Good natured, jolly railroad man listened attentively to the good advice, acknowledging its force, meditating, by whistling along, rubbing his nose, turned to his venerable lecturer and said: "Oh, h—l. You may pray a good deal, and I swear some; but we don't either of us mean anything by it."

A VISIT TO SEBASTOPOL.—A correspondent of the London Times recently returned from a visit to Sebastopol, states that the raising of the sunken fleet was proceeding very successfuly. About fourteen ships only remained to be raised, consisting chiefly of three deckers and frigates for which larger and more powerful derricks were being constructed. That portion of the fleet sunk at the entrance of the harbor will be blown up. He also found the graveyards containing the bodies of those who fell in the Crimean campaign respected and properly attended to. The walls surrounding them were in good condition and kept in repair by persons appointed to visit them at stated intervals. The monuments erected by the British Army at Balaklava and Inkermann were uninjured, but that at the Redan was much defaced by the scratching of English names upon it.

An exchange says that a jolly fellow on the "Glorious Fourth," passing along the streets of Springfield, saw the inscription "B. K. Bliss, Apothecary," neatly chiseled on a marble slab in the centre of the sidewalk. Stepping reverently over the stone he turned round, and reading slowly "B. K. Bliss, *Apoplexy,*" exclaimed, "Apoplexy—yes—well—but what in h—did they bury him under the sidewalk for?"

A few days since a friend of ours, walking down town, saw a little boy pinching his younger brother, who was crying bitterly. "Why, my boy," said she to the young tormentor, "don't you know you are doing very wrong? What would you do if you should kill your little brother?" "Why" he replied, "of course I should put on my new black pants and go to the funeral!"

EFFECT OF ADVERTISING.—A merchant in one of the northern cities lately put an advertisement in a paper, headed "Boy want." The next morning he found a handbox on his door step, with this inscription on the top. "How will this one answer?" On opening it he found a nice, fat, chubby looking specimen of the article he *wanted*, warmly done up in flannel!

Miss Sarah A. Walker, aged 17, and pretty, whose father is a wealthy merchant in Cayuga, N. Y. ran away from home a few weeks ago and went among the Free Lovers, at Berlin Heights. There she desired to live and die, but as she found for associates only a few seedy looking, long haired men and an equal number of haggard looking women in breeches and short dresses, she returned home.

THIS MORNINGS REPORT.

Arrival of the North America.

Explosion on Board the Steamship Great Eastern!

Five Persons Killed and Several Wounded!!

FIGHTING IN CHINA!!

The British Forces Repulsed with Great Loss!

FARTHER POINT, Sept. 25

The steamship North America, from Liverpool 11.30 A. M. of the 14th inst, passed this point at 1.45 this A. M.

The Asia arrived out on the morning of the 11th, and the Hungarian on the morning of the 13th.

The Vanderbilt was to leave Southampton on the 10th for New York.

GREAT BRITAIN.

On the P. M, of the 9th the Great Eastern was off Hastings when a feed pipe casing in the forward funnel exploded with great force, blowing the funnel into the air and tearing to pieces the grand saloon and lower deck cabin, and otherwise damaging the internal fittings, to the amount of £5,000. Three firemen were taken from the rubbish in a dying state, and soon expired, and eight others were injured, two of whom subsequently died.

The guests had just quitted the grand saloon where they had been dining.

The explosion was of terrific force, yet the Great Eastern not only resisted it, her frame sustaining no injury whatever, and it made so little difference in her movements that her engines were not stopped till she reached Portland.

The Coroner's inquest had commenced, and the evidence show, first that the supply of the boilers through the water jacket was stopped because of a failure in the auxiliary pumping power, and secondly that a tap in the stand pipe which acts as a safety valve had been turned, and apparently unintentionally, so that the pipe was useless. Prior to the accident the performance of the vessel was satisfactory and she was almost without motion while large vessels in her vicinity were pitching and tossing in a stormy sea.

A new reform movement under the auspices of Cobden and others had been started.

Some of the master builders in London had yielded to the men.

CHINA.

Highly important news had been received.

Admiral Hope arrived off the Peiho river on the 17th of June, and found that the fortification had been rebuilt, but no guns or men were visible. The entrance into the river was barred with the booms and stakes. The Plenipotentiaries joined the squadron on the 30th, and notice having been taken of the announcement of their arrival, an attempt was made on the 25th to force a passage, when on a sudden batteries, supported by a mongrel force of apparently 20,000 men, were unmasked and opened a destructive fire.

After a severe action the squadron was obliged to withdraw with the loss of the gun boats, Cormorant, Lee, and Plover, and 464 wounded.

The French had 14 killed and wounded out of 60.

The plenipotentiaries have returned to Shanghai.

LATEST.

LONDON, Wednesday.—The China mail has arrived and brings complete accounts of the Peiho affair, with the total defeat of the British with no less than five gun boats and about one-third of the whole force engaged.

The mouth of the river was effectually barred by stakes and booms. This bar was raked by the fire of the newly constructed forts on the other side of the river, mounting 90 to 100 hundred guns.

Admiral Hope's appearance was in the first instance unmistakeably pacific. A solitary man-of-war boat carried in his first message, while the rest of the squadron was lying 30 miles off. The ambassadors, finding no proper officer to receive them, decided to remove their van and pass up the river. Six or seven hours, however, were spent in vain endeavors to effect this, and during that time not a gun was fired from the forts, although the gun boats were at a distance of 500 to 700 yards only, and some of them had got aground. At 1:30 P. M. the signal for action was run up, and the Opossum and Plover pushed in close up to the guns of the first barrier. Suddenly, about 2 P. M. the guns in the forts opened fire, and the action became general. The fire of the Chinese, both in weight and precision, was such as was never experienced at their hands.

In about two hours the fire of the Chinese began to slacken—soon afterwards almost silenced, although every shot of theirs told, while the British guns did comparatively little damage to the mud walls.

At about 5 P. M. the signal was made for the troops to land, and there were then no doubts of a speedy victory. Just as the first boat touched the shore the [illegible] hurricane of shell, gingal balls, and rockets, which mowed down the men as they landed. The ships threw in as heavy a covering fire as they possibly could.

The enemy's fire continued so heavy and the mud on the landing being up to the knees and sometimes to the waist, that out of 1,000 men that landed, barely 100 reached the first of the three wide and deep ditches, which, after some five hundred yards of wading through the mud, presented themselves.

Of the gallant few who got through the mud difficulties, scarcely 20 had been able to keep their rifles and munitions dry.—Nevertheless, they boldly forced the ditches, and some 50 of them, including a crowd of officers, succeeded in getting as far as the third ditch. They certainly would have made a good attempt to scale the walls, but their ladders had either been broken by shot, or stuck in the mud.

With the one, however, which remained, ten men sprang forward, three of whom were immediately shot dead, and five severely wounded.

A vertical fire of arrows, as well as a constant fire of the guns, was kept up on the select band, who now crouched in the ditch, waiting, but in vain, for reinforcements.

Orders were at last given to retire, and in effecting the retreat probably more lives were lost than in advancing, as the Chinese, by means of the blue lights, discovered the position of the men and shot them down like birds. Many boats had also been smashed by shots and there was not enough to take off the survivors. Several boats full of wounded men were struck by balls and smashed. The belief was universal throughout the squadron that Europeans commanded the batteries as wells as the Chinese.

Men in great coats with closely cropped hair and Russian features were distinctly visible.

The whole of the fortifications were evidently of European designating.

The total number of killed and wounded on the side of the British was 464.

The French had 4 killed and 10 wounded. Of the marine brigade, one officer was killed and 15 wounded. Of the non-commissioned officers and men, 27 were killed and 127 wounded.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges, and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage I have been favored with, I would respectfully solicit a continuance of the same.

Batavia, August 1 1859.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly effects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while its effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others, you will observe the result. There is but one other kind of Ink besides ours that will stand the test that is thicker, redder and dearer than ours, or all of these combined, every one can see that the ink which cannot be erased, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Put up in small Stands.
Also, in Bottles of
1-4 Pints.
1-2 "
1 " and Quarts.

N. B.—To Retailers a liberal discount is given. Two Large Illuminated Show Bills and Twenty-five small ones accompanies each order, giving the name of the Dealers business.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

WM. BENDER.

You who have drank "BILL'S" Lager Beer,
And felt its warmth arise,
Know well it drives out ev'ry fear,
And makes up *just* surprise!

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in a glow!

"BILL'S" Lager is the best of drink,
It makes a man [illegible] all he'll think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor [illegible] a common drunk!
But always makes the senses rise
In [illegible] triumph if he buys!

Bill's Glasses, too, are just the thing,
They hold as much as Nature'll swing,
And [illegible] the mind in equal poise,
And [illegible] from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The [illegible] in sparkling foam,
At Bender's [illegible] and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy at Bill his Lager Beer,
'Twill make you *feel sublime!*
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken long they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,
EDITORS AND PROPRIETORS,
22 BEEKMAN STREET, NEW YORK.

N. B. *A word of explanation* to those who have known us under the style of Evans and Co. The Business located by us at No. 677 Broadway, New York city, is the oldest established house in the country, and is known world-wide as the original "Evans & Co.'s Gift Bookstore." Many have taken the advantage of our popularity to advertise under the same name to increase their trade, to protect the public who may be unacquainted with us, we would state that we have no connection with any other Gift-Book House—and, though many advertise under the name of Evans & Co., the firm constituted by D. W. EVANS and J. H. PRESTON, is the first and only concern rightfully using the name. But to prevent all confusion in the future we shall use the style of D. W. EVANS & CO., and all persons wrongfully using the appellation to mislead the public, will be made to suffer the penalty of the law.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 96 MAIN STREET,

(2d floor, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED (with elaborate engravings,) of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. REYNOLDS' MEDICAL GUIDE: Embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Tolling Railroads--The Genesee Democrat.

The declamation and rant of the Democrat for several weeks, indeed months past, about the Central Railroad and its Vice President, Dean Richmond, has evidently been so entirely personal and vindictive as to require little notice at our hands. That paper, of the 24th instant, now for the first time proposes legislative action, viz: "to impose tolls on all Railroads competing with the canals," and advises that no man shall be voted for as a candidate for the legislature, who is not fully committed to that measure.

We do not believe that any honest and intelligent man, who should be a candidate, would thus commit himself upon a question of such grave importance, both as it regards the public policy and the rights of individuals, before taking his seat with his compeers in the legislature, and hearing the evidence and the arguments pro and con. Any man who should thus form and express an opinion in regard to any pending question or case, would be disqualified to serve either as judge or juryman, upon the trial of any such question or case. Why then should not he be disqualified to serve as a member of the Legislature? We shall be happy at any time to discuss the main question, and submit that we ought to have the privilege of doing so before an impartial and unprejudiced tribunal, and not before one whose members have, before taking their seats, been committed and pledged to one opinion. We wish to discuss the subject in a dispassionate and amiable way, so that the readers of both prints may, if possible, be enlightened and enabled to form a correct opinion. The cry of "huge monopoly" "soulless corporation," to be in great capitals, can have but little weight.

The debt on account of the canals is a *State debt*, for the payment of which, both principal and interest, every individual having capital, in *every section* of the State, is bound to pay his just proportion. The imposition of tolls upon Railroads, therefore, for the payment of this debt is *simply a transfer* of the debt of the whole people of the State to that class of her citizens, principally in the western portion of the State, who *pay the tolls*, either upon the Railroads or the Canals. Such a proposition might proceed from the counties upon the Hudson River and Long Island. It would doubtless be quite comfortable for the people in those counties, and for those in the great city of New York, to be assured that they were exempt from any direct assessment on account of our forty million canal debt. It is possible that the people of that section of the State might be willing to re-enact the first law providing for the construction of the Erie canal—that law provided for the assessment of the cost of the canal upon a strip of country twenty-five miles in width on each side of the work, from Lake Erie to the Hudson. Not only was this absurd law repealed, but it was contended by many, and particularly by the late Albert H. Tracy, that any amount of tolls, by way of revenue to the State, beyond the original cost of the canal, ought not to be paid by the people of these western counties. His acute and far reaching mind, many years since, foresaw the time when it would be unjust for the people, along the line of the canal, to pay the tolls which might be exacted by the government.—But now it is proposed that we, the people, in these western counties shall pay tolls upon the Railroads, also that the great mass of capital in other sections of the State may be exempt. The city of New York is the great centre of commerce and capital on this side of our Continent. Why exempt the great mass of capital represented in that city and impose the whole of our immense State debt upon the "bent and callous shoulders" of the *laboring farmers* along the Railroads and canals?

So much as to the consequence of tolling Railroads as they effect the people of these western counties, without saying one word as to their effect upon the innocent stockholders of these "soulless" Rail road corporations, a majority of whom have been great loosers and many of whom have been made *poor* by their connection with Railroads. In regard to discriminating tolls, that is higher rates upon the produce of other States, it is sufficient to point to Section 2, of the 4th Article of the Constitution of the United States, which ordains that "the citizens of each State shall be entitled to all the privileges and immunities of citizens in the several States." We cannot, therefore, discriminate in favor of our citizens as against those of other States. But even if we could, it would be easily shown that at the present low prices of fare and freight, the Railroads of this State with great difficulty now struggle against competition in other States and in Canada.

The Democrat complains because a car load of wheat or cattle is transported from Chicago to New York at less cost than from Buffalo to New York. Whether this be so or not, we do not know, but admit it and what then? It only proves that in consequence of the competition through Pennsylvania and through Lake Ontario and the Canada Rails, it is necessary for the Central R. R. to carry at the same rate.

It seems not to be generally understood that since the Pittsburgh, Fort Wane and Chicago Railroad has been completed, Chicago is connected with New York by Railroad, through Pennsylvania, about 60 miles shorter than by the Lake Shore Roads and the N. Y. Central and the Hudson River Road, and by a continuous track and uniform gage. This line will ever be a formidable competitor of the New York Roads, especially in the winter during the suspension of Lake and River navigation.

We have not adopted the denunciatory style of the Democrat and hope that it will abandon its course of vituperation and personal assaults and meet this question fairly. We have no interest in the Central Railroad, and the clap trap of "Central Railroad organ," or "Dean Richmond's organ," to the cry of "MONOPOLY AND SOULLESS CORPORATION and the invocations of the spirit of the "immortal Jackson," certainly can avail nothing by way of argument.

There has been collected by way of tolls on the canals from and including the year 1836 to and including the year 1858 the sum of $39,709,048,14 more than five times the original cost of those works and now it is gravely proposed to collect of the toll payers, by means of tolls on the Railroads as well as the canals, the whole of our enormous State debt of forty millions.

We re-state our position. It is simply this: If the nett proceeds of the revenues of the canals are not now, or shall hereafter be insufficient to pay the interest on our State debt and provide for the gradual payment of the principal, then that the debt should be paid by the whole people of the State and not assessed upon any particular interest, corporation or class of our citizens.

HINTS TO MOTHERS.—If you wish to cultivate a gossipping, meddling, censorious spirit in your children, be sure when they come home from church, a visit, or any other place when you do not accompany them, to ply them with questions concerning what everybody wore, how everybody looked, and what everybody said and did; and if you find anything in this to censure, always do it in their hearing. You may rest assured, if you pursue a course of this kind, they will not return to you unladen with intelligence; and rather than it should be uninteresting, they will, by degrees, learn to embelish in such a manner as shall not fail to call forth remarks and expressions of wonder from you. You will by this course render the spirit of curiosity a vehicle of mischief, which shall serve only to narrow them.

A lady in Cincinnati met a singular accident a few days since. She was found in bed in a fainting fit, with her mouth stretched wide open. Upon revival, her mouth remained in the same position, and so continued for several days, her physician being unable to afford h any relief.—Another doctor, a skilful surgeon, was called in, at once discovered a dislocation of the jaw, and proceeded to replace it.—The lady was then able to close her mouth for the first time in a week. The accident is a singular one, although there *are* ladies who find it difficult to close their mouths at any time.

"My son, what did you bite your brother for. Now I shall have to whip you.—Don't you remember the golden rule I taught you? If you would'nt like to have your brother bite you, you shouldn't bite him." "Ho, mother, get out with your whipping. If you wouldn't like to have me whip you, 'taint right for you to whip me, are it?"

Some young ladies, feeling themselves aggrieved by the severity with which their friends remarked their gay plumes, crinoline, scarlet petticoats, and flounces, went to their pastor to learn his opinion. "Do you think," said they, "that there can be any impropriety in our wearing these things?" "By no means," was the prompt reply. "When the heart is full of ridiculous notions, it is perfectly proper to hang out the sign."

FUNERAL SERMON.—The following is a funeral sermon lately preached in Ohio by one of its clergymen:—"I have been begged, importuned, and entreated to preach this sermon, but I don't want to do it.—I never did like the man; I never knew nothing good of him. He had horses, and he run them; roosters, and he fit them.—I have heard he was occasionally good at fires. The bearers will please remove the body, and sing a hymn."

The New York papers are talking of giving minute Congressional reports daily, by telegraph, during the session of Congress, and of raising the price of their dailies to three or four cents, in New York. They are now sold there at two cents.

A Republican organ says that the Republican party "had its origin in the necessities of the people." It is doubtless true that the organization first took shape in the brain of needy politicians, and its pleadings and solicitations—its wooings and its blandishments—its "open doors" and general invitations—are sufficient proofs that it continues a necessitous party to this day.

A most valuable discovery of diamonds has recently been made at the foot of the Oural mountains, Russia. One specimen brought the lucky owner £60,000, ($280,000.) There is every reason to believe that a mine of inexhaustible wealth has been discovered.

A correspondent of a literary weekly, takes exception to the new fashion recently introduced, of ladies' "suspenders," or "braces." He fears that the article will spoil their pretty figures, and argues well against them. He evidently thinks that "braces" are not so good as "embraces" for the dear creatures.

HIS RELIGION SAVED HIM. The N. Y. Express says Mr. Dorsheimer, for State Treasurer, is a German born citizen, but for forty-five years a native of the United States. He is a good citizen, a member of the same church with Mr. Fillmore, very decided in his Protestant opinions.

Mrs. Partington asks, very indignantly, if the bills before Parliament are not counterfeit, why there should be such difficulty in passing them?

"Sammy, you little whelp, didn't I tell you to let that cat's tail alone?" said an angry father to his son, who was endeavoring to elongate a cat's narrative. "Well, old cock, what if you did? it's old Brown's cat, and I'll yank thunder out of it if I please!"

"This is a mis-take," as the deacon said when he embraced the sewing girl instead of his wife.

A minister called at the house of a friend of his the other day, and found the wife in tears. "What's the matter, my good sister?" said he. "Oh, dear, John, my good husband, has run away with widow Smith, and *I'm out of snuff!*"

Courting girls is like the old style of printing—done by a *hand press.*

It's very pleasant when both parents have black hair, to have a baby come to your house permanently with a fiery red top. Jenks says its mysterious.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others' you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and deeper than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Arrival of the Vanderbilt.

NEW YORK, Sept. 28.—The steamship Vanderbilt arrived this morning from Havre via Southampton, bringing London dates to the 15th, and three hundred and sixty-three passengers. Among them are Rev. Drs. Bethune and Hardenburg, Captain J. J. Comstock and Mr. Maurice Strakosch.

The Vanderbilt reports that from longitude 26 to 49 she encountered heavy north-westerly gales. She passed, yesterday afternoon, the steamers Kangaroo and Ocean Queen, both hence, and the steamship Bremen, hence for Bremen and Southampton the 15th.

It is stated in London that France had returned an evasive reply to a question from England touching the concentration of troops in the neighborhood of Gibraltar.

The government of France and England were to take immediate measure for the inflicting chastisement on the Chinese for the treacherous outrage at Peiho.

The Florence correspondent of the London Times says:—It is reported that Pope Pius had received the extreme unction of sacrament, and had administered it to the dying.

Advices received at Madrid from Tangier state that in consequence of the agitation on the death of the emperor of Morocco, all foreign consuls at that place barricaded their houses and armed their dependents, and also that all the christians in the Empire were leaving in haste.

Another account says the family of the Consuls had taken refuge on board a Spanish steamer in the harbor. The Florence correspondent of the London Times says:

The treaty was signed Aug. 26th, between the Papal Government and the Queen of Spain, by which the latter engaged to occupy Roman States with her troops, when the French forces are withdrawn. A despatch from Parma says that the National Assembly on the 14th unanimously voted the confirmation of Signor Farini as Dictator.

The China mail had reached London bringing full details of the conflict near Pekin. The Times prints a full list of the killed and wounded. The proportion of officers among them is very large.—Rear Admiral Hope was wounded very severely.

The London Times of Thursday says: Government having decided on dispatching immediately to China several additional steam and sailing frigates, together with reinforcements of troops. Orders have already been despatched to the naval rendezvous for enlisting men in order to expedite matters. The coast guard were to be called on to volunteer. Great improvements had been ordered to be made in the fortifications at Dover Castle in order to place it in efficient state of defence.

LONDON, Thursday morning.—The Times' Paris correspondent says: "It is rumored here that 12,000 troops are ordered to be held in readiness for China.—General Wimpsen is spoken of as commander."

Mercantile letters from China generally concur in the view that the revival of hostilities would not cause any material interruption to trade. The natives at Shanghai were much annoyed at what had taken place, and consequently no ill-feeling was anticipated there, but still it was believed that England would have to send out very large naval and military forces and perhaps blockade the various points in order to bring the Emperor to submission.

Sir Wm. Eyre, late commander of a force in Canada, died on Thursday.

Some Madrid journals publish articles on the necessity of taking Gibraltar from the English, no matter by what means.

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compound: he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in Medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.

PHYSICIANS USE THEM.

☞ Dr. C. T. Pancost, of Baltimore, M. D., in a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which we live. DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGSWELL'S NEW MEDICAL SALT,

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

Dr. Coggswell's New Medical Salt, instead of its being a remedy for all ills, has gained upon [illegible] of [illegible] [illegible] accomplishes but one thing, [illegible] cure of all inflammatory diseases, whether in the brain or bowels, whether in the head, throat, abdomen, extremities or skin.

New Medical Salt. Its peculiar excellence is, that without the unless loss of blood and strength it effectually cures inflammatory diseases, (no others) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

Notice To Invalids!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

Dr. Coggswell's New Medical Salt does just what it claims to do—no more. [illegible] equalizes the fluids by [illegible] the system all arterial and venous [illegible] [illegible]. [illegible] circulars may be obtained from any Druggist who has this valuable medicine for sale.

Dr. Coggswell's New Medical Salt. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try it. If not sick, remember the *New Medical Salt*.

Dr. Coggswell's New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is.

As it is not a Patent medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonial and directions see circular.

Dr. Coggswell's Antiphlogistic Salt.

Acute Packages $1.00; Chronic $2.50. Sent by mail, free of expense on receipt of price.

Invalids with chronic or long standing diseases should always order a chronic package.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris,) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption.

In the second and THIRD STAGES (at a period, consequently, when there can be no uncertainty as to the nature of the disease) can be checked, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"[illegible], Ohio, Aug. 5, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, Mich., Aug. 5, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MORRISBURG, Va., Aug. 5, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, Va., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* IT IS ASTONISHINGLY WONDERFUL."

"LOWELL, O. July 5, 1859.—I have used it in all about forty [illegible] and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success*. It was regarded as hopeless by physicians and friends, [illegible] under the old treatment." I am now able [illegible] in attending on the sick, as many miles, perhaps, in a day as any other physician in the county."

"CHATHAM, Pa., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * * It [illegible] WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup, in extra large bottles, is "*absolutely pure;*" is the [illegible] proposed by Dr. Churchill "*for general use;*" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

[illegible] his Report made to the Imperial Academy of Medicine, Paris, Notes of Cases, and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation," bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $3; Concentrated solution, by mail, *prepaid*, $1. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE
NEW YORK WEEKLY,
A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forrest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville, Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have showered upon us by speaking of our enterprise in a manner to stimulate our energy, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, the Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, the Editors will use their best endeavors to make just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $1 50 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,

AN INVOICE OF *NEW STYLE MIRRORS,* just received at the Crockery Store. R. KING, Jr.

July 27th, 1859. [illegible]

Political "Side show."

This 'ere hanimal, gentlemen is called 'amphibious'—he can't live in the water and dies on land!—[Itinerant Showman.

The anniversary of Perry's Victory was celebrated in a quiet way on Saturday the 10th inst., in a private entertainment at Ellicott Hall under the immediate personal direction of that "worthy Trio" Wilber Follett and Bryan—

> These *three* immortal names
> Which were not born to die!

Precisely what the character of the entertainment was designed to be, was not very apparent from the outset and gave rise to much interesting speculation. Indeed, when its "pedigree" was considered, it was utterly impossible for human mind to foresee what the prominent characteristics of this particular "issue" were destined to be! The all important geneological secret, it was said, was safely entombed in the innermost "bowels" of the Genesee Mutual Insurance Company, and that Follett had the key—*in his hat!* That this was ample security that neither the 'key' or 'secret' would ever be accessible to any *honest* man, was regarded as a proposition *as self evident* as the immutable truths of the Declaration of Independence! The mystery surrounding the case was certainly not in the least dispelled by the initiatory preparations for the entertainment as the eventful hour for its final denouement drew near. The 'veil' rapidly became more and more impenetrable and the speculations, surmises and ejaculatory remarks were both numerous and comical. When the 'cage' containing the distinguished Mayor of Idleport arrived, every body simultaneously exclaimed—'there is to be a Monkey Show!' Then came Capt. Follett, and the Band; whereupon all the juveniles spontaneously shouted—'an Indian war dance!' Next came the 'ghost' of the defunct 'Mutual' and sole personal representative of one Lafferty, a 'myth.' An essay upon modern Spiritualism was conjectured copiously and con*vincingly* illustrated by direct communications between the *dear* departed and its numerous *victims*! Counsellor 'O'Brien' with manuscript in hand, was next in train. The *literati* immediately announced a forthcoming 4th of July Oration, with a laudatory Editorial thereon by its author! But we have given sufficient by way of illustration and will not farther multiply. We should not fail to note, however, that our friend—*Vinegar* from Darien, was on hand like a thousand of brickbats. He was 'taken in,' extensively by the brethren—indeed, we believe he was the only 'beverage' used on the occasion! While it was peculiarly adapted to the taste of the 'friends' and entirely harmless in its 'operation' we noticed that it was scrupulously shunned by every body else. It was certain death to the uninitiated—the principal ingredient was *lie!*

With this casual glance at the principal *dramatis personae*, we are prepared briefly to notice the interesting features of the 'play.'

Pursuant to the published request of Harry Wilber for a bolting convention in aid of the disorganizing projects of Wood, Wise & Co., a *mis called* (in more senses than one) Democratic County Convention was held in this village on the day and year aforesaid. The 'call' itself was scrupulously silent as to what *place* in the village this distinguished assembly was desired or expected to convene. An omission of this nature, although of very unusual occurrence, might under ordinary circumstances, be regarded as entirely casual. Any one, however, in the least familiar with Wilber's 'style' of doing this kind of political engineering would very readily discover the corrupt *intent*. When the call was issued he was foolish enough to suppose that, however irregular and unauthorized it might be, its disorganizing purposes might be so cunningly concealed as to induce all branches to respond thereto; and clearly foreseeing the contingency, that in such case it would be absolutely necessary for him to resort to trickery to render the operation finally successful, the place of meeting was *purposely* omitted. It may safely be regarded therefore as one of those remarkably 'shrewd' maneuvers for which that distinguished personage has become somewhat noted in the political history of this County. But

> "The best laid plans of men and mice
> Oft gang agee,"

and so did this:—

> The best laid plan
> Of neither mouse nor man!

Farther concealment having thereby become entirely useless, the public were graciously informed at a late hour in the forenoon, that the performance would 'come off' at Ellicott Hall at 1½ o'clock P. M. It 'went off' accordingly and *such* a 'go off' is seldom seen! There seemed to be a strange contrariety of opinion even among the faithful, upon this question as to what description of entertainment was intended to be given. Some of them obviously supposed that it was to be a general assembly of the masses—for who ever heard of banners, four-horse teams and a Brass Band at a delegated Convention? Whatever was intended to be the character of the organization however, it was sufficiently apparent that the *ostensible* purpose for which it was convened, was really a subterfuge. Its *real* purpose was to afford an opportunity for the public expression of the detestable slang and Billingsgate which has for weeks past disgraced the columns of the Genesee Weekly Democrat—by way of petty revenge for the annihilating verdict of condemnation administered to the retailers thereof by the Democracy of this County. Of course the formality was gone through with, of choosing a bogus delegate to Syracuse, but that is the last any body has ever heard of him, in that capacity. It would be singular indeed if such instrumentalities could not *dig up* in the several towns, four *specimens* of humanity to act as delegates to any kind of an assemblage. Nevertheless, after all the efforts, human, inhuman and superhuman, resorted to by this 'Trio,' there were *three* towns in the county which peremptorily repudiated *in toto* the whole movement, to wit: Byron, Bethany and Pavilion; while the town of Batavia presented a crop-tailed delegation of only *three*—the 'worthy Trio'—no fourth *man to answer* for a tail to such an unheard of combination of flesh *could even be dug up*, in that town. And the 'Trio' represented the unanimous views of *twenty two* of the democracy of Batavia, including themselves and some dozen of their relatives, body servants and employees generally!—

We *refer* to this feature of the organization thus minutely, as furnishing a satisfactory *refutation* of the statement, unblushingly circulated in the several towns, that this movement would receive the countenance and support of at least two thirds of the Democrats of this *town*, and an equally *satisfactory confirmation* of the position assumed *per contra*, that more than those three delegates could not be scraped up to attend the bolters Convention.

We do not propose at this time to dilate upon the proceedings of this meeting. As we have already remarked its sole purpose was personal, vindictive and scandalous denunciation of individual Democrats of the county. Speech making was the 'specialty' of the occasion. The sublimated Shepard of Alexander, whose Southern, first family proclivities render him entirely oblivious to any thing of the *plebian order*, either in politics or otherwise, introduced a series of 'blood and thunder' resolutions made up of a perfect 'rehash' of his editorial fulminations in the Democrat for the last eight weeks. Wilber thereupon modestly requested Brother Shepard to unbosom himself, and give vent to the effervescing substance with which his 'inards' were evidently sorely agitated. Brother S. graciously assented to the request of his *very dear friend* and 'shelled out' 'Angels and Ministers of Grace defend us!' Didn't Harry catch a Tartar then! Such a *dressing*, skinning, and literal flaying alive of a human being was never before so admirably performed outside the Cannibal Islands! Bro. Lampson of Le Roy, then took the Carcass in hand and skillfully disjointed the bones! Bro. Kidder of Alexander, seized the mangled remnants and cast them contemptuously away!

Sic transit gloria mundi!

Not an audible groan escaped the 'victim,' but a continual *wretching* indicated extreme nausea and almost uncontrollable ejectile tendencies! Something within was evidently inclined to 'boil' the ranks. 'Alas! poor Yorick!' If ever a poor d—l was called upon to exclaim, in very anguish of soul—'save me from my friends!'—he was then and there distinctly visible to the naked eye—horns and all!

We shall not extend this *complimentary* notice by any reference to the proceedings so far as they relate to the falsehoods and wholesale denunciations of individual Democrats. During this entire canvass this species of disgraceful personal assault has been unceasingly resorted to, and unstintedly indulged in, in a manner wholly unparalleled in the history of political contests. This, indeed, has comprised the whole stock in trade of these bolting disorganizers.

We entered upon the canvass with the firm determination not to be diverted from the legitimate business in hand, by matter or feeling of personal aggravation or insult. We were quite content to rely upon the good sense of our democratic friends in the County to draw the proper line of distinction in the premises, without any misgivings as to the general result. That result has fully justified the propriety of this course. The slimy pathway of political intriguers, disorganizers and tricksters can never be successfully obscured by such a flimsy resort to extraneous, personal vituperation. We do not intend, however, to leave this batch of maligners without our parting blessing. The 'business' portion of the canvass is concluded and we shall shortly avail ourselves of the 'pleasure' of passing in minute and detailed review, the previous history and operations of this 'worthy Trio'—faithfully accurately and to the *mutual satisfaction* of all persons interested therein. In such review we shall endeavor to show that an undue prominence has been given to the New York Central Rail Road, to the exclusion of certain *local* 'institutions,' in the conduct and management of which the residents of this County are much more deeply interested. We shall also pass more especially in review the operations of these gentlemen throughout the present canvass—the subterfuge, falsehood and personal defamation which have characterized those operations, and the iniquitous method of proceeding adopted and pursued to deceive and mislead the Democratic electors of the county. If an incessant *howling* from that quarter, for the coming six months, shall ensue, it may be set down as an additional evidence of the truth of the adage, that 'people who live in glass houses shouldn't throw stones!'

SLEEPING CARS.—The Buffalo Express of this morning contains a scathing article from the pen of T. N. PARMELEE, of that city, in answer to an article that appeared in the Genesee Democrat of this place, charging DEAN RICHMOND, by insinuation and innuendo, with being interested in the profits of these cars, etc., etc. We shall try to find room for the most material portions of the article at an early day.

Byron and Bergen Agricultural Fair.

Fast horses and fast men—Ladie's equestrianism—Ballooning—Speech making—Side scenes—Smashup &c, &c.

Although the Fair had been appointed in dangerous proximity to the equinoctial storm which at one time bid fair to use it up, yet fortunately it faired up in the fore part of the day, Thursday, and when we arrived upon the ground about noon, a large crowd had assembled. Cattle, swine, sheep &c, were already arranged in their respective places, and a choice lot they were. A large canvass tent was located in an appropriate position in which was exhibited a variety of Bread, Butter, cheese, Vegetables, Needle-work, Paintings and all the *et ceteras* of the ladie's department which reflect honor upon the ladie's of Byron and Bergen.

Every countenance bore an aspect of cheerfulness, good order prevailed, so far as we noticed, with one or two jolly exceptions in which the individuals had "corn to sell and money to let."

Outside of the tent the Trotting course was the centre of attraction. Lansing, Walker, Johnson and others, among whom was the owner of the Red Bird, were there. Fast horses and fast men were not wanting, men who were willing to stake from $5 to $100 on favorite nags. Lansing's black stallion is a fast horse but not a very elegant traveler, as much may be said however of some of the others. Jo Walker's sleepy Nelly is one of the best travelers that was on the ground; she moves with an ease that did not characterize most of the others. Johnson's horse was calculated to out-trot anything in the County and at one time bid fair to do so but sleepy Nelly came in the best two, in three heats, which set the matter at rest for then at least. Walker's horse is being regularly trained which we believe is not the case with Johnson's; the Red Bird however, put them *all* in the shade. He is said to be the fastest horse that was ever in Genesee Co., is a large powerful beast, and I understand is owned in Canada and has been in competition with Flora Temple on the Long Island course.

So much for fast horses, which is more than I should have said had there not been such interest manifested in them by male and female, old and young. Perhaps it would be as well to mention that these scenes occurred on Friday the last day of the Fair. Three ladies entered the ring to compete for the prize to be awarded for the best equestrian performance. The display was not as good as was expected; they rode but a few times around, one horse became unmanageable, and dismounted its rider. The first premium however was awarded to Miss Gifford, and the second to a Miss Mix.

About 4 o'clock, and while the trotting was in full blast, the Rev. Mr. Fuller of Buffalo was announced to deliver an address. All interested repaired to the tent where the speaker was introduced by the President. By way of introduction he made some quaint remarks about the fastest horse on the track till he came.—He paid productive labor, agricultural, and mechanical, high compliments; declared that the boy who had reared one good hill of corn this year had been engaged in a far more laudable cause than the hosts of France and Italy, who had just left 76,000 fellow beings on the battle field. I felt little disposition to dissent, for I very well know that a hill of corn reared and protected from the effects of frosts and drought this year, was no small achievement.

After the speech, the inimitable Sol Gaines was seen engaged inflating a tissue paper balloon of moderate dimensions. He had made an abortive attempt to send it up the day before, but this time it rose majestically, and steered for Europe!

The interest subsiding somewhat, I amused myself with a peep into a den of "snaix" on exhibition in a side tent. A somewhat good looking young lady was engaged in the unenviable employment of fondling the reptiles with a familarity which I was disposed to leave entirely to herself. When I came out, the dispersing crowd, and setting sun, admonished me that it was time to go. I had not gone far when several young America's bloods passed me with surprising fleetness; onward they went, pell mell as if the evil one was after them, turning a corner, a short distance ahead, crack smash went something, who-a, who-a, was heard from a half dozen voices, and in a moment more I was at the scene of action. Two buggies were broken into kindling wood, one horse had escaped; nobody killed. I didn't stop long but passed on assured that "the last shall be first, and the first last." Thus ended the scenes of the day.

It was admitted on all hands to be the Societie's best exhibition. The premium list was so extensive that we could not give it in detail, and confine our remarks consequently to especial cases. The first premium on Embroidery was awarded to Miss Meriman, who employed Miss Lucretia Hoskins to do the work; it was a splendid thing said to be worth $20 and reflects much credit on Miss Haskins with whom the pattern originated. Long may this Society live to vindicate the dignity of productive labor, which sooner or later must terminate in the complete and final abrogation of sham nobility, and popular aristocracy, which exerts a vassilating and coersive influence over productive labor—the source of the wealth of the world.

LOCK WILSON.

A NUISANCE ABATED.—The Rochester Union says, an order has emanated from the headquarters of the New York Central Railroad Company, at Albany, to the conductor to prohibit the sale of all merchandise on their respective trains—excepting the daily newspapers and traveler's guides—and this order must be enforced under pain of dismissal. This peddling on the cars of all sorts of trash, such as *pop-corn*, gum-drops, sticking-salve, lozengers, books, pamphlets, pictures, etc., has been carried to such an extent that it has become a nuisance to passengers.

The keenest pang of remorse, as painted by the great poet, is that it "murders sleep;" and the choicest boon that man receives from his Maker is drescribed in that "pregnant line so beautifully paraphrased by England's noblest female poet—"He giveth his beloved sleep."

Hugh Riddle was arrest in Pittsburg the other day because he imagined that he owned the town," and acted accordingly. If our police should undertake to arrest all such persons here, they would find their time *fully* occupied in the duty for the next six weeks.

The Studies of Children.

The Atlantic Monthly, the celebrated Boston literary magazine, has an excellent article in its last number against the *too* common practice of overtasking children with studies. We give an extract, which every parent should read and reflect upon:

"The late Dr. Woodward, of Worcester said, that children under eight should never be confined more than one hour at a time, nor more than four hours a day, and that, if any child showed alarming symtoms of precocity, it should be taken from school altogether.

Dr. James Jackson, of Boston, allowed the children four hours' schooling in winter, and five in summer, but only one hour at a time, and heartily expressed his detestation of the practice of giving young children lessons to learn at home.

Dr. S. G. Howe, reasoning elaborately on the whole subject, said that children under eight should not be confined more than half a hour at a time—by following which rule, with long recesses, they can study four hours daily; children between eight and fourteen, should not be confined more than three-quarters of an hour at a time, having the last quarter of each hour for exercise in the playground—and be allowed six hours of school in winter, or seven in summer, acted on condition of this deduction of twenty-five per cent for recesses.

All excess defeats itself As soon as a grown man can work more in ten hours than in fifteen, taking a series of days together, so a child can make more substantial mental progress in five hours daily than in ten.

Broken Links of the Past.

Within a week past, says the Buffalo Express, three woman have departed this life, whose near relationship to very eminent men brought down to our time living witnesses of their daily life and conversation.

We refer to Mrs. Catharine Kortright, the widow of John Kortright, and relict of the celebrated jurist, Brockholst Livingston, in the 83d year of her age; and to Mrs. Peter R. Livingston, in the 70th year of her age; and to Mrs. Amasa Jackson, the only daughter of Oliver Phelps, who died at Canandaigua, aged 82 years. We were not aware that any of the children of this distinguished pioneer of Western New York were living but the announcement of the death of Mrs. Jackson has corrected us in that respect. Mrs. Jackson was probably the only person living who could give from recollection, from the lips of the founder of the West, the history of Phelps & Gorham's purchase, which embraced an extent of territory covering almost all of Western New York, alive with busy cities, flourishing villages, and covered with farms under the highest condition of cultivation.

The demise of such ancient and venerable worthies, calls for notice of greater length than a mere newspaper paragraph.

THE RAILROAD FREIGHT BUSINESS.—The Rochester Union says: "No less than five trains of empty cars went up the Buffalo Road, and about the like number of loaded trains went down toward Syracuse. In addition to the through trade, there is a lively local trade. Calls for cars come in from all the way stations. It is estimated that one hundred thousand barrels of apples await shipment now at the stations on the Rochester and Niagara Division of the Road, to say nothing of the other products. The apple crop of Western New York is very large, and buyers who have purchased the fruit of the growers, are anxious to hurry it to the Eastern market.

If the Central Railroad Company now received the rates on through freight formerly paid, their dividends on the fall business would be large, not to say enormous. On local freight they are able to command better prices; but at some points they have to compete with the Canal, and of course do not obtain high prices.

TOM CORWIN GIVING GIDDINGS FITS.—Tom Corwin made a speech a few days since at Belmont, Ohio, in which he paid his respects to the Hon. J. R. Giddings, as follows: "As to Father Giddings," he said "he was a 'good old fellow—honest old soul, subject to fits,' as those who had read his correspondence with him (Corwin) would know." Mr. Corwin repeated frequently that Mr. Giddings had fits—"he is a nice old man (said Corwin) but he has fits—he has fits!" Corwin said further that Mr. Giddings was not the leader of the "Republican" party—that it was all nonsense, said he—"but I know who is the leader; I know the man and his name is Thomas Corwin. *I am the leader of the Republican party!*"

Freeland Cochrane courted Magdaline Hardie, of Clochester, Del. Co., five years promised to marry her, and then, after leading her to waste so much of her life upon him, ignominiously took another to his heart and home. For this, a jury has made him pay $500.

A GREAT BLOWER.—A yankee glass-blower advertises in Boston that he will make perfect models of the Great Eastern steamship, as soon as she arrives.

Egypt has 300 miles of railroad. On the first locomotive run, mummies were used for fuel, making a hot fire. The mummies are used by the cord.

The Equinoctial gale, which we have just passed, was the most violent that has been experienced on Lake Michigan for a great many years. It did much damage.

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and Indelible, that even the test of Oxalic Acid cannot remove it from paper, hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Last Evenings Report.

Arrival of the Circassian.

ST. JOHNS, Sept. 27

The steamship Circassian, Capt. Campbell, from Galway on Saturday, the 17th inst, arrived at this port at 2 P. M. today.

The steamship Bremen from New York arrived at Southampton on the 15th en route for Bremen.

The news is two days later than the accounts by the Vanderbilt and City of Baltimore, and anticipates the advices per steamship Asia, due this week at New York; there is, however, no political news of importance.

The departure of the Great Eastern for America, has been postponed until October 20th. Isambard K. Brunel, her designer, had died of paralysis.

Troops have been ordered to proceed from India to China, in order to vigorously prosecute the war.

SECOND DISPATCH.

The Circassian has 300 passengers for New York. She experienced heavy weather on the passage. She reports having seen the steamship Asia for New York to the southward on Saturday afternoon.

It had been officially announced that the Great Eastern leaves Holyhead for Portland October 28th.

There was nothing doing at the Zurich Conference.

It was reported that the Empress Eugenie and the Princess Clotilde were *enciente.*

The King of Sardinia had received the deputation of the National Assemblies of Modena and Parma, with regard to annexation.

The King expressed acquiescence in their views, and promised to support them before the great powers. He also expressed the hope that Europe having recognized the right of other nations to form Constitutions, she will not deny it to Italy.

Their continual military movements indicate a determination on the part of the Italians to rely on themselves.

Austria was to increase her military force in Italy, and it was asserted that France has still nearly 100,000 men there.

The Spanish expedition against the Moors is fixed at 12,000 men, and the transports are all ready to convey them.

The Red Sea Telegraph Co. invite public business over the completed portion of their line from Oct. 1st.

UTICA, Sept. 27.

A fair number of delegates are present to the Canal Convention. Among them are quite a sprinkling of politicians.

No caucuses to-night, and no indication of what is to be done, further than the presumption that the action of the Convention will turn simply upon individual preferences as to candidates.

It is generally believed, now, that no nominations will be indicated by resolutions.

BOSTON, Sept. 27

A file of the St Thomas Tidende, to Sept. 1st, recieved at this port, contains an important document, showing the terrible condition of affairs in Venezuella, where a war of the races formed by political and military aspirants is rapidly depopulating that country. The document in question is an appeal for protection of the foreign Consuls at Ciudad Bolivar, to the Governors of the French, English, and Danish West India Islands. In this appeal the Consuls say that the contest now going on is not of ordinary revolution, having for its object a political end, but on the contrary, the motto is—"Violence, Death, and Pillage." The acts of atrocities committed by these vandals are, they say so numerous, that it would be difficult to enumerate them. In the Provinces of the interior, whole communities, with their inhabitants have disappeared. Nothing but foreign intervention can probably save the country from entire destruction.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites* (contain) *the Principle* which constitutes nervous force, and are the most powerful blood generating agents known.

The Cure of Consumption,

In [illegible] and [illegible] (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALLPOX.

Professional Correspondence.

"CINCINNATI, OHIO, Aug. 8, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of Dr. HYPOPHOSPHITES *than from all other forms of medication combined*."

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by

"A REMARKABLE CURE.—Practical results always speak louder than fulsome praise. When we can see and *know* that a thing is true there can be but little doubt as to where praise and merit should be bestowed. We were led to these reflections by a remarkable case of scrofula on the foot of a Mr. Cooper, of this village. Eminent physicians had been consulted in his case, but all, after treatment, gave it up as hopeless. As a *dernier resort,* application was at last made to Dr. N. R. C. Rowe, and the result is a practical cure of the affliction. The case was as desperate as the result has been happy, and the cure must tend to increase the already highly deserved reputation of Dr. Rowe."—*Livingston Sentinel, (Dansville) Sept. 13th.*

A PRESSING CASE.—Judge Morris, who is running as an "independent" candidate for District Attorney of Kings county, was robbed in an omnibus a day or two since. A very interesting young lady took a seat next to him, and pressed affectionately against his side. The Judge was not "independent" enough to object to the "outside pressure," and in his turn, edged up somewhat closely to his fair companion.—Happening accidentally to desire to ascertain the hour, he felt for his watch and found it—gone. The "lady of the press" had it in her taper fingers, and the circumstances being slightly suspicious, she was handed over to the police.

Arrival of Mr. Greeley.

HORACE GREELEY, returned home from California by the way of Panama, arriving on Tuesday in the Moses Taylor. He closed his pen and ink sketches by an account of the trip home which appeared in the next mornings Tribune. Mr. Greeley is one of the keenest observers of men and things we have, and although he is not apparently an observing man, yet nothing escapes his scrutiny that comes within the range of his inquiry. He will glance at a man, get an answer to one question, and he has the key by which he will read him through. This faculty of taking things in whole, enables him to give the graphic pictures of the country, the people, and their customs wherever he travels. His "Overland Journey" articles, will make a most instructive book, which will probably appear soon. Greeley is truly a remarkable man, an honor to his race, and the age in which he lives.

Serious Accident at Albion---Great loss of Life.

Main street canal bridge at Albion fell Wednesday afternoon with an immense crowd of people, who were attending the county fair, eighteen dead bodies were soon taken out, and it was supposed as many more were still in the water. A great number are injured.

The names, as far as have been learned, are as follows:

Adel Burt Wilcox, West Kendall; Mr. Stillson, South Barton; Thos. Cady, Albion; Jane L. Avery, Albion; Sarah Thomas Carlton, Augusta Martin Carlton, Henry Carlton Ransom, Murdock Carlton, Mrs. Ann Viele, Barre; middle-aged man, name unknown; Thomas Handy, Yates; Sophia Pratt, Toledo, Ohio; Perry Cole, Barre; Sophia Harris, Albion; Cornell, South, Barre.

There are others, but cannot get their names.

We understand that the bridge was crowded to get sight of a rope walker across the canal. It is high time such exhibitions were "laid up."

A correspondent of the Liverpool Albion says that Sir Creswell, Judge of the Divorce Court in London, who is an old bachelor, is positively growing young with the pleasure he imparts by uncoupling ill-mated pairs at the rate of thirteen brace per hour when he is in good divorcing order.

THE BOSTON "OLIVE BRANCH AND ATLANTIC WEEKLY" is one of the best Family Papers published. It contains solid and brilliant editorials on all the live subjects of the day. Its literary ability is everywhere acknowledged, and it is full of thrilling Tales, sparkling Sketches, accounts of Travel and adventure, Wit, that cuts like a raisor, and Humor that overflows with laughter, and makes lean people fat and jolly; the choicest Poetry, the cream of the News, bundles of Family Receipts; Agricultural information; Price of Produce, Cattle Market Reports, &c. HENRY WARD BEECHER'S SERMONS are reported weekly. These are worth double the price of the paper, which is only $2.00 per year. Address,

HENRY UPHAM & CO.,
OLIVE BRANCH OFFICE,
BOSTON, MASS.

During our visit to Lowell we were shown through the Laboratory of our celebrated countryman, Dr. J. C. AYER. Scarcely could we have believed what is seen there without proof beyond disputing.

They consume a barrel of solid pills, about 50,000 doses and 3 barrels of cherry pectoral, 120,000 doses per diem. To what an inconceivable amount of human suffering does this point! 170,000 doses a day!! Fifty million of doses a year!!!— What acres and thousands of acres of sick beds does this spread before the imagination! And what sympathies and woe!— True, not all of this is taken by the very sick, but alas, much of it is. This Cherry Drop and this sugared Pill are to be the companion of pain and anguish and sinking sorrow—the inheritance our mother Eve bequeathed to the whole family of man. Here the infant darling has been touched to early by the blight that withers half our race. Its little lungs are affected and only watching and waiting shall tell which way its breath shall turn. This red drop on its table is the talisman on which its life shall hang. There the blossom of the world just bursting into womanhood, is stricken also. Affections most assiduous care skills not, she is still fading away.— The wan messenger comes nearer and nearer every week. This little medicament shall go there, their last perhaps their only hope. The strong man has planted in his vitals, this same disease. This red drop by his side is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick sorrow and fear lest the rod on which they lean in this world, be broken.

O Doctor! Spare no skill, nor cost, nor toil, to give the perishing sick the best that human art can give.—*Galveston, Texas, News.*

THE DELUGE TO COME AGAIN.—Yes, this has been decided by a famous scientific—the Deluge the great deluge is to come again. We have it on the authority of a Parisian named M. Victor Meunier. He has just discovered that the great deluge which we have been accustomed to regard as an unique event sent by the Almighty as a chastisement of mankind, was a periodical inconvenience to which the globe is destined to fall a victim after the lapse of a certain number of years. Thus the next deluge will take place in 6,500 years. And of this he is as sure as if he already felt the waters rising to his feet. M. Victor Meunier declares that this unpleasant event will be caused by the sudden rush of the South Sea over the Equator, which will cause the submersion of the globe, and the return of chaos to his watery bed, which we are now occupying. It is fortunate that Monsieur Victor gives us such timely notice of the catastrophe. Six thousand five hundred years is fair warning, and enables us to take our precautions without any undue haste or perturbation.

Some people appear to find their highest pleasure in being a sort of social hyenas, gathering together and digging up the reputations of frail, fallen men and women, to feast with greediness and delight, whining and howling over the loathsome repast the while, as if they felt sincerely sorry to have found corruption, when they sought for it alone. Have we not all sins enough to make us patient, if we cannot be charitable towards other sinners?

Mr. John Minton of York, Pa., astonished a large crowd of spectators on Friday by a number of antics performed on a church spire on South George street. He stood upon an arrow near the top of the vane, lay at full length upon it, and assumed other positions too frightful to look at.

The cholera has carried off 1,000 persons in Hamburgh this Summer, 300 in July. It has raged seriously in the Duchies of Mecklenburg; one little town of 2,000 inhabitants has been almost depopulated.

Singular Tradition.

Among the Seminole Indians there is a singular tradition regarding the white man's origin and superiority. They say that when the Great Spirit made the earth he also made three men all of whom were of fair complexion; and, that, after making them, he led them to a small lake and bade them leap therein and wash. One immediately obeyed and came from the water, purer fairer than before; the second hesitated a moment during which the water, agitated by the first, had become slightly muddy, and when he had bathed he came up copper-colored; the third did not leap in till the water became black with mud, and he came out his own color. Then the Great Spirit laid before them three packages of bark, and bade them choose; and, out of pity for his misfortune in color, gave the black man his first choice. He took hold of each of the packages, and, having felt the weight, chose the heaviest, copper-colored one then chose the second heaviest, leaving the white man the lightest. When the packages were opened, the first one was found to contain spades, and all impliments of labor; the second enwrapped hunting, fishing, and all the warlike apparatus; the third gave to the white man pens, ink, and paper—the engine of the mind—the mutual, mental improvement—the social link of human existence—the foundation of the white man's superiority.

THE GIANT TREES OF CALIFORNIA.—HORACE GREELEY, in his last letter, gives an account of a visit to the Mariposa forest of giant trees in California, in which, speaking of their hoary antiquity, he says:— "; but they were of very substantial size when David danced before the Ark, when Solomon laid the foundations of the Temple, when Theseus ruled in Athens, when Æneas fled from the burning wreck of vanquished Troy, when Sesostris led his victorious Egyptians into the heart of Asia, I have no manner of doubt."

Elisha Sadfield, a Revolutionary soldier, died in Jefferson County, N. Y., a few days since, 95 years old. He was a native of Bedford, Westchester County, where he resided until 1781, and for the five previous years was amid many of the most exciting scenes of the Revolution.

The Dayton (Ohio) Empire says that Mr. Henry H. Worman of that city, on Thursday last received a letter from his father, who resides in Darme, Germany, and who has reached the great age of *one hundred and fourteen years*. The centenarian writes a neat, legible, steady hand, and is able to waite upon himself and perform light labor.

The Atlas and Argus says a little tool has been invented that will be popular with the ladies. It is an arrangement for threading needles. It is made with two blades, which hold the needle with the eye opposite a little funnel-shaped opening, into which it is perfectly easy for a person to weak sight to pass the thread, and the thread inevitably passes through the eye.

The remarkable Aurora which excited so much attention in this country was equally remarkable throughout Europe.— It suspended telegraphing completely.

The Missing Aeronauts.

TROY, Sept. 28.—The despatch or paragraph in the New York papers of to-day, announcing the safe landing of La Mountain, is erroneous. Nothing has yet been heard from him. His wife is in this city.

WATERTOWN, Sept. 28.—The report in the New York papers of the safety of La Mountain & Haddock, at Kingston, is unfounded. Continued and increasing alarm is felt here.

The San Francisco Times of the 29th ult. says that Horace Greeley would return from San Jose on the following day, and start for the Atlantic States by the next steamer, and not by the overland route as he had proposed. C. A. Dana had been on a trip to Los Angeles, and returned to San Francisco on the 20th ult. Bayard Taylor arrived on the 29th ult., and was announced to deliver his first lecture on the 1st inst. Billy Birch, the negro minstrel, and Judge McAllister of the United States Court, also arrived. Mrs. Harriet Booth, wife of J. B. Booth, the actor, died on the 28th.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of the

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

LOCAL MATTERS.

Fashion for Fall.—A new style of air-inflated bustle has recently been produced, and hoops will be larger than ever. if they only lifted the dresses out of the mud, we should be well content; but, alas! the skirts will be made longer as the hoops expand, and the cloaks of this year nearly trail upon the ground. Cloaks are very wide. Most of them have sleeves and the cloak of two years ago would barely form the sleeve of this. A new style, called "The Zouave," is well-calculated to protect the person of the wearer in the most unexpected battle with the elements, but if these outer habiliments are allowed to expand much more, the "two tier" side walks will have to be given up as a failure. Meek men don't pretend to place their understandings upon stone when ladies are in the street, but step one side, as of course they ought to do, but it will be inconvenient when the weather gets muddy. Have mercy then ladies, and don't take in too much of the universe.

Change of Place.—The Teacher Institute is to be held at Ellicott Hall, Batavia commencing next Monday Oct. 3d. Hon. Victor M. Rice Ex-Sup't. Is engaged to deliver an address to the Teachers during the Institute.

Take Notice.—Dibble sells Sweet Potatoes for one dollar a bushell, or two shilling a peck.

Good news for the People.

STAR WRITING FLUID.

In bringing this Writing Fluid before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly effaces most Inks, even that from the largest establishments. Arnold's of London, is gradually effaced by it. Harrison's of Philadelphia, instantly disappears, while its effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others, you will observe the result. There is not one other kind of Ink besides ours that will stand the test, that is blacker, redder and clearer than ours, so [illegible] every one can see that the ink which cannot be effaced, and then consider [illegible] done on Bank Bills, Deeds, Wills, Records, &c., not only deserving but will command the confidence of an enlightened community. As it is a Chemical preparation, I challenge all competition. It flows more easily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Evening Report.

The Canal Convention.

UTICA, Sept. 28.

The Canal Convention assembled at 11 o'clock at the City Hall. Carlos Cobb of Buffalo, organized the body by nominating Henry Fitzhugh, of Oswego, as Chairman. Albert Sawin, of Erie, T. T. Flagler, of Niagara, James Gallery, of Monroe, W. H. Shankland, of Onondaga, A. P. Seymour, of Oneida, W. Clark, of Montgomery, W. T. Cuyler, of Livingston, L. D. Collins, of Troy, John McVean, of Duchess, D. H. Elton, New York, Vice President; W. Monteath, of Buffalo, J. E. Lyon, of Oswego, S. G. Chase, of Albany, and J. Lewis, of Yates, Secretaries.

About two hundred were present.

A. H. Hovey, of Onondaga, read the call for the meeting, and addressed the convention on the subject of Canal commercial interests of the State, and moved that a committee of eleven on resolutions and business be appointed. The following committee was appointed: S. B. Hunt, of Erie, L. A. Spalding, of Niagara, Thos. Parsons, of Monroe, L. B. Crocker, of Oswego, A. H. Hovey, of Onondaga, R. C. [illegible] of Oneida, S. G. Chase, of Albany, [illegible] McKay, of New York, C. H. Thompson, of Steuben, and G. H. Edwards of Broom.

AFTERNOON SESSION.

Thos. G. Alvord offered a resolution that it was inexpedient that this convention selected at this time from candidates now in nomination from political parties, any whom they shall point to as their peculiar choice, but leave the question to those who are friends to the interest we represent, to be answered unmistakably by persons in nomination before the election. [Tabled for the present.

Dr. S. B. Hunt, from the committee on resolutions, reported a series, as follows:

Advocating the returning to the original canal policy of the State, which was, that property passing through the State should pay the debt of the State by imposing tolls generally on railroads.

2d. In favor of compelling by law railroad corporations of the State to carry the property of our own citizens at other States, and in the opinion of the convention such a law would be eminently just to the citizens of the State, and must be conceded on the part of such corporation.

3d. That it is the duty of the next Legislature to provide by tax, for the completion of the canals in the State, and for the closing of their construction account prior to the opening of navigation in 1860 with as great an extension of length of locks as is practicable within the present walls.

4th. As a tax is unavailable till the winter of 1861-'62, in favor of a temporary loan, in anticipation of the collection of the tax.

5th. Holding the Canal Commissioners responsible for the repairs of the canals, although let by contract, and requiring them to exact from the contractors constant and perfect repairs.

6th. Instructing the State Committee to prepare interrogatories for candidates for office, embracing measures advocated by the Convention, and that the replies be published as a guide to Canal men in deciding the liability of the various candidates.

Debate ensued, the general expression being opposed to tolling railroads.

The first resolution was laid over.—The second was amended on motion of D. C. Littlejohn, by striking out the remonstration sentence, which declared a pro rata bill must be conceded by the railroad. When the third resolution was read, A. H. Hovey moved to strike out that portion recommending the enlargement of the locks. Adopted.

EVENING SESSION.

The resolution in favor of tolling railroad and providing for committees to conduct legislative elections, was adopted.

Adjourned sine die.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros. will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. [illegible]

It may be found in the appropriate column in this paper. We trust that there may be a full attendance of the delegates on that occasion.

The Albion Catastrophe.

We give below a list of the killed and wounded at Albion on Wednesday last. The bridge was constructed of iron and wood, and was considered unsafe, and people were warned not to crowd upon it, but the desire to see a man walk on a rope, was a consideration not to be dissuaded from, and so they rushed on to death.

We copy from the Rochester American of this (Friday) morning.

It will be a relief to learn that the apprehensions of a larger number of killed than was yesterday reported are probably unfounded. We are indebted to Dr. L. C. Paine for a correct list of the killed. They are as follows:—

Perry G. Cole, aged 19, Barre.
Augusta Martin, aged 18, Carlton,
Mrs. Ann Viele, aged 36, Gaines.
Edwin Stillson, aged 16, Barre.
Joseph Cade, aged 18, Albion.
Lydia Harris, aged 11, "
Thomas Handy, aged 65, Yates,
Sarah Thomas, aged 19, Carlton.
Harry Henry, aged 22, "
Ransom S. Murdock, aged 17, Carlton.
Adelbert Wilcox, aged 17, West Kendall.
Sophia Pratt, aged 18, Toledo, Ohio.
Thomas Aulchin, aged 50, Paris, C. W.
Jane Lavery, Albion.

These were all recovered on Wednesday evening, and no more have since been found. No effort has been spared by the citizens or canal authorities in the search. The water was drawn down yesterday, so that men could walk about in the canal, and Commissioner Gardner authorized the employment of [illegible] men to remove the wreck and drag to walk the canal closely together as far as the waste-weir. In this way, if there had been any more bodies, they must have been discovered. Yesterday morning, at an early hour, there were people in Albion from all parts of Orleans county, fearful of the fate of friends. The unsuccessful search or the finding of their friends, relieved many heavy hearts.

THE WOUNDED.

The following is as complete a list of the wounded as could be obtained:

Charles Roswell, a young man aged 19 of Sandy Creek, once reported dead, was living last evening, but his case is deemed hopeless.

George Roswell, a brother of the above was hurt on his back and hip.

Wm. Derby, Albion, arm broken.

Cyrus Clark, Yates, leg and three ribs broken.

A boy named Walker, from Gaines, leg broken.

Dr. J. W. Randall, Albion, a terrible cut over the top of his head from the right temple to the base of the left ear, so that the scalp fell back; body and shoulders bruised, and strained across the stomach. His recovery is probable.

A man named Stearns, and his son, were injured, but how badly we could not hear.

Mrs. Aleah Tripp, Barre, had an arm fractured.

Dosha Stacy and T. H. Baldwin, Gaines, each had a shoulder broken.

Peter Green, wife and child, injured but not seriously.

Mrs. Jordan, slightly bruised.

Miss Lamont, injured, but not fatally.

Mrs. Isaac Wilcox, badly hurt.

Others who were in a condition to be removed, were taken away by their friends before their names or the extent of their injuries were ascertained. Probably all such will recover.

The fate of the Balloonists.

There seems now little doubt but that La Mountain and Mr. Haddock have gone the way so many go, who aspire to travel in the clouds.

The Watertown Reformer, Mr. Haddock's paper, in its issue of yesterday, unwillingly concedes the loss of the parties, though speculating upon a variety of ways in which they may have been carried to a great distance, and alighted safely.

The ascension was made on the 22d instant. After reaching a few hundred feet, it passed off to the northeast, and in about twenty minutes were out of sight. It was seen to pass Philadelphia, 18 miles distant, 15 minutes after its departure.—The last that had been heard of it, was its passage over the town of Fowler, St. Lawrence county, 30 miles distant, when it seemed to be moving at a rapid rate in the same direction as before. It was supposed that they would come down before dark, and their return to the village was confidently expected by the morning train from Potsdam.

It is now seven and a half days since the ascension was made, and not the slightest fact has transpired to indicate their whereabouts since the first half hour after their departure. They were well clad, and could not suffer from cold. They had but a small quantity of provisions, say three pounds, but that at this season of the year they would not find it very difficult to obtain the means of sustaining life. They had from 250 to 300 lbs. ballast, which would enable them, if they struck the Gulf of St. Lawrence, to cross that body of water, and probably to cross the ocean, if their course unfortunately lay in that direction.

De Lave Slips Up.

The attempt made yesterday by De Lave to cross the rope over the Genesee River, at Rochester with a man on his back proved a miserable failure. The Rochester American says:—

After proceeding a short distance, De Lave began to fail, evidently, and grew momentarily more unsteady on his legs, until he reached a point a few feet from the brink of the falls, where he lost his balance and fell, carrying Smith with him of course. For a moment, every cheek among the spectators was blanched with dread, but fortunately both the adventurers caught—De Lave on the rope, Smith on a guy and also by one of De Lave's legs. De Lave then assisted Smith on the rope, and both worked their way by "shinning," back to the saw mill. Smith clambered boldly on the roof, but De Lave modestly avoided the congratulations of his friends by crawling into a window.

Cut Feed.—While corn has been somewhat injured by frost and the prospect is that oats will be somewhat higher on account of it, farmers would do well to save their straw, have oats and corn ground together, and let stock have cut feed. It will not take but a few minutes to cut straw enough for a team, and once saturated with water and besprinkled with oat and corn meal, it will be found an excellent substitute for whole grain. Not more than half as much will be necessary to keep stock in a good condition. Try it.

Profanity.—In the use of profane words no idea is to be expressed, no object is to be attained, no end secured, no ear to be pleased, appetite to be administered to, no passion to be fed, no style to be acquired, no wealth to be earned, no possible food, either real or imagined, is had in view. They mean nothing. They are wicked cheats, playing a game of deception, attempting to palm off a libel, a string sound for a substantial thought. Profanity is surely a good witness of a terrible dearth of wisdom, a frightful scarcity of ideas. Nor will any one pretend that there is any good in profanity; for besides being an arrant cheater, it is an idle wicked use of the greatest and best being in the universe, the best and truest friend of every human creature.

The usual significance of "a bull in a china-shop" is reversed by the recent affair at the mouth of the Po[illegible]. The bull in this case got decidedly the worst of the visit.

The people of Groton Mass., the other day arrested a drunkard, and for want of a lock-up in the town, placed him in an empty baggage car for the night. During the night a freight engine backed up to the train, and steamed away with the "Groton jail" and its contents.

Wherever you find tears, be not rude nor harsh. Step lightly around the sacred places. Break not the fountain, sending forth its little streams. If ever there is a call for kindness it is when sorrow broods over the heart. We would not number among the first of our friends the man or woman who never shed a tear.—We ask but this in the hour of adversity and disappointment, and it is all we expect when we are lowered to our last resting place.

If a young woman throws herself away you may be sure that she has married a man she loves; but if her friends tell you that she has made a good match, you may set it down as equally sure that she has married some man's money, and that her after career will be pretty sure to afford a subject for the village gossips, if indeed the newspapers do not mix her name up with a spicy elopement case.

The discussion of the Sunday question, in New York, causes a degree of ill feeling that appears to be proportioned to the excellence of the subject. It is to be doubted whether the enactment of severe regulations for the "better observance" of the day of rest will have the desired effect.—Let men set a good example in the premises, and there need be no occasion for law.

Gov. Wise has a son, of the same name with himself, who has just been called to preach in Philadelphia. If he resembles papa, he must be very like the fighting bishops of the middle ages, and fit to lead the church militant.

LOCAL MATTERS.

The Inspecting Thursday.

The Fire Department of Batavia was out in full Regalia yesterday, consisting of Rescue Engine Co. No 1; Neptune Engine Co, No 2; and Pioneer Hook and Ladder Co. with Hose companies No's 1 and 2, accompanied by the Batavia Brass Band in full uniform. The companies under the leadership of Chief Engineer, Walker, marched through Main st, from the extreme ends of the town, and finally tried strength at the Reservoir in front of the Herald office, the result of which will be communicated by the judges chosen for the occasion.

On the second trial of the two companies, we learn that every length of hose belonging to the Department was ruptured by the force of the machines, and the well plied arms that worked them.—In this condition, had a fire occurred in the village last night, we should have been illy prepared for it, but the forethought of Rescue Engine Co, No 1, provided for this contingency in immediately telegraphing to the Chief Engineer of Buffalo, for the loan of sufficient hose for the use of the Company, which was responded to, and the hose reached here and was ready for use early in the night. This act of vigilance ought to assure our citizens that the Fire Department is "ever ready" and watchful for their interest and safety.

The Magazines.

The October number of the Atlantic Monthly comes to hand in due season.—It presents for its readers this month the following table of contents.—Daily Beauty; The Artist Prisoner; old Papers; Rifled Gems; A Trip to Cuba, with the continuation of The Minister's Wooing, by Mrs Stowe, and the inimitable Professor at the Breakfast Table. [Phillips, Sampson & Co, Boston.

The Ladies's Repository, for October contains a fine engraving of a scene in the catskill mountains, and a portrait of Hon. Jacob Sleeper with the usual interesting table of contents. [Swormstedt & Poe, Cincinnati.

The Knickerbocker, comes around regularly, a little before the month, as it has these many years and delights its readers, with whom it is always a favorite. It contains for October illustrations of scenes on the Hudson, and at Newport, with descriptive text.

Notice.—Gas Bills must be paid at the office of the Treasurer, at the store of A. Smith & Son.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of extra quality custom made which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in showing up for the winter, his stock is large, his goods *first quality* and his prices are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

We beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,
Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given, with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

The Mayor of Rochester has prohibited any further exhibitions of rope walking across the Genesee River. This is right. De Lave has shown some spunk and ability sufficient to do something useful—let him go about it.

An Exchange says that the bears are committing depredations in nearly every part of Michigan. Bigly thought they were confined to Wall st., N. Y.

A chap put up at the Cataract House Niagara Falls, the other day calling himself Chauncey W. Vibbard, and son of Mr. Vibbard Superintendent of the Central Railroad, upon which the clerk of the hotel, called in a nephew of the real Mr. Vibbard and introduced him to his pretended cousin, upon which the young man owned up and departed, taking his lady, supposed to be his wife.

The Great Eastern, on further examination, than was had at first report, was found to have been injured more than stated. One of her boilers was seriously damaged, to repair which will require additional time. It is very doubtful about the big ship starting for this Country on the 20th of October even.

The New York and Erie Road have a fast freight line that runs freight through from New York to Chicago in 81 hours. This is the quickest time ever made. The New York Central and its North Shore connections are organizing a similar movement in order to keep up with all competitors.

Since the catastrophe at Albion the other day, there is a slight spasm about unsafe bridges. The Rochester Democrat devotes half a column to the subject, but it will soon subside, and a sense of security will steal over the people, until another similar calamity takes place.

We see by the Telegraph that La Mountain had been seen in Lewis Co., high up, and going east. He is in Europe or the other country, before this time undoubtedly.

A large majority vote was given in the Episcopal Convention in New York yesterday, in favor of the restoration of Bishop Onderdonk.

The Hon. Daniel S. Dickinson, the Hon. Horatio Seymour and the Hon. John A. Dix have accepted invitations to be present and address the Democratic Ratification meeting to be held at the Capitol on Tuesday next.

The Lyons Republican learns from Coroner Whitbeck that Fee, one of the men suspected of murdering the woman near Clyde last Sunday night, confessed his guilt to his father, shortly previous to his disappearance. He is said to be a large, muscular man, and an ugly fellow to handle. There is, as we learn, already an indictment against him, for a previous assault, but the officers have never been able to capture him. Without doubt, a reward for his arrest will soon be offered.

NOVEL PREMIUMS AT FAIRS.—They have a sort of a home made way of doing things out west at the County Fairs. We like the idea, and would suggest the precedent to our Agricultural Fair getters up. At St. Joseph, Mo., the Sons of Malta offered a premium of a tea service, [illegible] jack knife and cane, to the finest baby.—Over thirty were entered for the prize.—His Honor M. Jeff. Thompson, Mayor of St. Joseph, secured a jack knife, as being the ugliest man on the fair grounds; and Mr. A. K. Miller, Editor of the St. Joseph Journal, an elegant cane, he being considered the handsomest man present.

The bouquet to the handsomest unmarried lady, under twenty five years of age, was awarded to Miss Hickey, of Platte county; the silver tea service to the [illegible] married lady under thirty years of age, having the most children, to Mrs. [illegible] [illegible] of St. Joseph.

The Catskill Recorder, under the head of a "Strange Visitor," states that a few days since Mr. Wm. Prindle paid a visit to his brother, Mr. P. J. Prindle, of that village. Neither of the brothers had seen the other in thirty-four years, and each supposed the other dead a quarter of a century ago.

An exchange says that P. T. Barnum has damned a creek and reformed a lake covering thirty acres. In view of the construction of the sentence, had he not better "reform" himself?

The Saturday Review of London reads M. Blondin a solemn lesson for performing and the American mob for applauding his antics in full view of the sublimity of Niagara, at which "anybody with a spark of feeling must be awed into a sense of his own insignificance, and bow in reverence before the majesty of Nature." Which perusing, the unsentimental mind instinctively answered "Good!"

Mrs. E. J. Tracy, writing to the Memphis Appeal from Holly Springs, Miss., having seen some negroes going to meeting on Sunday, says: "As with the rapidity of thought I glance from such a scene to benighted Africa, sunk in moral degradation, over whose millions of human souls the darkness of heathenism folds her sombre wings in rayless night, my heart swells with gratitude to the Great Father of all for the institution of American Slavery."

The New York Express says that Bishop Onderdonk has withdrawn his petition to the House of Bishops, asking for a termination of his sentence. This was done in an informal manner. But this does not prevent the calling up of the whole matter, in regular parliamentary form, if any of the delegates see fit to do so. The withdrawal of the petition is looked upon by the opponents of restoration as only an expedient to avoid bringing the subject up for debate, and to send the petition and memorial to Richmond, without first passing them in review here.

Old Prof. S. was one of the instructors at Dartmouth College years ago, and was, withal, about as blunt and straightforward a specimen of humanity as ever walked, being considered a little crabbed by inmates. One day in the early summer he was taking his usual stroll around the village, keeping "his eye out" for any "fast" student who might be off duty, when he chanced to meet Mr. Page, a sturdy farmer from East Hanover, with a load of wood, trudging along the dusty street barefooted and coatless; but he was a fine representative of "nature's noblemen."

"Hallo! Mr. Page," growled the Professor, "I should like to know if all the people at East Hanover go barefoot?"

"Part on 'em do, and the rest on 'em mind their own business," was the rather settling reply.

BE CHEERFUL.—The best thing about a girl is cheerfulness. We don't care how ruddy her cheeks may be, or how velvety her lips; if she wears a scowl, even her friends will consider her ill looking; while the young lady who illuminates her countenance with smiles will be regarded as handsome, though her complexion is coarse enough to grate nutmegs on. As perfume is to the rose, so is good nature to the lovely.

ABDUCTION.—From the Guelph Advertiser we learn that great excitement has been caused in that town by the forcible abduction, by her brothers, of a young lady named Hannah Byron on Thursday last. They were arrested and the case came before a full bench of magistrates on Friday, and by a majority of two the case was dismissed. One of the brothers proceeded to the Convent in the evening and demanded that his sister, who had returned, be given up. The request was not complied with, and both the brothers left for home. One is an express agent at Buffalo, the other is in the Clifton Post-Office.

Mr. Samuel Hawkins, living in Mt. Crawford, Va., shot an enormous bull snake a fortnight ago, about a mile from Mount Crawford, on what is known as Cedar Ridge. The snake was eleven feet in length, and its body was over a foot in circumference. It was in pursuit of a young brother of Mr. Hawkins, making a kind of bellowing noise peculiar to this serpent, when it was shot. Its teeth were an inch in length.

The Buffalo Republic predicts that in less than two years a steamboat will be constructed to run on our Lakes which will be longer than the Great Eastern, and capable of carrying three thousand passengers and three thousand tons freight, and that she will make over thirty mile an hour, and be capable of running in winter as well as summer, and which will make Buffalo, commercially speaking, in importance second only in the United States.

"Grace Greenwood" of Philadelphia has prepared several interesting lectures, and is prepared to attend to all calls from literary associations during the coming lecture season.

Three Gipsy families camped near Ogdensburgh last week. The authorities suspected them of theft, searched their "traps" and found several thousand dollars in money on them. They were ordered to march and they went to Canada.

The Hon. A. B. Dickinson delivered an address before the St. Lawrence County Agricultural Society on Friday, and the Hon. A. S. Upham before the Onondaga County Society on Thursday. Both are practical farmers, and such men can interest their fellow-farmers.

E. DeGraff of Amsterdam has held the office of Justice of the Peace nearly ten years, and has never issued a warrant or summons; but, adds The Schenectady Star, "he has done much to promote peace and settle differences in that community."

A physician, being sent for by a quack doctor, expressed his surprise at being called in on an occasion apparently so trifling. "Not so trifling," replied the quack, "for I have taken by mistake, some of my own pills."

"Marm may I go a fishing?" "Yes sonny but don't go near the water; and recollect, if you are drowned, I shall skin you as sure as you're alive!"

A buggy chaise, and a buggy wagon,
Would likely make a lively run,
But not so [illegible], he said,
As sleeping on a buggy bed.

It's Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. Profs. Chamberlin & Bolles, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They [illegible] no [illegible] except those given up [illegible] as incurable. The reader might here ask, do they really cure such cases,—are their statements false? Have they cured any such cases [illegible]? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases five, ten, and fifteen years and upwards in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages around the world. The reader might here enquire, by what means such wonderful cures are performed? not by irritating the delicate membranes of [illegible] nor by drugging the stomach, but by direct application of the positive and negative polarities of Electricity.—Again, it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? And are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in these. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent is unpardonable.

The current has been generally applied through the hands or feet in, such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnine or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As also, their important discovery in the use of the positive and negative polarities to the human body, for the sure and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, Dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Trial of Fire Companies—Referee's Report.

The undersigned duly chosen Referees to decide upon the trial, between Engine Co. No. 1, and 2, do report as follows:—

The first trial was upon height, in which the Referees had no means of ascertaining the number of feet the water was thrown, but the stream sent up by No. 1, far exceeded that thrown by No. 2, though it is but justice to the latter Company to say, that their hose was incapable of sustaining pressure, and burst upon every trial.

The second trial was upon distance, in which No. 2, threw a stream 159 feet one inch, and No. 1, 149 feet 5 inches.

The third trial was upon quantity, in which No. 1, filled the Tank in 2 minutes and 43 seconds, and No. 2 in two minutes 57 seconds.

The trial between Companies shows to the citizens of this place, that there is no village in this State, that can boast of a better organized, or better disciplined Fire Department, or one more prompt or active in fulfilling the duties, and it is no more than just that the Department should be sustained, and cherished by all, who have any interest at stake, and that it should be well supplied with good and substantial hose, and whatever their duties require.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in shoeing up for the winter, his stock is large, his goods *first quality* and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

On Time.

Bierce is around with *New Fall Goods*, and is underselling the *Old Fogies*—Only look at his *Cash Prices*—Sugar 5c. Nutmeg 6c. crushed sugar 10c. Coffee do. 9c. [illegible]—31, molasses 31, saleratus 8c. ladies gaiters 20c. Mens boots $200. Miles is in full bloom again. *Sells remarkably Cheap* and keeps a splendid assortment. *Hard to Beat the Yankee.* tf

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful *regenerator* in the *"Bitters,"* and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Latest News.

BY TELEGRAPH.

Arrival of the Asia.

New York, Sept. 30.

The steamship Asia from Liverpool the 17th, arrived last night. Commercial news quietly, and political partly, anticipated. It is officially announced that the Great Eastern from Portsmouth, for Weymouth Oct. 8th, will finally sail from Holyhead for Portland, Me., on the 20th of Oct. This delay of three weeks is the time in which Mr. Scott Russell contracts to repair the damage occasioned by the explosion. This contract does not include any repairs which the boiler may be found to require, and although they apparently sustained no damage, it is said to have shown that the internal stays of the boiler most directly experienced the force of the shock, and had either been displaced or greatly weakened, so that the boiler cannot be safely used in its present situation.

The Daily News states that Government has decided on dispatching several additional steam frigates and corvettes, together with a sufficient number of sailing frigates, to augment the squadron in China. It is also expected that a force of one thousand additional marines will be dispatched to China.

The Times Paris correspondent says it was stated that twelve thousand French troops had been ordered to be held in readiness to depart for China. Wimpfen was talked of for the command.

The Moniteur publishes an address to the Emperor, signed by about ten thousand Bergamasks. The address expresses a hope that the conditions of peace which his majesty is about to dictate will be calculated to alleviate the sufferings which appear to threaten the future of Venetia. The address is violent respecting the return of the Archdukes.

The latest news from Italy leave little doubt of the determination of the Italians to rely on themselves. Garibaldi was preparing for a general contraction of troops on any given point.

Gen. Fanti, Commander-in-Chief of the troops of the Italian League, had fixed his head-quarters at Bologna. The soldiers disbanded by Victor Emmanuel were flocking around him.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,

Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Mr. Hermon B. Potter, of Buffalo, died recently in Chicago. He was the only son of the late Gen. Heman B. Potter, and with him the name of Potter, by the male line ceases. The wife of ex-Senator Babcock is a sister of the deceased, and his widow survives him.

The Biblical information, says the editor of the Portsmouth Chronicle, which some advocates bring to bear on the question of slavery in all its aspects, is remarkable and refreshing. The Democratic candidate for Governor in Ohio, in a speech in Athens county, justified the fugitive slave law by the precedent of Hagar in the wilderness, who was told by the angel to return, with "her slave-born child" to her master. He argued that if the angel had been opposed to the fugitive slave law he would have told Hagar "to make tracks for Canada."

Won't Answer.

Our friend, the Editor of the Republican Advocate, yet declines to give any definite answers to any enquiries whether the new "Republican" party does not intend, in case it attains power, to put in practice all the old measures of the late Whig party. The Advocate will not admit that it has abandoned any of its old doctrines. The Editor refers, evidently with a good deal of self complacency and pride, to the past history of his paper and its consistent course. He says we have read the Advocate in times past and surely he (we) "needs no one to tell us what our principles have been, *nor what they now are.*" This is a tacit admission of the Editor, who if left to himself would scorn concealment, that his political principles are entirely unchanged. But mum's the word from head quarters—mum's the word through the rank and file, coupled with the word *caution* as to the putting recreant Democrats in places of power or trust. Depend upon it that they will never again be caught with another John Tyler (honor to his name) to stand in the way of accomplishing their nefarious but more concealed schemes. Those recreant Democrats who now ape the lion in the "Republican" party, will when the proper time comes, contemptuously be told.

"You wear a lions hide!—Go hang a calf skin on those recreant limbs." They will then be told, in the language of the Advocate, a few days since, that they will then have such places assigned them as may "be deemed proper." But it is now necessary to pull the string occasionally so as to elevate the stool pigeons and keep them fluttering, just as they did John Tyler and others, in 1840. But they will not again be caught by any of these recreants, whom they now most cordially despise.

We warn the Democratic party and the electors of all parties that this new Republican party is nothing but the old federal and Whig party, under a new name—the same old coon with new fur. The leaders hold to the same principles and will be as unscrupulous in carrying them into effect as they were after the election of Gen. Harrison in 1840. The first thing they will do, should they attain power, will be to overthrow again that great and wise measure of President Jackson and Van Buren, the subtreasury, and get up another U. S. Bank, a great paper machine in some shape to *absorb*, not *keep* the revenue of the government.

The next thing attempted would be a revival of the old schemes, for a national debt for internal improvements by the general government within the States—to accomplish that object they have not in times past considered the Constitution of the United States any great "obstacle across their path." It is profitable to look back a short period in the history of the Country, and hold up to public view some of those old schemes to travel over the Constitution and sum up a public debt.

We have before us a copy of the Journal of Debates in the House of Representatives (April 1830) upon the Buffalo and New Orleans Road Bill. This bill proposed the construction of a great National Road like the Cumberland Road, between these cities via the city of Washington, and to appropriate $1,500 per mile—the length of the road was some fifteen hundred miles and it was shown by the debates, that the ultimate cost would reach *fifteen millions of dollars.* This was one of many equally wild projects which passed the House of Representatives at that session—the latitudinarian opinions of the powers of the federal government, at that time entertained. Mr. Irwin a member from Pennsylvania, said that it had become a "settled conviction that the Constitution had given to Congress full and complete control over the subject, limited only by their discretion, in legislating for the general welfare," and he added in the next paragraph. "It has been said, Sir, that at a former session of Congress, it was only designed to make a National Road from this City (Washington) to New Orleans, but that the friends of the measure, despairing of being able to pass the bill in that shape, determined to enlist other interests, and that the sectional feelings of the people in the interior of Pennsylvania, could be brought into action, by extending the Road through that State to Buffalo."

In these brief extracts are contained two unblushing propositions or assumptions—1st that under the word "to promote the general welfare," contained in the *preamble* of the Constitution the power of Congress over the subject, *i. e.* road making in the States, was limited only by its *discretion*—a little more omnipotence than has ever been claimed even for the parliament of Great Britain.—2d, the impudent and corrupt proposition, is openly assumed on the floor of Congress, that, to carry the Bill, it had become necessary to log roll it through Pennsylvania and a small section of New York to Buffalo, giving to the State of New York the tip end of the tail of the great snake whose head was to reach the City of New Orleans. For this tail of the road, leading not to or from any business, but away from all natural course of business and travel, some sixty or seventy miles in length, over the roughest portion of the Counties of Erie and Cattaraugus, the honorable member from Pennsylvania, counted upon the vote of a portion of the representation from this State, *and he obtained it.* Every federal and antimasonic member of Congress from Western New York voted for the bill.

Mr. Angel a democratic member of Congress from the County of Allegany in this State, denounced the bill in an animated and able speech from which the following is an extract. "If gentlemen are determined to force the bill through right or wrong—if they are determined to plunder the treasury and pursue a course of public rapine. I feel anxious that the State of New York should not participate in the disgrace. I believe this is the first attempt of this government to force her system of road making into that State. The small section of this road which is located within her limits, appears to be intended as an offer of secret money to bind her to the unhallowed compact. I protest against the whole system, and particularly against the attempt to commence it in this State. Should this bill pass in its present shape, I should consider the intrusion into our territory as a bane to our prosperity, a poison to our happiness and the destruction of our tranquility."

This dangerous attitude of the federal government was attained by the aid of antimasonry. Old party names were ignored and the people were deluded by the excitement of antimasonry—In 1832 the whole opposition assumed the cognomen of whig and antimasonry was forgotten. Now the name of Whig is abjured and that of "Republican" adopted, hoping that under the delusion of antislavery to obtain control of the federal government, and finally establish it in the exercise of those powers, which the opposition of the Democracy, has on all occasions grasped at, but which providentially we may say, they have not hitherto succeeded in perpetuating.

News Items.

By over land mail from California, we learn that Milton S. Latham democratic candidate for Governor was elected on the 5th of last month by a majority of 20,000. The entire state ticket has gone Democratic.

A fire occurred in Sing Sing States prison, in the mechanical department, on Sunday morning which destroyed property to the amount of $60,000.

There is a rumor that a formidable filibustering expedition has left Charleston for Nicaragua.

The Buffalo Republic is trying hard to do a good thing for the poor men and women of that city. It is somewhat "down on" the *forestallers*—men who buy produce of the producer, and sell to the poor citizen for double the money.—This paying two or three profits on every thing we eat is bad business for the poor man. A correspondent writes that he priced some apples for which he was charged $1.00 pr bushel, and when he went home his wife showed him some of the same sort that she had bought of a farmer for fifty cents. Such a wife would save her living.

JAMES R. COVEY, of Detroit, Michigan has recovered a verdict of $20,000 against the city for damages to his wife who fell into an open sewer by which she was greatly injured. The city Fathers had better cover up their sewers, or other men's wives will be falling into them—by accident—for which they will be sued, and have to pay for the *stitches.*

The Boston Post recently said that Silas Hale Esq. was the original Green Mountain Stallion. It should have said the original owner.

At the Annual Fair of the Oneida Co. Agricultural Society which closed on Thursday last, Mr. C. C. Coe and Mr. Cochrane started upward on a trip in a balloon prepared by Mr. Coe for the occasion. In rising says the Utica Telegraph.

The basket struck the roof of Manufacturers' Hall, but soon cleared it, and then the balloon rose gradually and beautifully, "amid the plaudits of the multitude," to about 300 feet, when it took a northerly course. When up about fifteen minutes, it struck a south westerly direction, then a southerly course. After being up about half an hour, the balloon was seen to collapse suddenly, and the basket to oscillate fearfully. Our country friends cried out "the balloon has caught fire!"—how, they didn't explain. They "could see the smoke,"—and the netting of the aerial ship really did present that appearance.—The swaying of the basket continued for about a minute, when the balloon formed a parachute and the descent became gradual. The navigators landed safely three miles from Rome.

It appears that there had been a rent in the balloon, which had not been mended in a proper manner. At an altitude of two miles, the expansion of the gas, in the rarified air, burst the cloth in the exact spot where it had been mended, and thus Mr. Coe and his fellow traveler approached terra firma a little sooner than they had anticipated, and in a manner more rapid [illegible] We are happy to state [illegible] was to the balloon and [illegible]

Between Saturday and Sunday, there arrived by lake at Buffalo, *two Steamers, twelve Propellers, four Barques, four Brigs, and fifty Schooners.* The amount of flour reduced to wheat, and other kinds of grain, brought by these vessels was *six hundred and fifty thousand*—nearly a million bushels. This was but the grain arriving. There were also over a million feet of lumber, half a million of staves, four thousand five hundred barrels of pork, two thousand tons of coal, &c. A pretty large business.

The following is a statement of the earnings of the Buffalo, New York and Erie Railroad, (Buffalo to Corning,) for the month of September, 1859, compared with the same month of last year:—

The Buffalo Republic says that beef is declining in that market. Probably it means that the Buffaloes are declining beef. From the complaints of poverty which come from the Queen city, we should not suspect that beef would go down there at all.

'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief [illegible] Profs. Chamberlin & Hollis, of Buffalo would say to the afflicted of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. [illegible] They have restored to health a great number of persons in Buffalo and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. [illegible]

[illegible]

Every thing connected with their mode of applying electricity is new and original with themselves. [illegible]

All is new and unknown to medical men and others except the few instructed by them.

[illegible]

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

THE DAILY HERALD.

ONLY SIX CENTS A WEEK.

LOCAL MATTERS.

Perry, Sept. 5th, 1859.

Dr. Rowe,

Sir —I take the pleasure of writing to you hoping to find you in good health as this now leaves me at present. The remedy you gave me is the best I ever had, it has made my skin look clean and healthy and I feel better now than I have felt for the last seven years. The day you left here I weighed 143 lbs., and now I weigh 157½ lbs. I have doctored for the last 6 years and never could find a Doctor to cure me until you, and I shall feel ever thankful to you.

Yours truly,
DANIEL M. FERGUSON.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the [illegible] student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but [illegible] efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial?

Sold by druggists and dealers everywhere.

See advertisement in another column. 1md&w.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies.)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. [illegible] Block, Corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as entirely incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and then can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, are able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

GREAT DISCOVERY!
NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately communicates to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

St. Louis, Oct. 7.

The Overland Mail, with San Francisco dates of the 9th ult., arrived this evening.

The State election on the 7th resulted in the undoubted choice of Milton S. Latham, the Lecompton democratic candidate for Governor, by a very large majority—perhaps 20,000.

Messrs. Scott and Birchall are probably elected to Congress, although their opponents, Messrs. Baker and Kibbee, who received the united vote of the Republican and anti-Lecompton party enjoy the benefit of a slight doubt in their favor.

The anti-Lecompton candidate for State Printer, who was also supported by the Republicans, has a slight chance of election.

With these possible exceptions, the Lecompton Democratic State ticket is elected by an immense majority.

Both branches of the Legislature are largely Democratic.

It would be about a week before the official returns were counted.

The people's reform ticket, being the regular succession of that inaugurated in 1856 by the Vigilance Committee, has again triumphed in San Francisco by a handsome majority.

Since the sailing of the 5th, business had been a good deal interfered with by the State election, and but a [illegible] demand for goods for the country had been experienced.

A number of arrivals had occurred from the Atlantic and foreign ports, from which a few sales are reported.

The market remains firm and quiet, and quotations unchanged.

New York, Oct. 8.

An attempt was made on Saturday to fight a duel at Hoboken.

The principals were Wm. Mulligan, the pugilist, and Capt. Kruiser, the Crimean and McClean hero.

The affair fell through, as is alleged, in consequence of the unwillingness of the captain, who was the challenger, to come to time, after both parties with their seconds had met on the ground.

A shooting affray took place last night at French's Hotel between Henry Wilkins, a printer, and William Hughes, a New Orleans printer. Hughes received a wound in the breast from a pistol shot and was conveyed to the hospital.

DR. HOOFLAND'S
GERMAN BITTERS,
AND
DR. HOOFLAND'S BALSAMIC CORDIAL.

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure, without fail, the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe Diarrhœa proceeding from Cold in the Bowels.

These medicines are prepared by Dr. C. M. Jackson & Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. Jackson will be on the outside wrapper of each bottle.

In the Almanac published annually by the proprietors, called Everybody's Almanac, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers of the United States. Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle, Ritchie, Harry Hazleton, [illegible] Reynolds, Francis S. Smith, Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Ela Mayville, Wells Hill, regularly, while a score of other well-known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has thus engaged a force of talent that cannot be rivalled by any establishment in the world!

NOTICES OF THE PRESS.

[illegible]

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a [illegible] Story Paper, in which we intend to give our readers a [illegible] of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! [illegible]

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Miniature Morals, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, we [illegible] them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation to the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken [illegible], they are now taking hundreds of copies. This is the general effect among the five thousand News agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, nor be a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STREET & SMITH,

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body, pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named here, have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of diseases, [illegible] with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes, without expense, in any part of the country [illegible] description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful diseases will receive [illegible] of Health [illegible] and perfect [illegible] which will be to them a true guide through life.

MADE TO PAY.—A woman with her two children were put off a train on the Cleveland, Columbus and Cincinnati Railroad for not being able to pay fare, the woman offering a bill which the conductor pronounced worthless. The party were put off the train on a cold and rainy day, and having over half a mile to walk to shelter the woman and her youngest child took a severe cold, which, after a sickness of over two months, resulted in the death of the latter. A suit was accordingly commenced for damages, and after a protracted trial the jury rendered a verdict for six hundred and fifty dollars.

Public Debt

The burthens, which "man's inhumanity to man" in the past ages of the world has imposed upon his brother man, have hardly, at any time, been equaled by the modern invention of a public debt. The debts population, and military force of the following principal nations of the Globe, at this time, stand nearly as follows:—

	Population.	Debt.
Austria,	40,149,875,	$1,250,000,000,
France,	36,039,364,	1,430,000,000,

The above statement was compiled a few months since about the time of the commencement of the late war between France and Sardinia and Austria, and is believed to be nearly correct. Great Britain, it will be seen exceeds any other power on the score of the magnitude of her public debt. Nearly one half of this frightful debt was occasioned by the war waged against our Country, during the Revolution and the wars against the French [illegible] [illegible] the Declaration of American Independence. One hundred millions of this enormous debt was voted by parliament to the owners of slaves in the British colonies, who were emancipated by the act of 1833. The laboring masses of the English people now wear a galling yoke placed upon their necks by the aristocracy, for the purpose of paying the interest on a debt incurred for the purpose of putting down the freedom of white people in this Country and in France, and in giving freedom to the negroes in her colonies—as a further protection to the owners of slaves, parliament imposed a duty, equal to about four cents upon the pound of foreign sugar, in the vain hope of enabling the planters to continue to work their plantations. But the act was a *felo de se*. It did not enable the planters by means of free negro labor to compete with the producers of sugar in other Countries, and the high price of sugar, caused by this excessive duty, put it beyond the means of many to purchase. A decline in the quantity imported, and of course a decline in the duties was the consequence. The only effect of this legislation, therefore, was to deprive a large portion of the population of Great Britain of the use of sugar.

The interest on the national debt of England at three per cent, exceeds one hundred millions of dollars annually. But this is one item only of the tax upon labor. To this is to be added the taxes imposed for the support of the most expensive government in the world—the taxes for the support of the established Church, and the still more crushing taxes required to pay profits on capital in the various branches of its employment. All these taxes must be paid before labor can receive any reward for its services. These demands upon labor in Great Britain and Ireland, have produced what is denominated the *laboring class*, consisting of some four or five millions. The boundaries between this class and other classes or callings of the people, are as distinct, and marked as those between the Master and his slave in the Southern States, save only the difference in Color. This laboring class of white slaves seldom acquire property to any considerable amount, real or personal. Indeed few among them, expect to acquire any for themselves or their children. The child is early inured to toil and taught to live upon the shortest allowance, both of food and raiment. No efforts are made in England for the elevation of this laboring class. The condition of the tenant or vassal under the feudal system, practiced in England, after the conquest, was preferable to that of the laborer in this laboring class in that Country at the present day. The laborer is quite as degraded and debased. The vassal had some motives of ambition—the hope, at least, of military renown and distinction to encourage him to serve his Lord in the petty wars of the time, but the poor laborer has not even this poor encouragement to stimulate his efforts.

A large public debt is totally inconsistent with national independence and the liberties of the people. The government as in England, becomes a machine in the hands of the fund holders to compel these contributions from labor what the individual creditor, with the most stringent law in his favor would not enable him to obtain. He is indeed "a power behind the throne greater than the throne itself." In the hands of the government machine he can command the military force of the Nation to enable him to collect *his debts* in the shape of taxes of the State. He needs no legal process—no action at law—no judgment and execution as between individual debtor and creditor. He controls the Supreme power of the State and is moreover, as a creditor of the State exempt from taxation to the amount of his debt.

It will be seen by the above statement of the debts of various Governments, that while the debts of the larger powers are frightful in amount, in proportion to population those of the Italian States are more limited. Indeed, in some, as in Tuscany, the debt is less in proportion to population than the public debt of this State, which a reckless and unscrupulous political party during the last twenty years, has hung upon our necks and which will probably during twice that number of years be a blight upon our industry and that of our children. A decline in the population and wealth of the State taxation, be induced to sell their property and remove to some other State or Territory, where there is no public debt, and where yet is to be seen some traces of public virtue, and less political vice and degeneracy, than we have witnessed in this State during the ascendancy of antimasonry, whiggery and black republicanism.

JUDGE TAGGART'S PROPHECY.—Our Republican adversaries are in a pretty considerable of a muss in this county. JUDGE TAGGART'S Manifesto in yesterday's Advocate has set them in as much of a flutter as ever was a flock of pigeons by the discharge of a handful of small shot among them.

The middlemen, or small aspirants for political fortunes have been having things all their own way, and they have *overdid* it. Without that foresight that characterizes the actions of [illegible] men, they put in nomination, some [illegible] county officers who are so nearly of a feather, that they are suspected of being hatched in the same political nest, and belonging to the same brood. When [illegible] would have paid some deference to public opinion and mixed up a little as regards the views of the masses, on whose votes they are dependent for election. The former believes in voting bonds, he don't like all Shanghais, in his hennery, nor his herd exclusively Durham, and he is very likely to endorse the same sensible ideas into his political opinions.

An active move is now being made for a grand Mass Meeting to be held at ELLICOTT HALL on the 12th inst., of men of all parties, to take into consideration the question as to who shall be the JUDGE of the political destinies of this County. We anticipate a lively time, a jolly time in fact, one that shall make some laugh out of one corner of the mouth more than ever. The ball is in motion, keep it going.

P. S. The Advocate's coat of soft soap on the backs of the County nominees won't save them. They better insure at some other office in the future.

Mr. C. C. Coe the balloonist who escaped so narrowly from the burning of his Air Ship a few days ago, in trying to extricate the wreck from the tree in which it lodged, fell a distance of 70 feet. The Rome Sentinel says the bones of the right wrist were dislocated and *partly* broken—making what surgeons call a compound dislocation and fracture. So far as was ascertained no other serious injury resulted, although Mr. C. complained much of his back and head; it was a severe concussion throughout the whole system, and it is a great wonder that he was not instantly killed. The bones of the wrist thus unjointed protruded out a couple of inches, and made a sight painful to behold.

We should think the bones must have been entirely broken. Mr. Coe has since recovered his senses, and hopes are entertained of his entire recovery.

A woman in Mt. Clemens Mich., living in a house with another woman got into difficulty with her nearest of neighbors—as women sometimes will under the same roof—and to avenge herself of some real or imaginary wrong, sent the neighbor on the other side of the partition a live snake folded in a piece of paper. The woman receiving this reptile gift was near confinement which soon took place, the infant soon after expiring under circumstances that warranted the opinion that its death was occasioned by the fright of the mother. The she devil was arrested and held to bail on a charge of intent to kill.

The city of Wilmington, Del., was lighted a few evenings since by a gas made from water, the gas having been manufactured and turned into the city gas pipes. The gas is made by passing a current of steam over burning charcoal, the heat of which decomposes the steam, and its elements uniting with the carbon and of the burning coal, carbonized hydrogen gas is the result. The oxygen of the water that decomposed enters into the gas as a constituent, giving it a brilliancy far superior to the common coal gas. It is said to be much cheaper than coal gas. Professor Sanders, of Cincinnati, is the discoverer.

MAN MISSING.—Fifty dollars reward! A man by the name of Donald C[illegible] left the residence of the subscriber on the night of 20th inst., under circumstances that caused alarm to his friends. When he left he had on a darkish sack coat, with patches on both elbows, mould plush cap, heavy summer pants with patches on the knees, striped shirt and usually wore the band unbuttoned, and an old pair of boots.

In his ways he is very peculiar and reserved, shunning all society and conversation. In person he is tall, very round shouldered, usually walks slow and considerably stooping, and is about 35 years of age. Any one giving information that will lead to his restoration to his friends, will receive the above reward.

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up or beyond the reach of medical aid, and have but a short time before you [illegible] [illegible] read the following [illegible] [illegible] and hope on, as an opportunity is now offered for the restoration of your health. Profs. Chamberlin & Bellis, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else to be incurable. The reader might here ask do they really cure such cases [illegible] [illegible] [illegible] [illegible] [illegible] to [illegible] [illegible] [illegible]. In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo and surrounding [illegible], who have been suffering from various diseases five, ten, and fifteen years and upwards, in a few days. [illegible] [illegible] a Class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] stomach, but by direct application of the positive and negative [illegible] of electricity. Again, it might be asked, has not electricity been employed as a remedial agent for years, both in Europe and the United States with indifferent success? And are not numbers now using it in our very midst, with no better result? This is all very true, and when we consider the ignorance and recklessness displayed in its application, the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases only, and uncertain even in these. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is [illegible].

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system, and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of [illegible] [illegible], and the effect upon the nervous system is similar to that produced by over-doses of [illegible] [illegible].

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the [illegible] [illegible] of life, health and disease, is new. Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

PERRY, Sept. 5th, 1859.

Dr. ROWE,

Sir:—I take the pleasure of writing to you hoping to find you in good health as this now leaves me in at present. The remedy you gave me is the best I ever had, it has made my skin look clean and healthy and I feel better now than I have felt for the last several years. The day you left here I weighed 143 lbs, and now I weigh 157½ lbs. I have doctored for the last 6 years and never could find a Doctor to cure me until you, and I shall feel ever thankful to you.

Yours truly,
DANIEL M. FERGUSON.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial?

Sold by druggists and dealers everywhere.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies.)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Mosely Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thought of which chills the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as positively incurable. These patients now live as witnesses to this fact. CATARRH, that most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self-taught man. Dr. [illegible] has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation (long study of the disease) been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 944, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the best Physicians in this country.

Dr. Rowe will be at the Exchange Hotel, Attica, for 3 days Tuesday, Wednesday, Thursday, Friday [illegible] consulted on the above [illegible]

THE GREAT AMERICAN

Boot & Shoe Store.

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, north side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, whom he has [illegible] neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand [illegible] from the best of judges; and MECHANICS to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage [illegible]

American State Committee.

ALBANY, Oct. 4.

At a meeting of the American State Committee at the Delavan House, [illegible] the Americans of the State was unanimously adopted, and measures taken to secure a full vote for the ticket nominated at the Utica Convention.

Republican Nomination.

Rufus W. Peckham was to-day nominated by the Republicans for Supreme Court Judge in the 3d district, after a spirited contest.

State Fair.

Although it was not the first public day of the fair, yet a large number of persons visited the grounds. The weather was delightful, with a clear sun and cool air.—There were ample accommodations to reach the grounds, through a perfect wall of dust, by the common road or by means of the Northern Railroad, which runs trains to the door of the Fair Grounds, which are about one mile from the city.

Up to 4 o'clock to-day the receipts amounted to $[illegible], which is far in advance of any former year. The exhibition promises to be a grand one, but the stock has not yet all arrived. Horses are in unusual numbers on the ground, and far ahead of former years. Vermont and Connecticut are liberally represented in this department by a larger number of Black Hawks and Morgans than usual.

In machinery, arts and manufactures there will be fine display, as the entries are numerous, and the articles already here are of the superior description.

The telegraph apparatus and the telegraph alarm bell are put up, but were not working to-day.

To-morrow is the first day of admission for the public.

Gen. Walker and his Men.

NEW ORLEANS, Oct. 4.

Collector Hatch has refused a clearance of the steamer Philadelphia, for Aspinwall because it is alleged the steamer is engaged to take Gen. Walker and 200 or 300 men from Texas, Alabama and elsewhere, now in camp below this city, and ready to start for Nicaragua. They are ostensibly bound for the Chiriqui diggings and intending to leave on the 5th.

Later.

Gen. Walker and his men got off last night, and sailed from Berwick. [illegible] in their own steamer, without a clearance.

Cotton and Sugar Crops.

NEW ORLEANS, Oct. 4.

Accounts from the interior represent the cotton crop of Louisiana as first rate.—The sugar crop is of an inferior description and small.

The Steamer Fulton.

Advices from Pensacola are to the effect that there are some hopes of yet saving the U. S. steamer Fulton, ashore on Santa Rosa Island.

Letter from China.

T. B. Beaumont, of Jamaica Plain, and now a resident of Hong Kong, China, in a letter dated July 23d says, a rumor here, probably a Chinese story, is that the Emperor has sent a communication to the Governor of Shanghai, saying that the firing from the forts of the Peiho river upon the British and French Ambassy, was not by his orders, but by those of Mandarins, whose heads he has ordered to be struck off for the act.

It is expected that the American Minister, Mr. Ward, has proceeded to Pekin.

Mr. Bruce, the British Minister, has gone to Japan to remain there a while.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,
